President Beardsley's Message to the Graduating Class of 2009

Dear Class of 2009,

We may be an institution that was founded in the 1890s, yet, you are the very first class to graduate from Husson University. We graduated record numbers and Husson has experienced dynamic growth during your Husson years. This rising recognition occurred on your watch. Congratulations on a job well done.

In years to come Husson will ultimately be known by the careers and lives of its alumni. Now, that is you. You are evidence of what a Husson education really means. And, you will make us all proud.

Over the years we have evolved as an institution and we will continue to evolve in the years to come. We cherish our origins in Business, Accounting, Nursing and Education even as we move into new programs such as Pharmacy and Law. What ties all this change together is our ongoing mission to prepare graduates for professional careers. As these careers evolve, so will Husson.

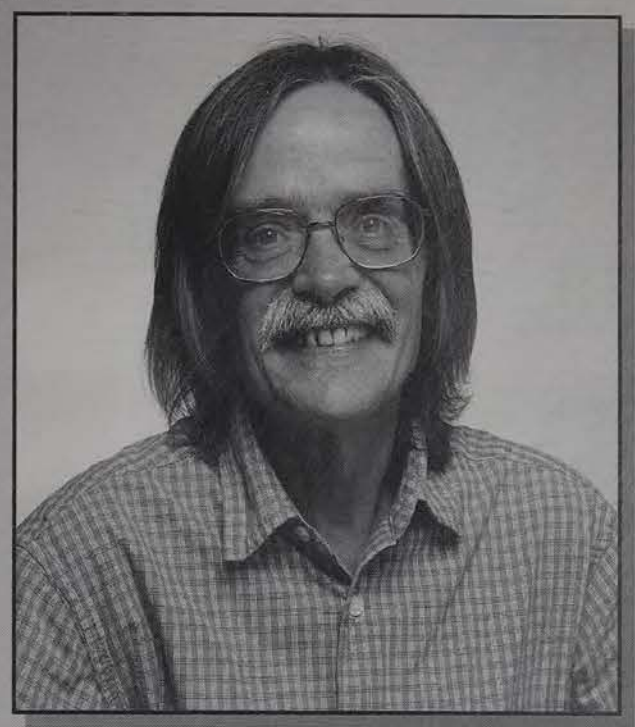

In all this we will remain your alma mater and we will always be your university.

2008-2009

In Memory

As NESComs Video Production Coordinator, Gary was always happy to share his knowledge and love of communications with his students. He has loved television since the day his parents bought one back in the 1950s. Gary served in the US Army from 1968-1971 in various locations including Vietnam War. He moved back to his home state, Pennsylvania, where he received his Associates Degree. In 1974, Gary moved to Maine to attend the University of Maine and earn his Bachelor Degree. He has lived in this state for over 30 years. Gary worked at WVII Channel 7 as a Producer/Director and later took on the role of Production and Promotions Manager. He also worked at the Maine Public Broadcasting Network where he continued to freelance. Gary began his career at the New England School of Communications in 1991. Garys passion for television production was contagious and he touched the lives of students and faculty alike. He will be sorely missed by the NESCom family.

Gary Kasparek

John P. Watson was a first-year Husson student from Etna, Maine who planned to major in Criminal Justice. John was a big sports fan and participated in intramural sports at Husson.

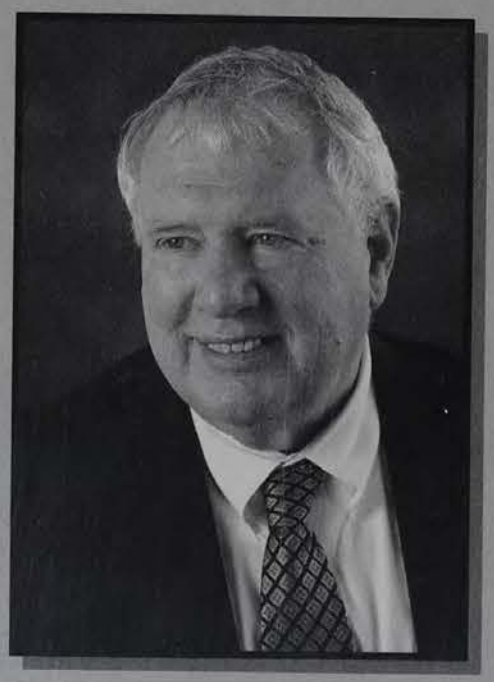

John Watson

Derek Reed was a transfer student from University of Arizona at Tucson, and University of Maine at Augusta. He was an engaged student of Chemistry / Pre-Pharmacy program at Husson, progressing successfully towards his goal of becoming professional pharmacist.

Shure Microphone Contest

The New England School of Communications wins Fantastic Scholastic 5 Recording Competition.

Five students from the New England School of Communications submitted a one song CD to be judged in this competition. The following students worked on the project: Levi Gray, Jacob Lansky, Tyrus Michaud, Cameron Smith, and Joshua Strange.

The recording of the song "The Never Ending Story" by local musicians Samuel Chase and Yuri Trusty.

Shure a microphone distributor provided mikes to be used by students during the recording process.

Recordings were judged on clarity of sound, microphone technique, mixing technique, and performance/production. The mike placement also had to be photographed and documented as part of the project. Judges were Grammy-winning sound engineers from all over the country.

The Grand Prize is valued at nearly $22,000 including a scholarship and equipment. Each student on the team walks away with a KSM32/SL large single-diaphragm condenser microphone which is over a $1,000 value.
