HUSSON COLLEGE

THE SPECTATOR

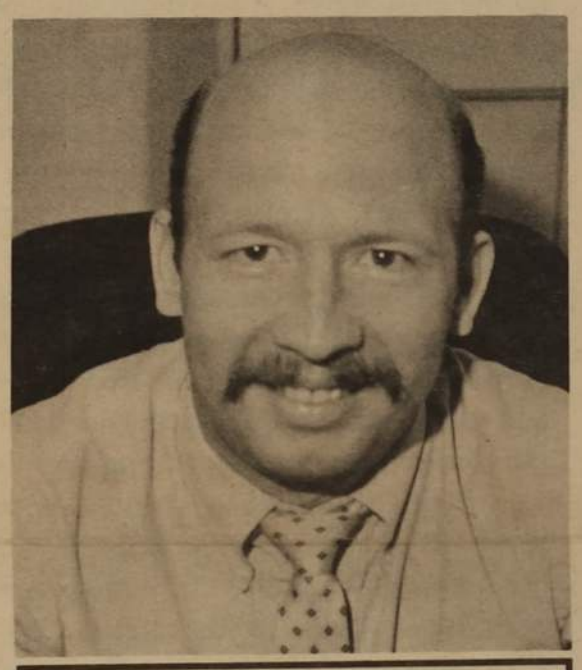

Bangor, Maine March 31, 1995

Husson Pays Final Tribute to Professor Joseph Snack III

The Husson Community recently mourned the loss of Joseph James Snack III. The Husson Professor was involved in the Undergraduate Academic Affairs Committee, the Critical Thinking Task Force, and was faculty advisor to the Tau Kappa Epsilon fraternity.

Joseph James Snack, III, was born November 10, 1958, and sadly left us suddenly on March 9, 1995 at the age of 36. He lived in Garfield, N.J. for 29 years, in Las Vegas, N.M. for six years, and for one year in Bangor. He was employed by Husson College in Bangor, for one year, as an assistant professor in the accounting department. He was previously employed by New Mexico Highlands University for five years, and with the Touche-Ross Accounting Firm in New York. He was a certified public accountant. He graduated from Pope Pius Xll High School, received his undergraduate degree from St. Francis College, and he received his MBA from Murray State University in Kentucky. He was a certified white water raft guide in Colorado and New York and a keyboardist with various groups. He was a parishioner of Our Lady of Mount Virgin Roman Catholic Church, Garfield.

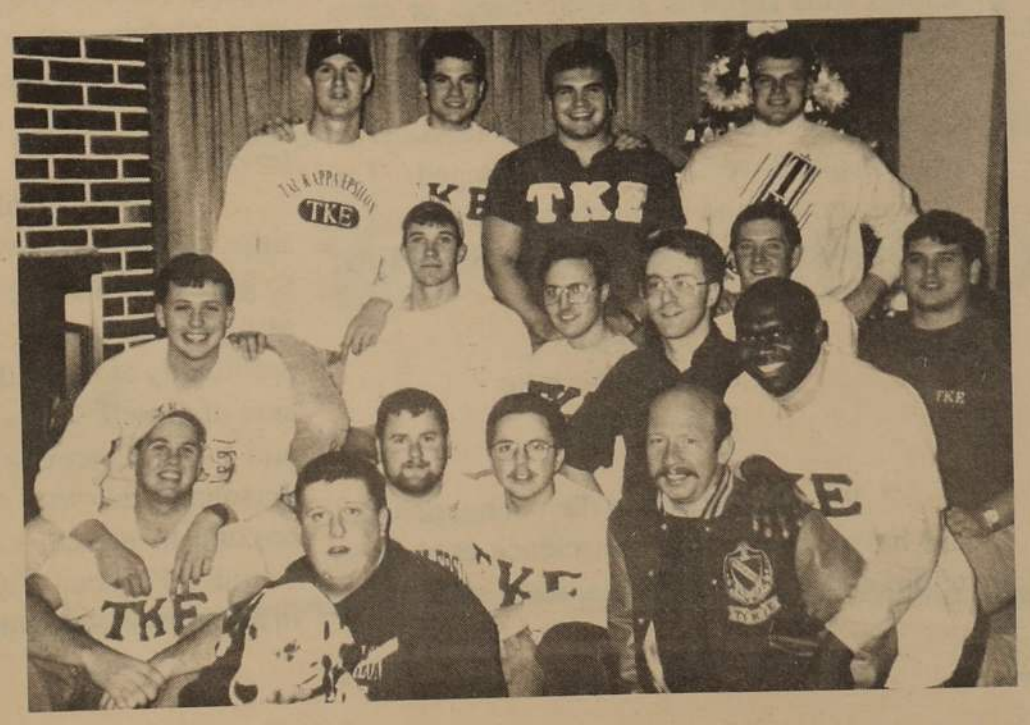

He was predeceased by his father, Joseph J. Snack, Jr., in 1986. He is survived by his mother Loretta, his brother Kevin, a brother Gregory and his wife Cynthia, his sister Daria Tallia and her husband Dr. John Tallia. He is also survived by his Grandmother May Marino, and Nephews John and Steven, and a niece, Cara.

Joseph James Snack III
1958-1995

Though Joe was only here at Husson for one short year, he had an impact on our community. Whether through his involvement with TKE or his academic committee work, he made a difference during his time here. Many of his students remarked about his excellent teaching skills and his ease in dealing with people. Many of us remember his performance at last December's Christmas party held in the WigWam where he entertained us with music.

