## Guatemalan Junior Year Abroad

*by Linda Eaton*

Guatemalan Students: (L to R seated) Elena Franco, Mauro Godinez and Liset Olivet. (L to R standing) Angelica Aragon, Edgar Romero and Nora Arias.
Photo by Linda Eaton

Maggie Chadwick, Project Manager from Washington D.C., said that there are 100 Guatemalan students attending colleges and universities throughout the United States, from Maine to Florida to Colorado. These students are called Central American Peace Scholars (CAPS). Six began their studies at Husson College in the International Center for Language Studies in September, 1989. During the second semester at Husson, most have started classes in the Business Administration Program. The agency that is sponsoring this program is the Agency for International Development, which is a part of the U.S. Department of State. These students are participating in the Guatemalan Junior Year Abroad. The goals of this program are to learn skills and gain knowledge they will use to further their country's advancement.

Guatemala is a developing country, and the students want to improve life for everyone in their country. According to Ms. Chadwick, these students are cultural ambassadors as well as peace ambassadors. They are here to learn about the culture of the United States and to educate Americans about their culture . Since the world is becoming smaller every day, this program hopes to provide an opportunity to enhance World Peace. Other areas of studies that different students are participating in at other colleges are Engineering, Agriculture, Education and the Health Field. According to Paul Husson, who is involved in the International Program here at Husson, the Guatemalan students came with varied abilities to speak English. Some knew very little, and others spoke very well. Mr. Husson said that they all have host families, whom they visit quite often. He hopes that each of the Guatemalan students will have a chance to "Job Shadow" with some business people. This experience would consist of actually working on a day-to-day basis with a business person in a field of interest to each student. He thinks it will be helpful for the students to see how businesss is handled in the United States, compared to Guatemala. According to Mr. Husson, all the students will gather in Washington D.C. at the end of their twelve-month stay in the U.S. to meet with Senators and Congressmen and women and visit all the historical sites. All 100 Students will travel together.

Students attending Husson College for the 1989/90 academic year in the Guatemalan Junior Year Abroad have come to us from two different colleges in Guatemala, where each student works full time as well as goes to college six days a week. They find attending the ICLS and Hussson classes a good change of pace, since they are not currently working a full-time job also. Mauro Godinez, Edgar Romero, Angelica Aragon and Nora Arias all have been attending the University of San Carlos. Attending the University of Mariano Galvez are Elena Franco and Liset Olivet. Each student has 1 1/2 to 2 1/2 years left of college once they return to Guatemala. They all have a contract with the Agency for International Development to study for five years, total. They work from 8:00 a.m. to 5:00 p.m., then attend classes on Saturday. They financially support themselves and help their families out. When they applied for the scholarship to attend college in the United States, they were among 1,000 students. They were six of the 100 students chosen to spend this year abroad studying.

Two things that the students all agree on and all feel is that they miss their families and they are all extremely grateful to Paul Husson and Jim Hathorne, President of the Husson College Alumni Association. Both of these men have gone out of their way to assist the students during their stay at Husson. The students want to thank them for all the help they have given them.

Following is a personal profile of each student:

Mauro likes Bangor, except for the wind and cold weather. The people at Husson are very friendly. He hopes to work out some type of international trade with a Japanese friend he met at Husson. Of his large family back in Guatemala, Mauro says, "My family is the most important thing to me."

Edgar, a techinical designer, desinged the International Logo that the Spectator newspaper uses for its International articles. He works in the Art Department of a fashion company. He hopes to advance his job status when he returns to the company in Guatemala. Edgar feels that America is a great country for opportunities, and may consider moving back at some time in the future.

### Editor's Note:

As the semester is winding down so is the staff of The Spectator. The last issue will be out on ***May 3rd.*** Thanks for your support.

*cont. p* **1**

Angie wants to work with an International Company after her college education is completed. She has worked as a school teacher in her country. Angie felt that she just would not survive when she first came to Bangor, because it is such a quiet city. She finds the many international students at Husson to be very friendly.

Nora says, "I love America!!!, I think I'm the only one who doesn't want to go home! Finally, I want to tell Richard that I hope he had a great time in Maine, because I really enjoyed it. Thank you for all the moments we've shared together." She has traveled a great deal since she has been in the United States. Some of the places she has visited are New York, Florida, Arkansas, and Pennsylvania. Nora would like to work in Public Relations in an International area.

