HUSSON LEDGER

APRIL, 1958 — HUSSON COLLEGE, BANGOR, MAINE — VOLUME 33, NO. 3

. . . Happy Holiday . . .

EXPANSION

Husson College is expanding to meet the ever-increasing need of more space for the students at Husson. The "Chief" is the proud owner of a trio of classroom buildings now.

The main building, located on top of Park Street hill is known as "The Friendly School Upon The Hill." It was erected in 1940 and is currently housing its 18th class of students. It is now used for Shorthand, Typing (two rooms), Mimeographing, and Advanced Accounting classes. The Business Machines Room is in Room 7. There is only one arm-chair classroom available and that is Room 6. On the lower floor is the general office, an office housing the Bookkeeper, Office Director, Executive Director, and two student assistants. There is a faculty room and Conference room. The most needed Book Store is located at the end of the hall and is open from 12:00 to 3:00 daily.

The gym is still in use for practice and a few games. Next year the girls' and boys' teams are going to use the Brewer Auditorium for practices and home games. The cafeteria is still in a corner of the gym and serves over 475 students in some way or other daily. There was a time when the original building took care of all.

"THE FRIENDLY SCHOOL UPON THE HILL"
1940-1958

in the rooms. Two of the rooms are furnished with formica top tables for accounting purposes. The blue room has blue table tops and blue blackboards—the green room, green table tops and green boards. Some class, we think! In Dickerman, there is a large trophy case which houses all the trophies Del's teams have won!

Currently the student body takes periodic walks to John Bapst High School. In September this will end. The "Chief" has purchased Hart Hall which is located across from the

DICKERMAN HALL 1956-58

Last year at mid-semester, the Annex was ready for use. This building is now known as Dickerman Hall. The building is named for a long-time friend of the "Chief." Mr. Dickerman was instrumental in starting the "Chief" on this great career of his. Dickerman has a library, one small lecture room, a medium classroom, and one large classroom on the first floor. In the basement, there are men's and women's restrooms and a large lounge for both men and women. Student lockers are in the basement of Dickerman, also. The top floor has four classrooms, an infirmary, and a teachers' room. All the rooms are in pastel green and blue. The most modern of armchairs are

main building. It was formerly the Thomas Rod building. Hart Hall is a handsome red brick building of two floors. On the top floor, plans are to have three classrooms. The lower floor will give us three more. There will be restrooms and a teachers' room. The basement will be used to store school supplies and materials. It is hoped that a dark room for projection of movies, slides, etc., will be available so that classes having movies on certain days will meet there and save the moving of projectors, etc. from building to building. Hart Hall is named for another who befriended Mr. Husson in his youth and helped him get started.

This whole setup is just a stop-gap until Mr. Husson can see his way clear to build his $1,000,000 project out on Broadway. It is hoped that by 1960 one large hole will be dug for a new building.

The College is growing and needs dormitories for its women residents. A new gym will be a welcome addition, especially to those who spend hours and hours at basketball. There could be an excellent intramural program for the men and women of the College.

The Husson Student Body is expected to expand to 600 students in September of 1958. This is capacity for the three buildings.

There are twenty faculty members and the largest group is enrolled in the Department of Business Administration. The Secretarial Department is second in number and Accounting and Business Education run a close third and fourth.

At the present writing Freshman applications for the year 1958-1959 are double those for the current year on the same date. It looks like a banner crop for next year.

Mr. Husson deserves much credit for his expansion program. It is certain that all former students are happy to see the College grow.

Our degree students are going into Industry and Big Business. Our teachers are teaching all over the United States. Our Secretaries are spread from one end of the land of ours to the other.

The loyal and true members of the Alumni of Husson College spread its reputation from North to South and East to West and back again.

President's Column

Life is full of joys and sorrows, ups and downs, ins and outs, doldrums and excitements. There is no even keel. As I think about it, I'm sure it's a good thing. Too much money is as bad as too little money. There is plenty of evidence that this is so. Too much or too little is not for me—nor for you. Let us all rejoice that things are as they are. Would you change it? Really?

The basketball game at Brewer, when our varsity team won the Conference Tournament Cup, caused me to pause and reflect. On two previous occasions, we were defeated. We were down-hearted in '56 and '57 when, after a perfect season, we could not win the tournament. We lose graciously, but we were glum, and the ride home was a long and quiet one.