On Friday March 24, 1995 the Husson College Community held their own memorial in honor of Joe Snack. It was held in Kominsky Auditorium at noon. Faculty, staff, and students came together to honor their colleague, friend and teacher. Loretta Snack, Joe's mother, who resides in New Jersey was in attendance. Reverand Carlson presented Mrs. Snack with an enlarged, framed picture of her son taken here at Husson. The memorial began with some words from campus Chaplain Robert Carlson followed by a speech from President Beardsley. The Accounting Department Head, Dewey Martin then proceeded with a memorable speech showing Joe's dedication and eagerness here at Husson College. He told us how last summer Joe would call him from his tent to find out information about his upcoming year at Husson. He had to call around 10 p.m. in order to reach Mr. Martin and at this time he was always in his tent so he would use his friend's cellular phone to call. Tom Carleton, the President of Tau Kappa Epsilon fraternity, then spoke of the closesness that had developed between Joe and the brothers of Tau Kappa Epsilon in the short time that Joe had been here at Husson. Many of the brothers even attended the funeral in New Jersey as did Joe's boss Dewey Martin. The memorial concluded with a song in honor of Joe Snack. The song was "Friends" performed by Michael W. Smith. The song was selected especially with Joe in mind by the TKE brothers. Following the memorial, a reception was held in the lobby so all those involved could share with each other in their time of need.

Joe Snack and the TKE Brothers gather together around Christmas time at Joe's house.

Child Care a Must for Husson

by Victoria Gregory

Try to imagine leaving your teary-eyed toddler behind at a day care while you are walking away toward a long day at college. He knows that he has no chance of seeing you again until the end of the day, so all he can do is watch you go from behind a red nose and wet eyelashes.

Now imagine having that same child in the same building with you, where you could visit him throughout the day. If there was a day care center at Husson, you could do just that.

Dawn Fatangelo from Date Line (NBC) said on Wednesday, February 8th, that 40% of children at day care centers are at risk of being infected due to unclean facilities. Most child care providers don't wash the changing tabels after each child. Some care providers don't even wash their hands.

If you are a student at Husson and a parent at home, like me, you know how hard it is to leave your child every day so you can go to school. Knowing the above statement makes leaving your child behind a lot harder.

Think about how nice it would be if you could visit your child between classes, even if it's only for a couple minutes a day. I know that having a day care center here at Husson would take a lot of stress off me if I could visit my daughter a few times a day to make sure she's okay or even just to spend some time with her. I wouldn't be worrying about her all day and I could concentrate more on my classes.

Leaving a child at a day care center for six to eight hours a day is hard for a parent to do. If there was a place on campus for students to bring their children to during the day, I believe that their minds would be on their classes more because they wouldn't be thinking about how their children are doing. They would know that they could go visit them after their class.

Editor's Note...

If you feel that Child Care at Husson would be beneficial, please call us with suggestions on how this service could be operated. If you would like to voice your opinion, call the Spectator office at 941-7016.

Commuters give a cry for help in protecting the Wigwam

The Commuter Senators and several very giving commuters have, on certain occasions this year, gone to great lengths to happily and painstakingly decorate the Wigwam. This is something that we have all totally enjoyed doing. Coming up with creative ideas and ways to decorate has certainly given us some special times together.

Although the decorating has been done by the commuters, it has definitely not been for just our benefit. We have done this for all who attend Husson College to enjoy. It is for the pleasure of all students, residents and commuters alike. It is for the pleasure of the faculty, staff members, and for visitors to enjoy.

We have received many compliments for our work, and these we greatly appreciate. However, at Christmas our tree was stolen, and recently during "Tropical Island Days" all the work we put into decorating the Wigwam was either destroyed or stolen. Apparently some people feel that this is done simply so they can enjoy ruining it; or perhaps it is more to prove a point to the commuters! An allegation--most definitely! The problem is that there is never anything done about it. We're offered more money so we can go out and replace whatever was stolen or destroyed. This is not solving the problem, and that is definitely what is needed, a solution, a remedy, a what can be done about this! It's time that someone decides to take action to solve these problems. There is nothing good coming forth when we just keep replacing the items by spending more money; its just going right down the drain again.

We will keep planning special events and we will keep decorating--we will not give up!!! The only thing these few are succeeding at is getting us REALLY MAD, and when we reach the right point--watch out!!!

Commuters, residents, anyone who knows what happens to these things or cares and wants to get things changed speak up, speak out, and stand behind us. Come talk to us, give us your views, ideals, and voice opinions, and we'll get things changed. I'm always around and available to talk to and so are the other Commuter Senators--SO SPEAK UP!

A Commuter Senator
Lynette Dow

P.S. Thank you to the young man that did have courage and conscience enough to return a couple of the items, it's a start.

You've Got Potential!

by Sallyann Martel

Do you want to be a leader? If you do, you should try to attend a POTENTIAL Leadership Training Program with presenter Nancy Hunter Denney.

On Saturday, February 25, Kathy Fradette and I had just that opportunity. We drove to the University of Maine at Orono to participate in their Eighth Annual Leadership Workshop. With no problem finding the building, we were registered and welcomed with muffins, juice, and bagels.

As I sat there waiting for the program to begin, I thought to myself, what the heck am I doing here? Like, I'm ever going to become a leader! Me? The one whose only listing under her high school senior picture was Yearbook Staff; 4. Then, as I began to read the information in the folder that was given to us during registration, my thoughts started to change. The first thing I saw when I opened the folder, was a thick packet of paper, and in bold, black, capital letters on the top of the cover page it said THE FUTURE IS YOURS TO CREATE! Something I never really thought about. I mean, I know I can control my future, but what does creating it mean? As I now know, I was soon to find out.

