A President's Message

To the Graduating Class of 2010

Dear Students,

Whether you have been here for a semester or longer, I trust that you will find in the pages of the Yearbook, a reflection of the life and activities of campus during the past year. At Husson the variety of clubs and other activities offered on campus is directly related to student interest and involvement. I trust that you will enjoy the pages that remind you of your life at Husson, whether residential or commuter, and whether you are a traditional or nontraditional student.

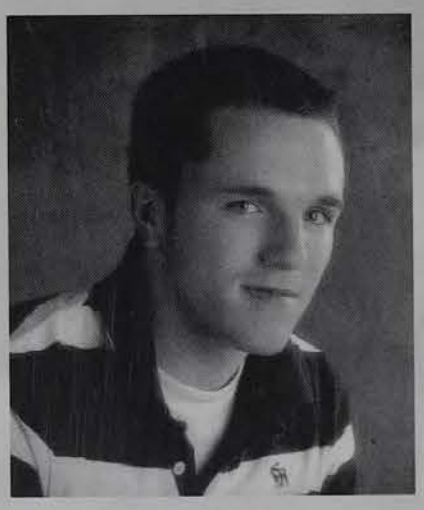

At times it may seem that studies may never end, but be assured that your time on campus will pass quickly. Thus, I encourage you to make the most of it by being involved. If your interests aren't represented by the current student organizations, talk with the Dean of Students about starting your own club. Becoming involved in your campus community is an important part of your educational experience. The opportunity to develop leadership skills and exhibit teamwork towards a common goal are important elements in a learning community.

As your days at Husson pass, the pages of the Yearbook will be important reminders of a special bond that you have formed during your time at Husson University. As poet, Maya Angelou, notes in part of her Commencement Address:

"You will be surprised that these years of
Sleepless nights and months of uneasy
Days will be rolled into
As altering event called the
"Good old days" And you will not
Be able to visit them even with an invitation
Since that is so you must face your presence
You are prepared
Go out and transform your world……. "
(Angelou, Letter to My Daughter, 149)