Elena says that she feels like she is on vacation here. She also feels it is too quiet, because she likes the big cities, but it is fine for one year. Elena wants to work for the Central Bank of Guatemala when she returns home. She is a secretary there, in the stocks and bonds department, but she hopes for a job advancement after her studies in America. Elena says that it is very prestigious to be able to speak English and helps out a lot for job promotions. During the Christmas break, Elena visited Louisiana, where she partici pated in a Seminar for Leadership of the Americas. This was a three week session, where problems of Latin American and Carribean Politics and Economics were discussed. 200 people from many different countries were involved in the program. Elena enjoys volley ball, bicycling and karate, where she holds a purple belt. Finally, Elena wants to send a kiss to her boyfriend.

Liset is a small town girl. Since she has studied Business Administration and likes this area, she hopes to become involved in a large business. Liset has worked with her father in a business that he and other family members operate. She says that the family all works together and they have done very well. Liset would like to work in the American Embassy after she completes her studies here. She almost got a job there before she came to America, but decided to accept the scholarship. The language would have been a problem before, but now feels confident that she would be able to handle the position. Liset says that she would not return to America to work while her parents are still living. She said that the letters from home were what kept her going all throughout her stay here. While in the United States, she had the opportunity to travel to California. Liset would also like to leave a special message for someone she will miss a lot. She says, "Many people have told me he is not a nice guy, but I want to tell you, Sweetheart, that the reason that I've been with you and I'll miss you is because you're such a geat guy. Thank you for all the memories and good luck in your days ahead."

# The Greek Side

## TKE

TKE has been really busy this semester. We have been helping Julie Green with the recycling of paper. A couple of weeks ago, we valet parked for the Bangor Daily News. They were having their promotional banquet for their new facility. Another project we did was helping the YMCA with their annual craft fair at the Bangor Auditorium.

Our major project for the Spring, though, is our **Keg Roll**. This is being held from **April 27th-28th**. We will be starting in Waterville and ending on the Husson campus. Operation Lift-Off, which helps terminally-ill children with their last wishes, is the charity we have chosen. If anyone would like to sponsor us for this great charity, please see any TKE brother.

Tau Kappa Epsilon will celebrate its 15th Anniversary on the Husson campus on April 21st. We have a lot of Alumni coming up for this exciting anniversary.

We hope everyone had a great Easter, and feel free to come up anytime. **Have a great week!**

## EPSILON TAU EPSILON

The sisters of Epsilon Tau Epsilon have been planning quite a few upcoming events.

First, we would like to congratulate our new sisters:

| | |
|---|---|
| ***Kim Pray*** | ***Germaine Hinckley*** |
| ***Jennifer Hodgdon*** | ***Donna Ducharme*** |
| ***Marcy Patrick*** | ***Gina Langley*** |
| ***Terry McLellan*** | ***Kelly Curtis*** |

Since pledging, we have held a VCR raffle, won by Kirc Currie. We have also tried several times to have a car wash, but seem to get rained out. We have also been doing community service projects, including a canned food drive over break for the Bangor Shelter.

On April 6, 7, and 8, we packed up and went to York Beach for the weekend. We would like to thank Susie for the use of her house.

Upcoming events are going to keep us quite busy for the remainder of the year. On April 22nd, we are planning a Parents' Day for our parents. Then on the following Saturday, **April 28th,** we are having our **homecoming.** We are looking forward to an excellent alumni turnout.

**May 4th** we will be having our annual **Toga party** on the floor, 9th level Carlisle. **HOPE TO SEE YOU THERE!**

# A View Beneath, Behind, and Between...

*by Derek King*

## Jim and Tom's Lavender Lounge

If you haven't had the experience of visiting room 716 in Hart Hall you must before the end of the semester: your Husson education is not complete unless you've spent time in the "Lavender Lounge," also known as the "Purple Palace of Love:".

The room belongs to TEP Brothers Jim Keenan and Tom Largay, Jr., and they have constructed a massive 2 story, free-standing loft and bar in their dorm room. The loft is totally collapsible and no holes were drilled into the walls during construction.

The loft and the bar materials cost approximately $200 and it took 9 hours to construct this dorm room marvel. Jim did most of the carpentry while Tom spent most of his time watching.

This room has all the modern conveniences, including wide screen 42" T.V., 20" T.V., 2 VCR's, 2 refrigerators, Nintendo, Stereo, 2 compact disc players, 4 speakers, 90 CD's, 200 cassette tapes, a modern heating unit, a fan, humidifier, a coffee table, bar stools, a couch, STD chart, 2 double beds, 2 alarm clocks, four power units, 11 hash marks and an alarm system.