But the picture changed this year. Our spirits skyrocketed, there was great joy and rejoicing. Our players were mobbed in a heartfelt excitement as the buzzer sounded off the end of the game. It was a thrilling experience, and every Husson fan was glad through and through.

Thus it is that we learn a lesson in living. Down, then up. Gloom, then joy. Disappointment, then success. No even keel. The Lord doesn't want us to have too much or too little. For those who try, He grants a fair quota of blessings, but only after testing us with another quota of disappointments. I have thought all

(Continued on Page 2)

HART HALL 1958–

President's Column

(Continued from Page 1)

my own on this particular lesson in living. Listen! I honestly and sincerely believe that victory is sweeter, it tastes infinitely better, if it is preceded by failure and disappointment.

We are better men and women when all our faculties are challenged and they meet the test. Remember this, my friends, when your grades are disappointing, when illness takes a loved one, when your dreams fail, when the chips are down, it is but a test before victory. For those who try, that is. "The Lord helps those who help themselves." So keep trying, take each disillusionment in stride, knowing in your heart that tomorrow brings a new sun, a new sky, and a new opportunity. The Lord watches over his own, and you are one of them. Pleasure will follow pain, success—failure. This verse is apt:

"When the shore is won at last,
Who will count the billows passed?"

It won't matter, when you are awarded the diploma or degree, how hard and painful was the road. You will forget it all in the joy of achievement.

OUR PREXY

I say thank you to the varsity for its great victory, and for a theme for my column. Our men had a great season because they had the will to win. They never let up. They are to be congratulated upon their deportment, their attitude, and their achievement. I'm very proud of them, and their coach.

The girls' team had a perfect season. To each of them a salute And another to Coach Swan, whose great record appears elsewhere in the Ledger at my request. As administrative head of the college, I just swell with pride, not only for the champions within our halls, but for the good behavior, the poise, the fine Husson ambassadors they proved to be when visiting the schools on their schedule. I'm very proud of the total record. May Husson continue to enroll the type of student who can "be" and who can "do" as these have shown us.

The men's junior varsity team comes in for real praise too. It has had a fine record. Thanks, Coach Nolde, and thanks, men. Not only was the win and loss record an excellent one, but the lost games were by a margin of one or two points at the most. These are justly called "heartbreakers." All three teams have set records that will be hard to beat and which have won considerable prestige for their college.

Our growing pains have materialized in a third building. When the Thomas Rod Company building was put on the market ,I had no immediate thought of adding it to our collection. Gradually, however, everything seemed to point in that direction, and we acquired title because we had to have more classroom space. Anticipated enrollments for next fall, even this early date, indicate that the three buildings will be taxed to capacity.

Professor Donahue and his Tax class have initiated the program in the new building. He meets his students there each Tuesday and Thursday for one class period, so to him goes the honor of being "first." There will be six assorted sizes of classrooms, plus rest rooms, a teachers' room, and lots of storage space. This may surprise you, but the college has ten tons of white paper in Professor Wright's barn. Now we can store our supplies in our own buildings. We hope that all our students are happy concerning the expansion program in which the college finds itself. It brings closer the day when the entirely new campus will become a reality.

Next vacation will be the Easter recess. Enjoy it to the fullest. The end of the year will be in sight upon your return, and for some it will mean the end of the college journey. Graduation, then adventure. Please make the most of the remaining school days, in spite of the good weather that beckons you out of doors.

To know my students better, I'm inaugurating a get-acquainted plan. Each of you will receive a card on which there will be recorded the date you are to have your "chat with the President." Watch the mail-box closely and appear at my office as indicated. The welcome mat is already spread in anticipation of your visit. Just come as you are, and we'll try to be warmer friends because we will know each other better.

Cordially,
"Chief"

DEAN'S LIST

President Husson announced recently the first semester Dean's List. These students have attained an excellent record for themselves and for their College and are to be congratulated by the administration, faculty and students for their efforts.

Their achievements must be at least a "B" average or 3.0 to be on the Dean's List, while a 4.0 or all "A" average is outstanding.