The presenter, Nancy Hunter Denney, was intense. She began her presentation by acting "pumped up." She talked fast and moved *all* over the place. When she asked a question she pointed to someone in the audience, read their name tag, and asked them to answer. She talked about motivation and the characteristics of a leader. We learned good communication skills (verbal and non-verbal), and how to read someone's body language. We determined whether or not we were left brain or right brain thinkers and doers, which comes in handy when combined with SOFTEN body language, (smile, open body language, foward lean, touch, eye contact, nod) to confront someone about a touchy subject. Nancy had us create a personal mission statement, in which we state "my definition of life is...(fill in the blank), therefore I choose to live...(fill in the blank), because what's important for me is ...(fill in the blank). By completing this statement it will put your future and goals in perspective. Finally, we had a community building activity. There was a page in the packet of paper filled with questions such as do you have a pet at home...come from a large family...have a G.P.A. above 3.5#, etc.; all questions we had to ask as we walked around and met different people.

Overall, I walked away from that leadership conference knowing, for sure, what I wanted to get out of life. I realized I am what is known as a passive person, which is unhealthy for my spirituality along with my self esteem. I'm more sure of myself if I was ever to confront someone, and I feel I can communicate better, not only personally but with others. I would encourage anyone to attend a POTENTIAL Leadership Training Program if she or he wanted to improve in any area of communication or leadership skills.

FREE SCHOLARSHIP SEARCHES

(AND CHEAP STUDENT LOANS)

Would you like help finding scholarships or grants to help finance your education? Or if you need to borrow, would you like to save a full 1% on your student loans?

HEROic our 34 foot, purple van filled with the latest in high-tech computers, databases, and a team of education counseling professionals will be on campus for one day, April 18th, providing FREE computer aided scholarship searches to Husson College students.

MAINE EDUCATION SUPERLOAN℠ offers you Federal student loans for 1% less. As a Maine student, you are eligible. It's so easy! You can get the *same* Stafford or PLUS Loans ... *for 1% less*. Why pay more? Look for our table in the Student Center. We'll have everything you'll need to save money on your student loans.

Come see us!

APRIL 17+18

9 to 5 at the Student Center

Greek Life

EPSILON TAU EPSILON

Hello! We hope everyone had a great Spring Break and is ready to tackle the rest of the semester.

If you missed us last weekend, it's because we went on a retreat to Thomaston. We had a great time relaxing before all of the events coming up which are sure to keep us busy.

We're raffling off two Saddleback ski tickets. The drawing will be on the 30th of March. We will also be doing car washes this spring so be on the lookout for us when you're out cruisin.

We're also planning to participate in several community service projects including the M.S. Walk on April 23.

We're looking forward to Greek Week and all the other events coming up in the Spring. Hope everyone keeps clear of Spring fever!

The Sisters of
Epsilon Tau Epsilon

Delta Sigma Delta to Hold Blue Hawiian

The Sisters of Delta Sigma Delta hope that everyone had a good break.

This is a busy semester for us. While some of us were at Open House, the rest of us were busy painting faces at the Children's Spring Fair at the Bangor Auditorium.

On Friday, March 31, we will be having our Blue Hawiian in the Wigwam from 9-12. BYOB (cans only) with I.D. Dress up in your Hawaiian clothes and come have some fun.

On Saturday, April 1, we will be having our 6th Annual Alumni Banquet.

A few of the things we have planned for the end of April are car washes, bottle drives, and cleaning for the senior citizens.

The Sisters of
Delta Sigma Delta

Members of the Kappa Lambda Sorority with their table during the recent Open House.

KAPPA LAMBDA To Participate in Walk a Thon for Multiple Sclerosis

The Sisters of Kappa Lambda would like to express their deepest sympathy to the family and friends of Joe Snack and also to the Brothers of Tau Kappa Epsilon for the loss of one of their advisors.

Currently we are still doing our Teddy Bear Drive. This is a very important project as the benefits go to aid and comfort young children during emergency situations. All donations can be dropped off in the Career Development office, or you can bring them up to the Kappa Lambda floor. Our latest 50/50 raffle was drawn on Wednesday.

The weekend of March 31 through April 2 we will be at Kappa Delta Phi's Annual National Convention in Massachusetts. During the Convention all the Chapters from different states get together to learn more about each chapter and get to know one another.

On April 23, we will be participating in the M.S. Walk in downtown Bangor. Some of us will be helping out with the rest stops and others will be walking a little over 9 miles. We are accepting pledges to benefit people with M.S. To make a pledge see any Kappa Sister.

Hope everyone is enjoying the reasonably nice weather. Just remember, Spring is almost here. Enjoy the rest of the semester!!

The Sisters of
Kappa Lambda

Kappa Delta Phi to Attend National Convention

The Brothers of Kappa Delta Phi would like to express their condolences to the family and friends of Joseph Snack III. We would like to also send our sympathy to the brothers of Tau Kappa Epsilon for their loss of an advisor and friend.

This semester has been very busy for the Brothers. We have recently held a oil raffle where Judy Ogilvie won 100 gallons of heating oil. Money raised from the raffle was used to help defer the cost for Brothers attending National Convention.