True, many students have constructed lofts, so what is so special about this loft and room set up? The room is kind of a focal point of Hart Hall. The room is busy 24 hours a day.

The room has had plenty of important visitors including the Mayor and representatives of St. John, New Brunswick; V.P. Dan Quayle; and Kevin Collier.

So next time you are hanging around your room watching Oprah and waiting for the DDC to open, take a walk up to the bowels of Hart Hall and take a peak in room 716.

## Husson Softball

*by Coach Hennessey*

The Husson Softball Team traveled south for a road trip to Westbrook and Eastern Nazarene College. The weekend of April 12 & 13, the team played 4 games, winning 3 out of four to compile a 5 win and 1 loss record.

Husson's pitching staff is doing very well thus far this season. Senior captain Robin LeClair is performing superbly. Robin throws a variety of different pitches, which keeps batters guessing at the plate. Her e.r.a. is 1.24, and she has 10 strike outs to date. Freshman Crystal Hinton is also doing well and learning each time she goes to the mound.

Leading the Husson team at bat are a number of individuals. After six games played, nine batters are hitting .300+, including Michelle Provencal .542, Chris Hunter .519, and Sue Lea .480. Hunter has 10 and Provencal has 9 runs batted in.

The Massachusetts trip was also highlighted with a trip to see the Red Sox. The evening was fun, even though the Sox lost and the weather was extremely cold and windy.

The team is currently heading into the toughest part of the season and will be truly tested in the next two weeks.

## Husson Students Enjoy New Intramural Sports!

Husson students are currently participating in and enjoying a new intramural sports offering. A great workout session is gained in a game combining the skills of basketball and handball.

Participants are pleased with the new activity, and the turn-out has been excellent. Fans also seem to enjoy the sport.

Also, for the first itme, a triathlon event is being offered. Participants will compete in running, swimming, and bicycling.

## From the Financial Aid Office

Applications for scholarships have just been received from **ZONTA INTERNATIONAL** of Bangor. These awards are geared toward young women who plan to pursue higher education at a two- or four-year accredited college in the State of Maine. Also available is a scholarship for any student who pursues a career in the teaching field and may apply for the Lillian Wall Scholarship.

***Deadline: May 2,1990***

Further information on this recent addition of scholarships and others is available in the Financial Aid Office. Please stop by.

## Husson Softball Team Defeats Bowdoin

*by Coach Hennessey*

In a well played game, the Husson softball team defeated the Bowdoin squad 4-2. Robin LeClair held Bowdoin's scoring to a single two-run inning.

Husson's scoring came from Chris Hunter who went 3 for 4. Sue Lea also contributed a double, a single and drove in a run for Husson.

The Husson Braves are currently sporting a 6-1 record.

## Husson takes two from Daniel Webster

*By Stephen Novak*

The Braves baseball team took two games from Daniel Webster on April 11 by scores of 3 to 1 and 26 to 2. In the first game Husson, behind Matt Dutille's pitching and John Jordan's hitting pulled out a close one.

Matt pitched 7 innings allowing only one run in the first inning. He gave up 5 hits and struck out 9 while recording his third win against one loss.

John Jordan had a home run along with a single to drive in two runs to give Husson the lead in the 7th inning. Mike Austin had two hits and scored two runs, while Greg Morrill also had two hits.

In the second game of the double header Husson exploded for 20 hits and collected 14 walks to score 26 runs against the weak Daniel Webster pitching staff. Numerous pitchers were given a chance to cool off the hot bats of the Braves, but Husson scored in every inning.

Frank Peckham led the hitters with 3 hits including a homerun and 7 runs batted in. Rob Gilmore had two doubles, Jamie Campbell had three hits while Mike Austin added another home run.

Mike took the victory on the mound pitching a complete game and allowing 2 runs.

The only bright spot for Daniel Webster was LeFeloure's two hits.

## A really safe place: Your church

Don't ride in a car, they cause 20 percent of all fatal accidents. Don't stay home, 17 percent of all accidents occur there.

Don't walk on the streets and sidewalks because 14 percent of all accidents strike pedestrians. And don't travel by air, rail or water because 16 percent of all accidents happen while traveling on these.

Only .001 percent of all deaths reported occur in worship services at church. It's the safest place for you to be at any time!

Sunday school is safe too because the percentage there is even less.

If you go to church, you could save your life ... and more.