Special recognition is given to those who have received 4.0. Students who received this average are: Accounting Department, Roger Furbish, Princeton; Reginald McKenney, Madison; Education, Sally Walker, Dover-Foxcroft.

The students in the Accounting Department who received 3.0 are the following: Robert Allen, Hartland; Robert Aultman, Belfast; Maxwell Ballanger, Houlton; Kenneth Carlson, Newport; Reginald Cote, St. David; Edward Cramer, Union; Edmund Curley, East Millinocket; Joseph Daigle, Glastonbury, Connecticut; Kenneth Drake, Springfield; Ernest Gaudet, Hampden; William Gilbert, Skowhegan; Harrison Hohn, Belfast; Hoyt Haney, Brewer; Melvin Hamilton, Bangor; Edmund Hardy, Belfast; William Jarvis, Newport; George Lausier, Lille; Robert Lawrence, Jr., Hampden; Marjorie Lindie, Bangor; David MacNichol, Eastport; Elwood Martin, Bangor; James McClure, Calais; Frank Morgan, West Pembroke; Linwood Norton, Caribou; Barbara Patch, East Holden; Keith Patten, Lincolnville; Richard Pelletier, Caribou; Robert Perkins, South Brewer; Robert Ronan, Bangor; Thomas Ryan, Greenville; Ernest Sementilli, Bangor; John Simpson, Bangor; Bernard Stevenson, Bangor; Barry Stoddard, Washburn; Richard P. Sullivan, Whitneyville; Donald Vachon, South Brewer; Nancy Wells, South Windham; Claire Vose, Machias; Everett Johnston, Houlton; Clifton Kuchinski, Bangor; Louis Peters, Bangor; John Vanier, Bangor.

The students in the Business Administration Department who are on the Dean's List are the following: Frank Ackley, Whitneyville; Bertraud Albert, Madawaska; Robert Ayer, Jr., Brewer; Norman Babb, Calais; Paul Baillargeon, Old Town; Elmer Berg, Jr., Onawa; Basil Camic, Jr., Eastport; Richard Dore, Orono; Robert Elwell, Sherman Station; Miles Elsemore, St. Stephen, New Brunswick; John Geagan, Jr., Bangor; James Goggin, Bangor; Robert Good, Hampden; Paul Goss, Charleston; James T. Graves, Bangor; Elbridge Hamm, Jr., Brewer; Richard Hobson, Orono; Harold Hansen, Nunica, Michigan; Robert Hart, Old Town; Earle Harvey, Wilton; Wayne Holmquist, Stockholm; Charles Larlee, Aroostook Junction, New Brunswick; Roger Luce, Ware, Massachusetts; James McNamara, Bangor; Frank Merriman, Bangor; Edmund Nuzzy, Jr., Greenville; Charles Oliver, Orono; Richard Pickering, Lincoln; Alan Smith, Bangor; Richard Taylor, Woodland; Robert Tilden, Ellsworth; James Ugone, East Corinth; Wayne Wadman, Brownville Junction; Theodore Worden, North Vassalboro.

The following is a list who received honors in the Department of Business Education: Diane Allen, Sedgwick; Diana Barrey, Blaine; Charles Bears, Millinocket; Ida Boylan, Port Clyde; Robert Cimbollek, Bangor; Bernadette Daigle, Bangor; Nancy Grant, Addison; Nancy Gray, Dark Harbor; Rosalie Green, Dover-Foxcroft; Jeannette LePage, Bangor; Beverly Meservey, Appleton; Janice Moody, Union; Judith Murphy, Rumford; Gerard Picard, Fort Kent; Lanny Reynolds, Winslow; Robert Sherman, Unity; Janice Sprague, Swans Island; Adrienne Strout, Orrington; Clarence Thompson, Carroll; Marilyn Torrey, Blue Hill; Charlotte Turner, Eddington.

