HUSSON COLLEGE DEGREES

Undergraduate Degrees

Husson College has conferred the Bachelor of Science (B.S.) degree in the major areas of Accounting, Business Administration, Business Teacher Education and Office Administration since 1954. Each of these academic areas has several concentrations of study for students to choose from. In 1982, Husson was authorized by the Maine State Legislature to award the Bachelor of Science degree in Nursing. Also in 1987, the first Bachelor of Science degrees were awarded in the major of Computer Information Systems.

The Associate in Science (A.S.) degree, generally reflecting a two year program of study, has been conferred by Husson College since 1965. The Associate in Science degree is given in the areas of Accounting, Business Administration, Computer Information Systems, Medical Assisting and Office Administration. A student receiving an A.S. degree has the option of continuing a program of study toward a Bachelor of Science degree.

Students who maintain a cumulative grade point average of 3.4 (on a scale of 4.0) or better throughout their enrollment at Husson are recognized for that achievement as follows:

Distinction	3.40 - 3.59
High Distinction	3.60 - 3.79
Highest Distinction	3.80 - 4.00

Graduate Degree

In 1978, Husson College received approval from the State Legislature to award the Master of Science in Business. Classes began in the Summer of 1978. The first degrees were conferred from the 36 credit hour program during Husson's Eighty-First Commencement in 1981.

Academic Regalia

The academic regalia or dress worn by graduates and other participants during a commencement exercise is steeped in tradition. The use of caps, gowns and hoods as part of academic ceremonies began in ancient European universities around the thirteenth century. It is thought that the regalia was worn to distinguish academic persons from other members of society. The regalia was also thought to serve some practical purposes as well in the unheated medieval buildings. In addition, custom dictated that hoods were needed to cover the heads of medieval scholars.

Late in the nineteenth century, academic regalia use became more formalized through the introduction of uniform code or standards of dress. Today, the style of gown and the length of hood indicate the degree to be conferred. Dress differs for candidates receiving the undergraduate, master's or doctoral degree.

The hood is lined with the colors of the institution conferring the degree. Husson's colors are green and white. The velvet edging of the hood varies according to the degree. The color gold is indicative of science. The apricot velvet edging signifies nursing. Husson uses a yellow tassel on its motarboards (caps) which is also a school color.

HONORARY DEGREES

Eighty-Ninth Commencement

Honorary degrees have been granted by colleges and universities since colonial times. These degrees are not earned in the academic sense, rather they are awarded to honor or recognize the achievements of outstanding citizens.

Honorary degrees usually highlight the accomplishments of individuals in the arts, public life, education, scholarship, business, health and the sciences. The first honorary degrees date back to 1662, when Harvard granted its first honorary degree fifty years after its founding.

Husson College revived its legal authority from the State of Maine Legislature in 1970 to confer honorary degrees. Since that time, Husson has recognized many prominent citizens for their contributions to the community, the State of Maine, and to the Country.

By virtue of the authority vested in its members, the Board of Trustees is pleased to confer three honorary degrees upon the occasion of Husson College's Eighty-Ninth Commencement.

EARL C. BANKS

To Earl C. Banks: In recognition of your years of selfless service to your city, county and country, your many contributions through volunteerism to the well being of your community, and your deep commitment to raising the aspirations of Maine youth, it is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Business Administration with all the honors, rights and privileges pertaining thereto.

ROBERT H. BRANDOW

To Robert H. Brandow: In recognition of your ability to turn vision into reality, your leadership in the health care field, and your tireless efforts to improve the quality of health in northern and eastern Maine, it is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Humane Letters with all of the honors, rights and privileges pertaining thereto.

DONALD W. PERKINS

To Donald W. Perkins: In recognition of your distinguished career in the profession of law, your notable contributions to the public good in the State of Maine, and your service to this college, it is an honor for the Board of Trustees of Husson College to confer upon you the honorary degree of Doctor of Laws with all of the honors, rights and privileges pertaining thereto.
