President Beardsley's Message to the Graduating Class of 2005

Dear Class of 2005

This has been a fascinating time to have been in higher education and at Husson. You graduate into a different world than when you began. Many of the changes have been individual and personal. Many of the changes have been institutional as Husson has grown added new faculty, buildings, sports and academic programs. Many have been new winds that sweep across the landscape from virtual communications to new cures for old diseases, to terrorism and the economic rise of such steeping global grants as China and India.

With a realization that Commencement means just the beginning of life-long learning, the knowledge, skills and problem solving abilities you have acquired and honed at Husson will serve you in just such an evolving world.

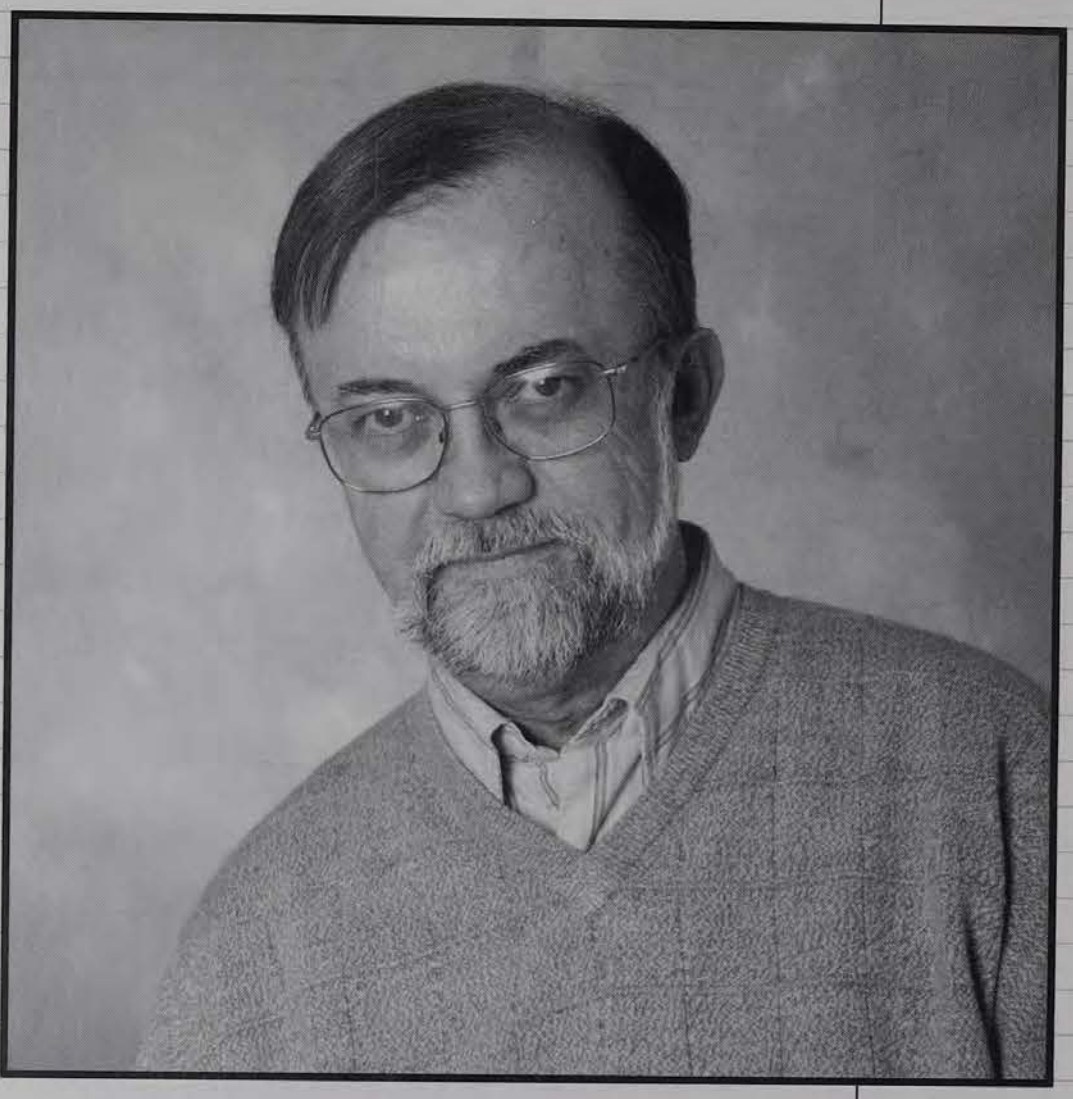

We are honored that you entrusted a critical part of your formal higher education to Husson. We commend you on the personal academic milestone you achieved at our 2005 Commencement. We wish you our very best as you pursue personal dreams, career success and service to others. And, we welcome you as Husson alumni, the 15,000 strong worldwide network of men and women who for over 100 years have become living testament to what a Husson education and collegiate experience is all about.

Congratulations, best wishes, and keep in touch. We will miss you.

Sincerely,

William H. Beardsley
President

The Senior Class proudly dedicates the Class of 2005 Yearbook to Dr. Leon A. Raikes

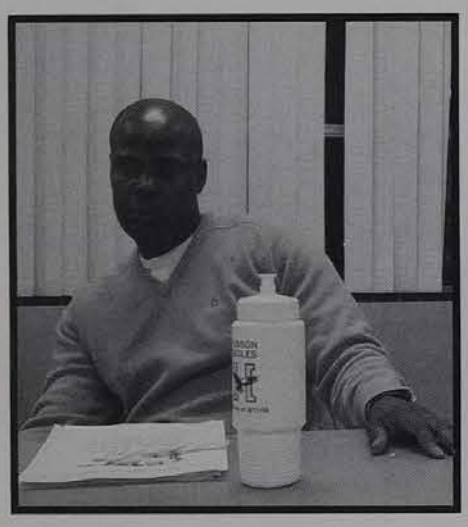

Leon A. Raikes, Ph.D., was nominated and elected as an "Honorary 2005 Class Member." This special recognition sets Dr. Raikes apart and bears witness to his care for students. Dr. Raikes received his Doctor of Philosophy degree from Michigan State University, his Master of Arts degree from the American University in Beirut, Lebanon and his Bachelor of Arts degree from Kalamazoo College in Kalamazoo, Michigan.

He has been a member of the English Department in the School of Science and Humanities at Husson for the last seven years. In that time he has clearly shown himself to be an advocate for rigorous learning. He has also served as a fine mentor to many students while introducing them to the wonders of English. He takes a personal interest in all students and is willing to reach out to those struggling or those with a passion for writing and poetry. His hobbies include poetry, painting and travel. He is married with three grown children.

Dr. Raikes was an instrumental part of a team to bring into the Husson curriculum a baccalaureate degree in English. In testimony of its heartfelt thanks and appreciation for all that he has done, continues to do, this Yearbook is dedicated to him.

Husson Commons - Bangor, Maine

We understand that project success depends on the level of conversation between client and designer. That dialog begins with listening.

Listening. *Between the lines*

Our experienced designers know how to listen for the details that make all the difference, and to ultimately deliver the *blueprint* for success.