Those who have attained a record of 3.0 or better in the Department of Secretarial Science are: Frances Akerley, Farmington; Mary Ames, Camden; Marilyn Bennett, Guilford; Donna Bigelow, East New Portland; Sylvia Cook, Dennysville; Joan Crabtree, Fairfield; Charlene Crane, East Corinth; Linette Dionne, Ashby, Massachusetts; Jane Duffy, Blue Hill; Janice Frazer, Presque Isle; Gloria Hjulstrom, Stockholm; Jacqueline Hodsdon, Dixfield; Betsey Kline, Silver Springs, Maryland; Ruth Koy, Searsport; Joan Larson, New Sweden; Margaret Leach, Penobscot; Sandra McNeal, Bar Harbor; Rachel Mitchell, Searsmont; Jeanine Morrill, Bangor; Jean Murphy, Millinocket; Arlene Pease, North New Portland; Deborah Ray, Wilton; Jeannette Smith, Bangor; Marilyn Stinchfield, Bangor; Karen Torrey, Dixfield; and Judith Wilbur, Camden.

SALLY WALKER

Mrs. Sally Walker, a Junior in the Department of Business Education, has achieved the 4.0 honor rating for two consecutive semesters.

Sally is a native of Dover-Foxcroft. After graduating from her home town schools, Sally served in the WAF's with a rank of Airman First Class (Buck Sergeant).

Sally is now living in Bangor with her three year old son, Charles, Jr. Good luck, Sally! Hope you make it again this semester.

TWELVE THINGS TO REMEMBER

The value of time
The success of perseverance
The pleasure of working
The dignity of simplicity
The worth of character
The power of kindness
The influence of example
The obligation of duty
The wisdom of economy
The virtue of patience
The improvement of talent
The joy of originating.

—Marshall Field

HONORS

PRESIDENT HUSSON NOW BUSINESS EDUCATION RESEARCH ASSOCIATE

President Chesley H. Husson of Husson College was signally honored this week when he was invited to join BERA at its annual meeting in New York, March 6 and 7.

The Business Education Research Associates, Inc. has a limited membership of fourteen men whose careers are devoted to business training in the private school field. An annual research project is conducted by these men under the direction of Dr. William Polishook of Temple University.

When a group of businessmen face common problems that challenge the nature of their businesses, and their opportunities, and when it is inevitable that there will be a change but the nature of the change and scope are not immediately apparent, the men join hands in an effort to measure the trends, to study the opportunities, and to share the solutions that their combined research efforts might produce.

BERA is such a group of men. They are business college businessmen who, appreciative of the changes that have already occurred and alert to those that appear to be in formation, have banded together and are collectively financing studies of the trends and opportunities in the field of private business education. Their study reports are named "B. E. R. A. Reports" and are published by Gregg for the Associates.

From present trends it appears that the business school, with proper leadership, will continue its prominence and service, but only if it becomes a post-high school, college-level institution whose curricula, personnel, methods, appointments, and administrative practices compare favorably with those of the other college-level schools operating in the same area of education. Moreover, it must continue to fulfill and to expand its unique service as an *opportunity* school that meets the training needs of those who elect its programs of study to prepare for the demands of a modern and complex society.

BERA is a research activity. It is non-profit. It has no axes to grind. Its membership is now limited, but solely for the purpose of assuring attendance at its regularly scheduled conferences where the Associates consider reports already prepared and select new problems for attack. All expenses of conferences are met by the members, each paying his own way. The activities of BERA are now expected to be self-supporting, since no refund of the original investment is intended. The return from the sale of BERA Reports are used for the study of new problems.

When asked how he felt about this new and challenging honor, President Husson replied that he was anxious to start his work with the group. "They are fine men, and forward thinking. And they are dedicated to their schools and their contributions to private business education. I like men who 'think big,' and who work at it. I have met them all, and since they are from all over the United States, I can profit much by the contacts. Our College has always endeavored to provide the best training available, in proper surroundings, with a high level of instruction, and governed by sound ethical principles. The BERA membership has watched the growth of our institution, has noted the distinctions that it has won over the years, and for these and other related reasons has invited me to become an Associate. I am honored. It means work and more work, but the opportunity spells a challenge that I feel I should accept as a duty to my staff and student body. I expect much good to come from this association with men of proven character and achievement."

Sign on a chicken house: "Warning: Anyone found prowling around here at night will be found here in the morning."

DEAN FOSS

Millard E. Foss of Bangor is our Dean of Men. "Bud," as he is known to his associates, is a remarkable man of New England, and certainly a product of coastal Maine. Dean Foss meets his problems and those of the Husson men with a calm spirit and certain feeling that all will be well.

