THE TEAM EFFORT

Husson College's philosophy holds that there is more to learning than just academics. Besides attending classes, every student must have an opportunity to participate—in whatever recreational or athletic area his or her interests lie.

Thus evolves the team effort: Varsity and intramural athletic programs supplement the classroom experience by emphasizing cooperation, leadership, courage, sacrifice and discipline.

Athletic policies at Husson conform to the regulations of the National Collegiate Athletic Association and the National Association of Intercollegiate Athletics; the college is a member of both. Within the NCAA and NAIA framework, Husson College teams participate on an intercollegiate level in basketball, baseball, soccer, golf, swimming, riflery and wrestling.

The college is also a charter member of the Northeast College Conference and competes in two varsity sports in that league.

In addition to varsity sports, Husson offers men and women an extensive program of intramural activities including judo, bowling, swimming, volleyball, badminton, weightlifting, hiking, touch football, softball, riflery and others.

The spacious Newman Physical Education Center, only two years old, provides one of the most modern small college facilities in the East as the base for many of these activities.

Its gym section contains two regulation basketball courts and seats 2,000. In addition are an Olympic-size swimming pool with ample seating, and rooms for judo, wrestling, handball, weights and riflery.

Also contained in the center are a complete laundry, equipment rooms, and offices for the entire physical education staff.

JACK McNALLY

SOCCER

As he directs the Husson soccer team for its second season, Jack relies on a wealth of experience as both player and coach. In addition to playing professional soccer, he has coached at the University of Colorado, Colorado Academy and Rockhurst College in Kansas City. He also was director of soccer for the Kansas City Spurs, a professional team which won its league championship.

Jack earned his bachelor of arts degree at the University of Colorado and obtained a master's degree from the University of Missouri in Kansas City. He also has done post-graduate work at the University of Missouri.

Despite its inexperience, Jack's first soccer club at Husson posted a 6-7 record. The coach also handles men's intramural programs at Husson, a vital part of the overall college sports agenda.

His long-range plans include developing soccer on a youth level in the city and state by establishing clinics for the sport, leading to the eventual creation of a youth soccer league.

SGT. GERALD MITCHELL

RIFLERY

The Husson rifle team was fortunate to obtain the coaching services of SFC Mitchell as it competes this season for the first time in the tough New England Collegiate Rifle League.

A graduate of Watertown (S.D.) High, Sgt. Mitchell is nearing the end of a 20-year U. S. Army hitch. Presently attached to the ROTC unit at the University of Maine, the sergeant has coached the Maine team to an outstanding record over the past several years. In fact, the Maine rifle team has been the most successful competitive team on the Orono campus.

Sgt. Mitchell, who has been an instructor in riflery for many years, also has a trophy case full of awards he has won himself, both with rifle and pistol, in which he holds the distinguished badge, the highest possible rating.

Sgt. Mitchell and his wife are the parents of seven children.

STUART TAYLOR

SWIMMING

A newcomer to the college this fall, Stu will coach the Braves in swimming. Although more widely known for his basketball coaching accomplishments, Stu has a widely varied background in swimming and water sports.

Stu has been swimming instructor at the East Central YMCA clinics since 1963. For three years he served as swimming teacher and coach at the Harbor Club in Seal Harbor and is certified by the Red Cross as a water safety instructor and by the YMCA as an aquatics instructor. In 1966 he was chosen State of Maine Physical Fitness Leader.

A coach and teacher for 13 years, Stu has held positions at Jonesport, Machias and Ellsworth High schools. In both 1964 and 1966 his Ellsworth basketball teams won state championships.

A native of Machias, Stu graduated from Springfield College and is working on his master's degree at the University of Maine. At Springfield, he was a member of the gymnastics team.

He and his wife Rosalie have six children.

D. BRUCE MacGREGOR

BASKETBALL

During Bruce's second year as Husson's basketball coach, he led the Braves to one of their finest seasons with a record of 22 victories and only three losses, giving him a two-year mark of 38-9.

For his efforts, Bruce received three separate coaching awards. He was named New England Small College Coach of the Year by United Press International, was selected as Maine's college coach of the year, and was honored as the National Association of Intercollegiate Athletics coach of the year for District #32 (New England).

Prior to joining the Husson staff, Bruce coached at Reading Memorial High in Massachusetts where his teams compiled a record of 90-20. In nine years of college and schoolboy coaching, his teams have won 82 per cent of their games.

A 1961 graduate of Springfield College, Bruce received his master's degree from Salem State College and completed his certificate of advanced study from the University of Maine last summer. A native of Connecticut, he attended Roger Ludlow High and Andrew Warde High, both in Fairfield. His Ludlow team won the New England basketball championship in 1955 and he captained his Warde High team in 1957.

At Springfield Bruce played varsity basketball for three seasons, one of which saw the team compete in the NCAA playoffs.

He, his wife and three children, live in Hampden.

KEITH MAHANEY

GOLF, FRESHMAN BASKETBALL

Now in his third year at Husson, Keith coached the 1970 golf team to an undefeated season, first in the college's history, in 10 matches. Recognized as one of the top amateur golfers in the area, Mahaney didn't take up the sport until his adult years. He coached Boothbay High to 38 straight victories over a four-year period before joining Husson's staff.