On Friday, March 31, and Saturday, April 1, the Brothers will be attending Kappa Delta Phi's National Convention. This will be held at Bridgewater State College in Bridgewater, Massachusetts. Bridgewater is where the first Kappa was started in 1900. This conference will be an excellent opportunity for the Lambda brothers to meet with brothers from across the Northeast area.
We would like to congratulate our two new brothers Christopher Sargent of South Waterford, ME, and Glen Picard of St. Agatha, ME.

Kappa Delta Phi Holds the Great Returnable Round-Up

Husson College fraternity, Kappa Delta Phi, and the American Cancer Society, Maine Division, are pleased with the results of a recent bottle and can drive.

The Great Returnable Round-Up raised $225 for the American Cancer Society and manager of the Big Red Redemption Center, David Hamilton, said "That's a good-sized figure for a bottle drive."

Big Red Redemption accepted the returnables for the American Cancer Society and gave six cents per container to the organization. Chris Olsen, from the American Cancer Society's Bangor office, said he is grateful for the work organized by Andy Rhoades and the other members of Kappa Delta Phi.

With printing donated by New Markets Printing of Brewer and a truck loaned for the event by Darling Ford, there were no expenses incurred to raise the funds. Olsen said the event also generated awarness about the program through the Big Red Redemption Center, where people can leave returnables and designate them to the charity of their choice at anytime of the year.

UPCOMING GREEK ACTIVITIES

GREEK WEEK APRIL 3-9
There will be activities throughout the week for all active Greeks.

GREEK GAMES APRIL 9
Beginning at 11 a.m. on Sunday at the Newman Gym.

GREEK BANQUET APRIL 13
Held at Kev-Lan Banquet room from 6-11 p.m.

Announcements

OSN to Hold Barbeque April 8

The Organization of Student Nurses will be sponsoring a barbeque and volleyball party April 8 at 12 noon. All nursing students and faculty are invited. Anyone who is interested in attending should sign up in Edna Murray's office on the 7th floor of Bell Dorm. If you feel that you can contribute to the party, please drop the OSN a note on the nursing boards 2nd floor, next to the Learning center.

Thanks.
Gregg Blackmer, President OSN.

Life Guard Course

For more information on a Life Guard course that will be starting April 3 and continuing through May 8, please contact Kissy Walker.

Interview with the Vampire

The movie, Interview with the Vampire, staring Tom Cruise and Brad Pitt, will be shown in Kominsky Auditorium at 8p.m. Saturday, April 1.

Free Skiing at Sugarloaf

The Ski-Outing Club will be sponsoring a free trip to Sugarloaf Mountain on Wednesday, April 5. You will need to pay a $10 deposit, which will be returned to you that day. If you want to go, stop by the Student Health Service in room 101 Carlisle Hall by Monday, April 3, and see Linda Jenkins or call 941-7625.

1995 Yearbooks on Sale

Spring is here and it's time to start thinking about ordering the 1995 edition of the **Chieftain**. The cost is only $10. Catch all the highlights of events, activities, athletics, senior section and more.

Stop by the Student Activities Office, room 132 Peabody and place your order. Do it today.

Movie Passes

A weekly free raffle for free movie passes is held in the Student Goverment Office every Friday at noon. To enter stop by the Student Goverment Office.

Seniors

On-campus job interviews are going on now. For more information drop by the Career Development Office.

Brandy Allen Elected Maine State Phi Beta Lambda Vice President

While everyone else was heading home for vacation the members of PBL took a trip to the Samoset Resort in Rockland, Maine. There they attended the FBLA/PBL State Leadership Conference. The main agenda for the conference was to elect officers for the State Board. Among those schools eligible to run were Thomas College, Andover College, the University of Maine Machias, and Husson College. Among those elected was Brandy Allen from Husson College who was elected Vice President.

Once the state meeting concluded, we stayed at the Samoset for the following two days to assist in administering test to high school DECCA and FBLA students. It wasn't all hard work and no play, we managed to squeeze in some social time.

PBL's membership committee has recently purchased new jackets for PBL members. The fundraising committee has scheduled a bottle drive during Chief Week so please save your bottles.

PBL will be continuing with their public service project, the "Ton of Love Food Drive". Students are encouraged to help out those who are less fortunate by donating any nonperishable food products. The drop-off places are as follows: Hart Hall, Room111; Carlisle Hall, Room 207; Bell Hall, Room 901; Peabody Hall, Room 302.

Phi Beta Lambda is a professional business organization and it's membership is open to anyone in a business related major. Everyone is welcome to attend our meetings which are held every Wednesday at 3:30 in Room 305.

All Classes Canceled Wednesday, April 5 from 8 a.m. to 4 p.m.

Wednesday, April 5 has been designated a Faculty Conference Day, so that all Husson faculty can attend a workshop about methods for helping students to learn the skills of critical thinking. Faculty were informed about this workshop day well in advance, and have made arrangements to ensure that all the semester's material is covered.

A national commission has identified critical thinking skills as among those considered most essential by employers today. Such skills are not inborn, but are developed through teaching, coaching, and practice. The goal of this workshop is to enhance the ability of our faculty to help students develop these valuable skills.

The April 5 workshop is one in a series of faculty development activities funded by the college.

The Center for Family Business invites you to its inaugural seminar.
Building Your Family Business:
The Strategies for Success from Maine's Best Entrepreneurs

Wednesday, April 26, 1995
9 a.m. to 2 p.m.

