VISION

Husson is a university of choice for premier professional programs where students succeed, experiential learning is championed and global engagement is emphasized.

MISSION

Husson University seeks to inspire and prepare students for professional careers in current and emerging fields through professional programs informed by the sciences and humanities.

GUIDING PRINCIPLES

Husson University community achieves this career preparation by supporting and emphasizing

- Outstanding teaching.
- A commitment to student empowerment and support for student success.
- Scholarly contributions to one's discipline or field of expertise.
- An undergraduate and graduate curricula that are challenging, relevant, and promotes critical thinking, self-confidence and strong communication skills.
- Principles of ethical behavior and social responsibility.
- Lifelong learning in preparation for the challenges of a constantly changing world.
- A diverse cultural and global perspective achieved through student development and experiential learning opportunities that reinforce our commitment to a strong academic community.
- Careful management and stewardship of University resources.

HISTORY

Founded in 1898 as Shaw Business College and School of Penmanship, Husson has evolved through the years and now includes the College of Business, College of Health and Pharmacy, and a College of Science and Humanities.

Boasting over 1,400 students, the College of Business remains the heart of Husson University. Degrees include accounting, audio engineering, business administration, integrated technology, criminal justice, forensic science, graphic/visual design, hospitality and tourism management, legal studies, mass communications, sport management, and video/film production; with graduate degrees in business administration, and criminal justice administration.

Founded in 1892, the Bangor General Hospital School of Nursing became a part of Husson in 1983. Today, the College of Health and Pharmacy – and its strong base of alumni and traditions – has expanded to offer bachelors and masters degrees in nursing, and masters and doctoral programs in occupational therapy, physical therapy and pharmacy.

Within the College of Science and Humanities, behavioral science courses have evolved into academic degrees in biology, English, exercise science, health science, healthcare administration, public health, and psychology. The College also provides the general education coursework for the University. Husson has built its School of Education presence with undergraduate degrees in elementary and secondary education, and graduate degrees in clinical mental health counseling, human relations, and school counseling.

DEGREE-GRANTING AUTHORITY

Husson University is incorporated as a nonprofit, independent institution of higher education by the State of Maine. The Maine Legislature first enacted degree-granting authority for Husson in specific Bachelor of Science programs in 1953 followed by other specific degrees and the unrestricted authority to award the Associate of Science (1992), Bachelor of Science (1992), Master of Science (1993), and Honorary Doctorate (1969) degrees. In 2004, the Maine State Board of Education granted Husson the authority to award the Doctor of Physical Therapy. In 2007, the Maine State Board of Education granted Husson the authority to award the Doctor of Pharmacy.

ACADEMIC DISTINCTIONS

Based on a 4.0 grading scale, Husson University recognizes the following associate and baccalaureate academic distinctions at graduation:

Cum Laude	3.40 - 3.59
Magna Cum Laude	3.60 - 3.79
Summa Cum Laude	3.80 - 4.00

The Valedictorian is the baccalaureate graduate with the highest grade point average. The Salutatorian is the baccalaureate graduate with the second highest grade point average. The eligibility requirements for Valedictorian or Salutatorian include completing 90 credit hours at Husson University, enrolling as a full-time student, completing the degree in five years and other eligibility clarifications as set forth in the University Catalog.

ACADEMIC REGALIA

The tradition of academic regalia dates to the formation of the first European universities in the ninth century. At that time, scholarship was conducted at religious centers, and the dress of the scholar was also that of a religious cleric. Long gowns and hoods had the functional purpose of providing warmth in unheated libraries and cells. The use of the raiment continued unofficially until Oxford and Cambridge Universities permanently adopted the clerical vestments as ceremonial academic costume. This tradition spread to American colleges and universities in the late nineteenth century, when a code was set that defined the cut and style of American gowns and prescribed colors to represent the various divisions of learning. For example, golden-yellow, symbolizing the wealth of knowledge gained from scientific research, was assigned to the sciences. In accordance with tradition, Husson regalia includes a long black gown and a mortarboard with a golden-yellow tassel. Husson Masters and Doctoral graduates wear hoods referring to their division of learning: drab representing business, peacock blue for criminal justice, gold for clinical mental health counseling and human relations, apricot for nursing and nursing education, ink for occupational therapy, olive for pharmacy, teal for physical therapy, and light blue representing school counseling. A golden-yellow cord draped across the shoulders of associate and baccalaureate-level students represents their academic honors.

HONORARY DEGREE

One Hundred and Twenty-Fourth Commencement

Honorary degrees have been granted by colleges and universities since colonial times. These degrees are not awarded for academic achievements, but rather are awarded to honor or recognize the achievements of outstanding citizens.

Honorary degrees highlight the accomplishments of individuals in the arts, public life, education, scholarship, business, health, and the sciences. The first honorary degree was awarded at Oxford University in the 1470s. Since 1969, Husson University has recognized prominent citizens for their contributions to the community, State of Maine, nation, and world.

By virtue of the authority vested in its members, the Board of Trustees is pleased to confer the following honorary degree upon the occasion of Husson University's One Hundred and Twenty-Fourth Commencement.

DAVID AND BEVERLY WORTHINGTON

David and Beverly Worthington are the founders of the Worthington Scholarship Foundation. The Worthington Scholarship Foundation awards scholarships to graduates of partnered Maine public high schools who will be attending a participating Maine college or university.

Born in Worcester, Mass. in 1941, David served his country for three years as a part of U.S. Army's XVIII Airborne Corps. After completing his tour of service, he earned a Bachelor of Science in Geology from Marietta College. In 1969 he received a Master of Science in geophysics as part of a Texaco Fellowship at the University of Utah and Virginia Tech. His oil industry career began in Houston, Texas with the Shell Oil Company. Later, David took over the TGS Geophysical Company and assumed a majority ownership position. After merging with a Norwegian company (NOPEC), the TGS-NOPEC Geophysical Company became the fourth largest company of its kind in the world. David retired from TGS-NOPEC active management in 1996.

Beverly Worthington was a commercial pilot who owned and operated an aerial application company in Texas for many years. Her roles in agriculture and international trade included serving as a liaison between the Texas Department of Agriculture and the Texas State Legislature on agriculture issues. She also served as an executive board member of the Gulf Coast Agribusiness Council, and participated in the Uruguay Round; the eighth round of multilateral, international trade negotiations conducted within the framework of the General Agreement on Tariffs and Trade (GATT). A graduate of Lee College in Texas, Beverly has a degree as a legal assistant.

COMMENCEMENT SPEAKER

Commencement speakers strive to impart words of wisdom that will be relevant to those graduating with the hope that their advice will help make the transition from graduate to professional more meaningful. This year, our speaker was selected to share a reflection on the journey of the Class of 2023. This speaker has experienced the same challenges as the rest of the class and perservered.

RYAN WHEELOCK '22

Ryan Wheelock is a graduate student at Husson University who is working toward a Doctor of Physical Therapy degree and Master of Business Administration (MBA) with a concentration in health care administration. He anticipates completing his degree studies in May 2024. He grew up in Augusta, Maine and attended Cony High School.

Over his five years at Husson, Wheelock has served as the president of Student Government and the Organization of Physical Therapy Students (OPTS). He has also been the student representative to the University's Board of Trustees. With over 800 hours of community service and thousands of dollars in funds raised, Wheelock has become an active member of our university family. One of Wheelock's proudest accomplishments was creating a pop-up food pantry on campus to address food insecurity.
