HUSSON COLLEGE DEGREES

Undergraduate Degrees

Husson College has conferred the Bachelor of Science (B.S.) degree in the major areas of Accounting, Business Administration, Business Teacher Education and Office Administration since 1954. Each of these academic areas has several concentrations of study for students to choose from. In 1982, Husson was authorized by the Maine State Legislature to award the Bachelor of Science degree in Nursing. Also in 1987, the first Bachelor of Science degrees were awarded in the major of Computer Information Systems.

The Associate in Science (A.S.) degree, generally reflecting a two year program of study, has been conferred by Husson College since 1965. The Associate in Science degree is given in the areas of Accounting, Business Administration, Computer Information Systems, Medical Assisting and Office Administration. A student receiving an A.S. degree has the option of continuing a program of study toward a Bachelor of Science degree.

Students who maintain a cumulative grade point average of 3.4 (on a scale of 4.0) or better throughout their enrollment at Husson are recognized for that achievement as follows:

Distinction	3.40 - 3.59
High Distinction	3.60 - 3.79
Highest Distinction	3.80 - 4.00

Graduate Degree

In 1978, Husson College received approval from the State Legislature to award the Master of Science in Business. Classes began in the Summer of 1978. The first degrees were conferred from the 36 credit hour program during Husson's Eighty-First Commencement in 1981.

Academic Regalia

The academic regalia or dress worn by graduates and other participants during a commencement exercise is steeped in tradition. The use of caps, gowns and hoods as part of academic ceremonies began in ancient European universities around the thirteenth century. It is thought that the regalia was worn to distinguish academic persons from other members of society. The regalia was also thought to serve some practical purposes as well in the unheated medieval buildings. In addition, custom dictated that hoods were needed to cover the heads of medieval scholars.

Late in the nineteenth century, academic regalia use became more formalized through the introduction of uniform code or standards of dress. Today, the style of gown and the length of hood indicate the degree to be conferred. Dress differs for candidates receiving the undergraduate, master's or doctoral degree.

The hood is lined with the colors of the institution conferring the degree. Husson's colors are green and white. The velvet edging of the hood varies according to the degree. The color gold is indicative of science. The apricot velvet edging signifies nursing. Husson uses a yellow tassel on its motarboards (caps) which is also a school color.

HONORARY DEGREES

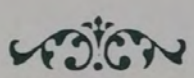

Ninetieth Commencement

Honorary degrees have been granted by colleges and universities since colonial times. These degrees are not earned in the academic sense, rather they are awarded to honor or recognize the achievements of outstanding citizens.

Honorary degrees usually highlight the accomplishments of individuals in the arts, public life, education, scholarship, business, health and the sciences. The first honorary degrees date back to 1662, when Harvard granted its first honorary degree fifty years after its founding.

Husson College received its legal authority from the State of Maine Legislature in 1970 to confer honorary degrees. Since that time, Husson has recognized prominent citizens for their contributions to the community, the State of Maine, and to the Country.

By virtue of the authority vested in its members, the Board of Trustees is pleased to confer three honorary degrees upon the occasion of Husson College's Ninetieth Commencement.

CAROLINE DUBY GLASSMAN

To Caroline Duby Glassman: In recognition of your distinguished career as a jurist and attorney at law during which you have evinced an untiring commitment to justice for all persons regardless of circumstance, and to acknowledge the important role you have served and continue to serve as an inspiration to the legal profession. It is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Laws with all the honors, rights and privileges thereto.

ROGER J. CASTONGUAY

To Roger J. Castonguay: Your commitment to professional excellence in the field of banking, coupled with your dedication to civic and family responsibilities, personify the best values of a responsible free enterprise system and a caring individual. In recognition of these achievements, it is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Commercial Science with all the honors, rights and privileges thereto.

G. PEIRCE WEBBER

To G. Peirce Webber: In recognition of your selfless devotion to the causes of health, education and welfare for the benefit of the people of the Greater Bangor area and all of Maine, and your unfailing generosity to the furtherance of these good causes, it is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Humane Letters with all the honors, rights and privileges thereto.