A great opportunity to learn from some fo Maine's most successful entrepreneurs!
-**Richard Dyke**, a self-made multi-millionaire and entrepreneur who has owned more than 40 companies doing business in 38 countries
-**Lois Nealley**, president of Snow & Nealley, a fifth-generation manufacturing business founded in 1864 that manufactures axes, gardening and woodworking tools
-**Gene Geiger**, president of Geiger Bros., one of Maine's best known family-owned businesses and the publisher of the Farmers Almanac
-**Kathie Leonard,** president of Auburn Manufacturing Company, a high-tech industrial textile company that exports around the world
-**Thomas Moser**, president of Thos. Moser Cabinet Makers, a highly successful and nationally recognized wood furniture company

Cost: $95.00 (included lunch)
$75.00 for additional individuals from the same business

Due to generosity of our sponsors, a limited number of free scholarship tickets are available. If you'd like to attend, but costs are a concern, please call the Center for Family Business at Husson College, 941-7000.

The Center for Family Business

Maine's 30,000 family-owned businesses are the backbone of our economy, the heart of our communities, and the employers of thousands of Maine people.

To help family enterprises start-up, grow, and continue to prosper from generation to generation, Husson College has established a new Center for Family Business, the first entity in Maine to focus exclusively on family-owned businesses.

Championed by successful Maine entrepreneur Richard Dyke, a Husson alumnus and trustee who has owned more than 40 businesses, the Center will offer seminars and other programs for family business owners, managers, and potential owners and managers.

The creation of the Center underscores Husson's committment to strengthening the Maine economy through education. For nearly a century, Husson has provided Maine people with the skills to be successful in the world of business. Now, the Center will vault Husson into a new educational partnership with Maine's family enterprises.

We hope you will plan to attend the seminars and other offerings of Maine's first Center for Family Business.

Susan M. Collins
Executive Director

Husson Sports

Husson Tennis Team Holds Sign Ups

On Tuesday March 29, the Husson College Tennis Team held signups in the Gymnasium. Veteran players Aarron Smith and Mathew Donovan said that they were pleased to see over 12 people sign up. They were also pleased with such a positive female interest.

Tennis is a relatively new sport to Husson in its 2 year of existence. Last year's team which had a record of 1-1 proved to be a very competitive team. They have three matches scheduled for this season and their coach Dan O'Connel is trying to schedule more. Coach O'Connel added that there is room for all levels of play and encourages students to sign up.

The teams first match will be April 8, at the University of Southern Maine. Intersquad matches will be taking place all next week. If you would like to join the team please contact Coach O'Connel in the Gym after 7:00pm.

Air Jordan is Back Flying High in the NBA

That's right sports fans, he is back. Michael Jordan has thrown down his bat and glove and has stepped back onto the court. Jordan is no longer playing under his recently retired #23 and is now playing under #45. Jordan states his reason for not wearing #23 is because he wore that number the last time his father, since past away, saw him play. #45 is also the number he wore while playing on the Chicago White Sox. Jordan's jersey numbers may be different, but his game numbers are still the same.

In Tuesday nights action versus the New York Knicks, Michael had 55 points and the game winning assist, the most points scored by a single player this season.

How will the return of Air Jordan affect the Bulls in their bid for another championship. Will Michael lead them to another victory, or will other teams like the Orlando Magic or the Phoenix Suns put an end to Michael's Air days. I guess we will just have to wait.

You can definetly say one thing about Jordan's return, he has added much more interest to the game, ticket prices have soared, and T.V. ratings are up.

Husson Women Represent the Maine Athletic Conference in NAIA National Tournament

The Husson Women's Basketball team went to Monmoth, Oregon, over spring break to play in the NAIA National tournament. As you remember, Husson won the Maine Athletic Conference Championship when they defeated St. Joes 56 to 52 on February 27.

Upon arriving in Oregon, the women were greeted by honorary coaches who showed them around the area and helped them settle in.

The women played the #7 ranked Huron College from South Dakota. The Braves got off to a slow start and were defeated 99-62. Head Coach, Kissy Walker, said, "Huron was a great basketball team who deserved a lot of respect. They were a lot quicker than we were, and they played a person-to-person defense full court for the entire game. This was something we just weren't used to and weren't expecting it."

Stacy Hafford led the Braves with 18 points. Steph Shaw contributed 11 points, while Sue Ann Allen had 10. Tara Leavitt came away with 10 rebounds.

Mark Hreben Pitches Shut-out Against St. Thomas Acquinas

Over the past weekend the Baseball team played doubleheaders against both St. Thomas Acquinas and Bloomfield College. On Saturday, Husson competed against the St. Thomas Acquinas team. Mark Hreben pitched Husson to a 5-0 win. Mark Hreben also did an outstanding job while in Florida for spring training by pitching 23 strikeouts in just 11 innings. In the second game Gary Sibley received the win with a score of 12-5.

On Sunday, Husson played Bloomfield College. The Braves suffered a 1-8 loss. However, in the second game Husson came back to win it 11-8 with Brent Brown taking home the win. Also in this game Mike McBride had two doubles, one homerun, and five RBI's.

Men's Basketball travel to Idaho for NAIA National Tournament

During spring break the Husson Men's Basketball team played in the NAIA National Tournament in Nampa, Idaho. They played Hastings, Nebraska, and played a tough game but lost 111-91.

The Braves stayed with them the whole first half and were only down at half-time 50-46. The second half is when Hastings finished them off by outscoring them 61-45. Bryan Jefferson led the Braves in scoring with 29, Xavier Joyner had 15 points while Jimmy Watkins and Rick Sinclair each had 13.