Keith was a record-setting scorer in basketball at the University of Maine before his graduation in 1957 and was All-Maine two seasons, All-Yankee Conference twice and All-New England once. He also holds a master's degree in education from Maine and last summer completed work on a certificate of advanced study at the Orono campus.

Under Keith's guidance, Husson's golfers annexed the Northeast College Conference title for the fifth straight season. His two-year golf record is 20-3. Husson golfers play their home matches at the spacious Bangor Municipal Golf course, one of the state's finest 18-hole layouts.

In addition to his success as a golf coach, Keith also has produced basketball tournament contenders in both eastern and western Maine while holding positions at Greenville and Boothbay Harbor.

Keith, his wife and two children live in Bangor.

THOMAS PERYEA

WRESTLING

Tom, undefeated in regular season competition last year for Husson's wrestling team, has taken over the coaching duties of the squad this season. New York sectional champion in his class as a schoolboy at Beekmantown Central High School in Albany, N. Y., Tom also won letters in football, basketball, track and baseball.

Tom was named outstanding athlete in his high school class and also won a physical fitness award before attending Albany Business College from which he transferred to Husson, where he received a Bachelor of Science degree.

Last spring he was the only Maine collegian to compete in the NAIA national championships in Superior, Wis. While completing his student teaching, Tom is resident director of Bell Hall, a Husson dormitory. He was married last summer.

DEL MERRILL

BASEBALL

Del, also Husson's chairman of physical education and athletics, has compiled an enviable record as baseball coach of the Braves. Since 1955 Del's teams have won 157 and lost 63 for a winning mark over .700.

Prior to relinquishing basketball coaching duties to devote more time to administrative matters, Del had a high school career mark of .775 and a college basketball record of .696.

Last spring's Braves went 17-3 for the season and went to the NAIA District 32 playoffs. Several players have gone on to professional diamond careers after playing under Del's tutelage. His teams have received coveted NAIA playoff bids in four of the past five seasons and won seven of 10 Northeast College Conference crowns over one span.

For the last several years Del has conducted a fall baseball program at Husson. Although limited in length, this program has proven invaluable both to the players and to Del, who has an added opportunity to assess his players out of doors—something that frequently is limited in the spring by adverse weather and field conditions.

An Ellsworth native and U. S. Marine Corps veteran, Del holds a B.S. degree from Husson, a master's from the University of Maine and a certificate of advanced study from U-Maine.

Del, who is a full professor, resides in Brewer with his wife and two children.

PAMELA HENNESSEY

WOMEN'S ACTIVITIES

Pam, a native of Augusta, earned her B.S. and M.A. degrees from the University of Maine, and is currently enrolled in post-graduate studies.

Before joining the Husson staff, Pam taught at Old Town Junior High School. A qualified water safety and small craft instructor, she is past chairman of both basketball and swimming and diving for the State Division of Girls and Women's Sports.

Pam is a member of the Eastern Maine Board of Women Officials, the American Association of Health, Physical Education and Recreation; the Women's National Aquatic Forum, and the Maine Association of Physical Education for College Women.

Among her many roles at Husson are those of women's athletic director, women's intramural director, aquatics director, cheerleading adviser and softball and basketball coach.

ANNE COX

WOMEN'S INTRAMURALS

A part-time instructor in women's physical education at Husson since 1965, Anne received her B.S. from Sargent College in Boston. She has coached volleyball, basketball, field hockey, tennis, archery and riding.

She is currently affiliated with the Bangor YWCA and has been associated with the YMCA. Before coming to Husson, Anne taught at Garland Street Junior High in Bangor after teaching at Ferry Hall School in Lake Forest, Ill. Anne is a homemaker and mother of four children.

In addition to her teaching duties, Anne is also responsible for a portion of the intramural program offered to women.

SOMETHING FOR EVERYONE

In keeping with Husson's philosophy of "something for everyone," the college offers an extensive program for women as well as a varied intramural program for both men and women.

Under the direction of Miss Pamala Hennessey, the women's coach and physical education director, intercollegiate competition is offered in archery, tennis, volleyball, basketball, softball and badminton. These sports also are conducted on an intramural level for women students along with swimming, golf, table tennis, gymnastics, and judo.

To be added in the near future are bowling, soccer and field hockey. Cheerleading is another activity directed by Miss Hennessey.

Informal recreation also fills a need for those not taking part in an organized sport. The gym is open weekends and evenings for women, as is the spacious swimming pool which has a major portion of its availability devoted to open swim periods.

The intramural program for men, under the direction of Jack McNally, also offers a wide variety of activities for those not taking part in varsity athletics.

Major events include flag football, volleyball, basketball, water polo, and softball. Intermediate events are handball, swimming, badminton, bowling, track and field and 3-on-3 basketball. Other events are archery, golf, free throw competition, and table tennis.

Men also may take advantage of Husson's Newman Physical Education Center for non-organized activities such as weight-lifting, free swims and handball.

The college provides this widely varied program for both men and women in order that all students may have a choice of activities and recreation no matter what their individual preferences are.
