HUSSON COLLEGE DEGREES

Since 1954, Husson College has conferred the baccalaureate degree in four major areas of business: Accounting, Business Administration, Business Teacher Education and Secretarial Science. Each of these areas has a variety of business programs open to a student's choice for concentration.

The Associate in Science Degree, a two-year program, has been offered since 1965. The Associate in Business Science is given in areas of Accounting, Business Administration, and Secretarial Science. Any student receiving an A.B.S. degree may continue a program of study for a baccalaureate degree.

Husson College will confer its first Master in Business Science degree, May 1980.

Any student who maintains a 3.0 cumulative academic average or better throughout their enrollment at Husson is identified for the achievement. From HIGHEST DISTINCTION to HONORS are the categories indicative of scholastic achievement.

ACADEMIC DRESS

The use of caps and gowns and hoods as part of academic ceremonies began in Europe around the thirteenth century.

Today the regalia is much modified. The style of the gown, as well as the length of the hood, is indicative of the degree conferred: bachelor's, Master's, doctoral. The hood is lined with the official color of the institution conferring the degree. For Husson, the colors are green and white.

The velvet edging of the hoods varies in width according to the degree; the color, gold, indicative of science.

The cap or mortarboard is of similar material as the gown; the tassel, black or the color appropriate to the subject. Mortarboards worn with a doctoral gown and hood have a gold tassel.