Pitchers Cara Mercer and Amanda Pomerleau lead Husson to a 10-1 record in Florida

During Spring Break the members of the Women's Softball team took a ten-day trip to Florida. While they were there the team played 11 games including a five game tournament. The Braves came out of the trip with a 10-1 record and a championship trophy. All of the games they played were doubleheaders except for the championship game. The team is really happy with their performance and has a positive outlook on the rest of the season.

The teams schedule included many top ranked schools. The team started off the tournament playing a double header against Swarthmore College. Husson took this game with scores 15-2 and 11-1 using the "10 run rule." (The "10 run rule" is a rule that is used to shorten a game when one team is ahead of the other team by at least 10 runs in the fifth inning). The next game the team played was against Alfred University. Husson beat Alfred 8-1 in the first game and again took advantage of the "10 run rule" in the second game taking them with a score of 13-0. Next the team went up against Concordia College. Concordia is a Division 2 team and usually in the top of their division. But, even Concordia couldn't stop Husson, who defeated them 7-0 and 5-1.

After the excitement of winning those games it was time to play in the Florida Coast Softball Spring Tournament. The first game they played was against the University of Scranton. The first game went for six innings and Husson defeated Scranton with a score of 11-0; they also defeated them in the second game with a score of 11-8. After Scranton, Husson went on to play against the Edgewood College team which is a combination of Division 2 and NAIA team members. Although they lost to them in the first game 1-0 in 11 innings, Husson came back to defeat them 2-0 in the second game. In the championship game they faced up against Scranton, again defeating them 11-5.

Coach Shannon Whiting said of the teams success, "I think one of the reasons for their success is that they work well together and communicate while they're on the field." She added that the schedule of games they played in Florida were very intense and many of the teams they played had more depth than the teams they will be playing against the remainder of the season.

First year student, pitcher, Cara Mercer, showed that she was no rookie to the game when she went five games without a loss. Returning pitcher, sophomore Amanda Pomerleau, won 4, lost 1, and had 2 saves. Freshman outfielder Celeste Ross, surprised everyone by pulling off an 11-8 win against the University of Scranton.

Of the 16 players on the roster, 10 of them are returning letter players. The returning players are: sophomores, Amanda Pomerleau, and Denise Schrier; juniors, Michelle Cogan, Berlynda Gaudette, Sandy Jack, Jessica Moore, and Stephanie Wile; and seniors, Amy Dyer, Marianne Lampart, and Lori Yanush.

Adding to the lineup are first year students Amy Coppola, Jennifer Johnston, Cara Mercer, Celeste Ross, Jennifer Russ, and sophomore Emily Burrill. All of this should give Coach Whiting and her team what they need to have a successful season.

Husson Opinions

Angela Cole
"The library needs to be updated, with more resources. Work study should be more recognized, not only in Peabody but around campus."

Len Lamoreau
"I think we need more classrooms."

Jennifer Brandt
"I think they should fix up the classrooms. It's pretty hard to concentrate when you can hear other classes going on."

Phil Horvath
"I think we need mail service on Saturdays."

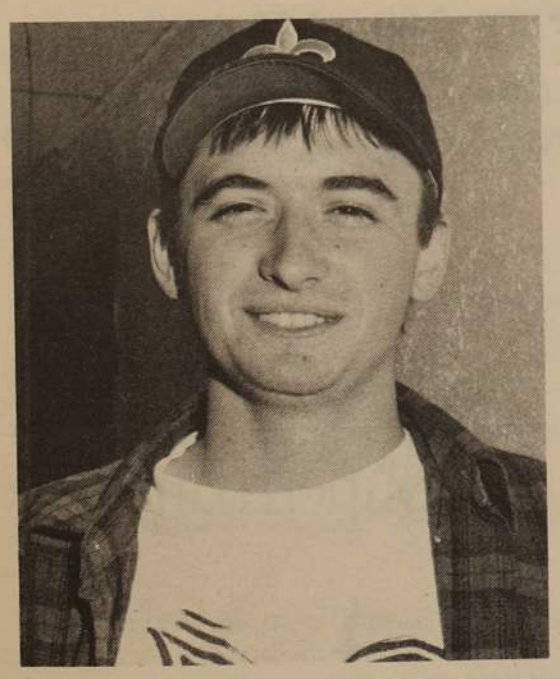

POLL QUESTION:

What do you feel are some of the needed improvements for Peabody Hall?

by: Brandy Allen

Amy Marquis
"I think we need new desks, chairs, and furniture."

Christopher Labbey
"I think we should have Internet in the computer room so we can have E-mail."

Allison Cote
"They need to improve the lighting in the classrooms."