Mr. Foss teaches mathematics, and law. He has an advanced class in statistics. He has a very pleasing personality and a certain charm that goes with his easy-going manner.

His hobbies are fishing and hunting. He catches the biggest fish and always gets his deer. He loves to hike ten miles for a half dozen good trout. Bud is truly an outdoor man.

Mr. Foss is married and has one daughter, Penny. Mrs. Foss teaches in the elementary grades in the Bangor Public School System.

EDITORIAL

PRACTICAL-CUM LAUDE

In all the current commotion over higher education, our crying need for double-dome scientists we haven't got, we think it's high time somebody gave a thought to the kids—hundreds of thousands of them across the nation—who do not go to college, and who will not be going to college, no matter what the inducements.

These are the youngsters who must shoulder responsibilities at a tender age, who must prepare themselves quickly to "help out" at home; the girls who want to be secretaries, the boys who want to be accountants but who may have to get their education via the night school route; still others who are frankly not students, but require some special grooming to prepare for the battle of life at a modest level. For these, a Government program that would force them into college would be both heartless and futile—just as it is tragic today to see young people in our colleges who are there because their parents insist upon it and can pay the bills.

And let us recognize, too, that no group of citizenry contributes more to the nation's economic and civil welfare, to keeping the wheels turning in business and industry and our Government functioning at the national, state and local levels than these business school careerists. Without them, we should be in a bad way—but quick! In fact, we can think of nothing more chaotic and generally insufferable than a world of double-domes.

Actually, so far as we can see, any institution to which high school graduates go in further preparation to deal with the world, whether a university or a business school, is in simple fact a college—and should be so established in the public mind.

It is encouraging, therefore, to note that this attitude is beginning to evolve. While it is not practical for youngsters of the Horatio Alger persuasion to devote time and money to football—the primrose path to acclaim—there is such a thing as school spirit in these specialized educational facilities.

In many business schools there are social functions and alumni organizations that keep memories green and contacts alive. More and more of these schools, we learn from E. R. Moore in Chicago, now conduct formal and impressive graduation exercises—complete with perorations, prayers and patriotism and even to caps and gowns. In fact, the Moore people have gotten out a booklet for business schools that spells out just how appropriate commencement exercises are arranged and conducted.

There is, in other words, growing recognition of the fact that it makes just as much sense to live for good old Spivis Commercial as to die for dear old Harvard Law.

BOB HART'S SON

News From Dept. of State

Dear Mr. Husson:

Each year a large number of business school graduates become members of the United States Department of State. These young men and women are given assignments in various phases of the Department's international activities. Many are assigned to the Department in Washington and work in offices concerned with such matters as passports, intelligence, communications, and personnel, or in the geographic bureaus dealing with European, Inter-American, Near Eastern, and Far Eastern affairs. Others, who are over twenty-one years of age and meet the requirements for the Foreign Service, go overseas as members of the staffs of American Embassies, Consulates, and Legations throughout the world.

The employment opportunities offered by the Department are attractive to graduates not only because of the satisfaction they derive from being a member of the team which carries out the President's foreign relations program, but because their work would be concerned with this Nation's dealings with all other countries of the world. Many transfer to interesting positions in the Foreign Service overseas after they have gained experience by working in Washington a few years. In addition, many of our employees continue their education by attending night classes at the colleges and universities located near our offices in Washington.

We believe that your students will want to consider the career opportunities open to them with the Department at the time they begin to make plans with their future. Therefore, we would appreciate it if you would make our employment information available to your senior students through your commercial teachers, student counselors, placement office, or other methods which may suggest themselves to you. If additional copies of any of the enclosed materials are desired, we shall be glad to supply them promptly.

Sincerely yours,
David H. Schindell
Chief, Recruitment Branch
Employment Division

There was a man who went to the race track, made a mental bet, and lost his mind.

MAINE STATE CHAMPS

The Husson College Quintet has just hit the top rung of the ladder and have turned in a perfect season.

The Indians have captured three major titles in the 1957-58 season, Namely,

1. The Northeast College Conference with a 9-1 record
2. Northeast College Tourney Champs with a 2-0 record
3. Small College State Champions.