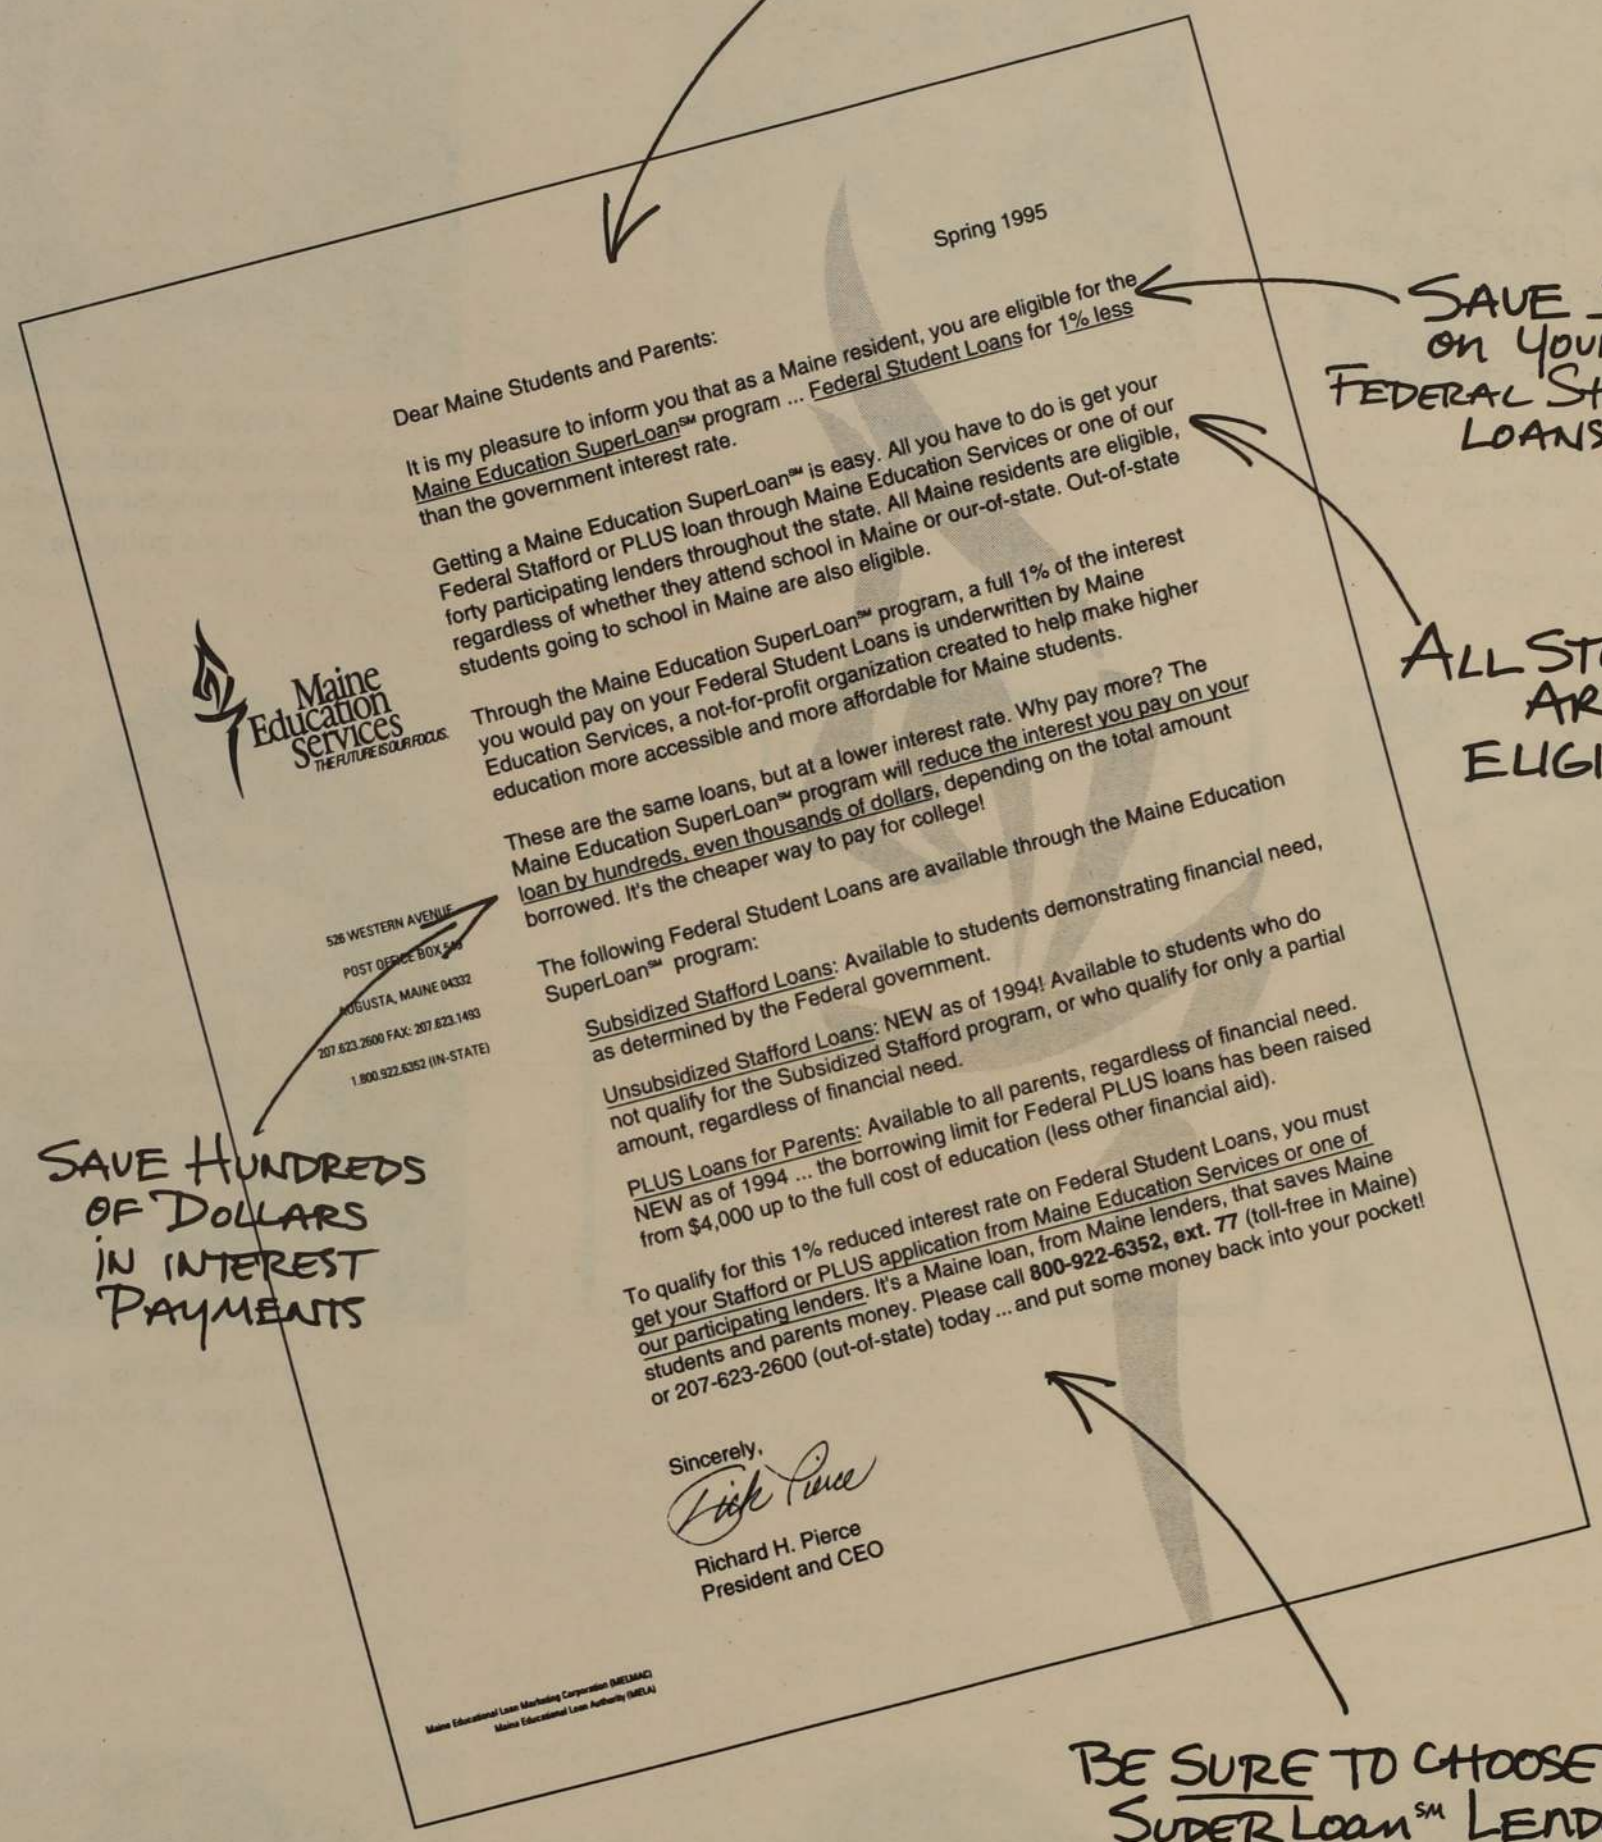

Lora Sleeper
"I don't think anything needs to be improved in Peabody. They need to finish projects that they have already started like the dorms."

HEY! IF YOU NEED MONEY FOR COLLEGE...

MAINE EDUCATION SUPERLOAN℠

IS FOR YOU!

Spring 1995

Dear Maine Students and Parents:

It is my pleasure to inform you that as a Maine resident, you are eligible for the Maine Education SuperLoan℠ program ... Federal Student Loans for 1% less than the government interest rate.

Getting a Maine Education SuperLoan℠ is easy. All you have to do is get your Federal Stafford or PLUS loan through Maine Education Services or one of our forty participating lenders throughout the state. All Maine residents are eligible, regardless of whether they attend school in Maine or our-of-state. Out-of-state students going to school in Maine are also eligible.

Through the Maine Education SuperLoan℠ program, a full 1% of the interest you would pay on your Federal Student Loans is underwritten by Maine Education Services, a not-for-profit organization created to help make higher education more accessible and more affordable for Maine students.

These are the same loans, but at a lower interest rate. Why pay more? The Maine Education SuperLoan℠ program will reduce the interest you pay on your loan by hundreds, even thousands of dollars, depending on the total amount borrowed. It's the cheaper way to pay for college!

The following Federal Student Loans are available through the Maine Education SuperLoan℠ program:

Subsidized Stafford Loans: Available to students demonstrating financial need, as determined by the Federal government.

Unsubsidized Stafford Loans: NEW as of 1994! Available to students who do not qualify for the Subsidized Stafford program, or who qualify for only a partial amount, regardless of financial need.

PLUS Loans for Parents: Available to all parents, regardless of financial need. NEW as of 1994 ... the borrowing limit for Federal PLUS loans has been raised from $4,000 up to the full cost of education (less other financial aid).

To qualify for this 1% reduced interest rate on Federal Student Loans, you must get your Stafford or PLUS application from Maine Education Services or one of our participating lenders. It's a Maine loan, from Maine lenders, that saves Maine students and parents money. Please call **800-922-6352, ext. 77** (toll-free in Maine) or 207-623-2600 (out-of-state) today ... and put some money back into your pocket!

Sincerely,

Richard H. Pierce