Our hats are off to this championship team which has been built around four upperclassmen. The only man lost to Coach Merrill for next year is Bob Burleigh of Millinocket.

Bob Burleigh—an outstanding guard who uses his head in the clutch scores from outside and has a powerful drive under the basket. Bob has been a powerhouse his four seasons. In fact, he is second high scorer for this year with 193 points.

Dick Moore—Dick wears a special type of eyeglasses and we at Husson know that his glasses have improved his game 100 per cent. Dick shoots from the sides and scores consistently. Dick is tall and number one man on the boards. Dick is a Junior and in 1959 will probably reach his peak. Dick has piled up 186 points for the year, making him fourth man in the scoring department. Dick played for Milo before entering Husson.

Dana Dow—Dana is a lean horse and covers the floor in no time flat. He is a fine scorer and is number two man with 188 points to his credit for the season. Dana has another year and should be tops again. He is the one who finally gave in and had his hair cut for the tourney. It brought us luck, Dana. Husson expects big things from you next year.

NORTHEAST COLLEGE CONFERENCE WINNERS

Bob Gross—Bob is a hard working guard and holds down a regular starting berth which he has earned this year. Bob is a Sophomore and will be here two more years. In 1959 Bob will be even stronger. Bob has scored a total of 220 points and is number one in that department. He is a "leftie" and is a strong defensive player.

Brucie Bower—Brucie hails from Brewer and has done a real fine job getting into the swing of basketball at Husson. He has been filling the position left by Bob Cimbollek. (Bob had to leave the squad due to illness.) Brucie has scored 167 points in the games played and is a strong man on defense. His hair-raising shot from center with seconds to go brought all the gang to their feet in cheers. He is a freshman and is a welcome addition to the wearers of the Husson colors.

Wayne Smith—Smitty has returned to the Husson fold after four years in the service. He has developed a great deal and his height has aided the boys many a time. He is a real good shot and will be tops next year. He has scored 76 points since he joined the squad. He is up on the boards when it is rebounding time.

Wayne Richards—is a boy from M. C. I. who has the build and stamina for a rugged game of basketball His defensive ability has been displayed in many games this season. He is a Frosh and will return to us next year. We expect great things from this boy.

Dave Kelley—Meet the great guy with the gals. Kelley takes to basketball and girls and even a bit to Accounting. He says he likes "figures". Kelley is a small man but a real fine guard. He is a Bangor graduate and shows up tops at Husson. He is well-liked on and off the court. He's a bit of a comic, too.

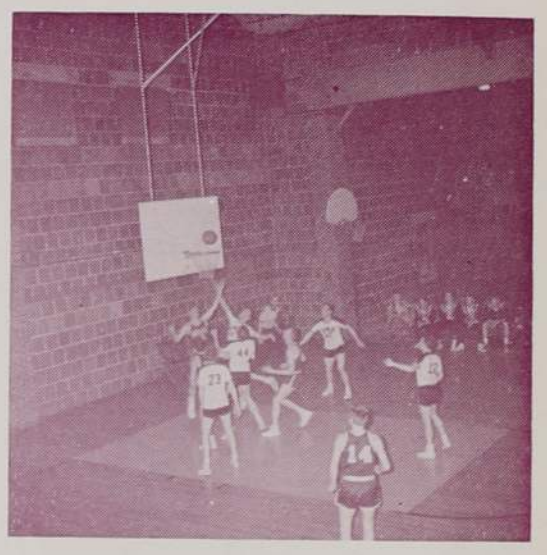

Wayne Haskell—Wayne is a curly red-head. He played for Hermon High and is coming along great. It takes time to go from "Small School" basketball to "College" ball. He is tall and capable in the scoring department and on the boards. Coach expects great things from Wayne by the time he is a Senior.

John Dill—John has been with the squad all season. He has been on the injured list and it is good to see him without his crutches. John hails from Hampden. He is a quiet boy but a fine competitor in this game of ours. John is a Frosh and will return. Better luck next year.

Jeff Jowdry—Jowdry hails from Ellsworth. He played for the Eagles and has shown promise here when he has played. He entered in January and will be on the squad next year.

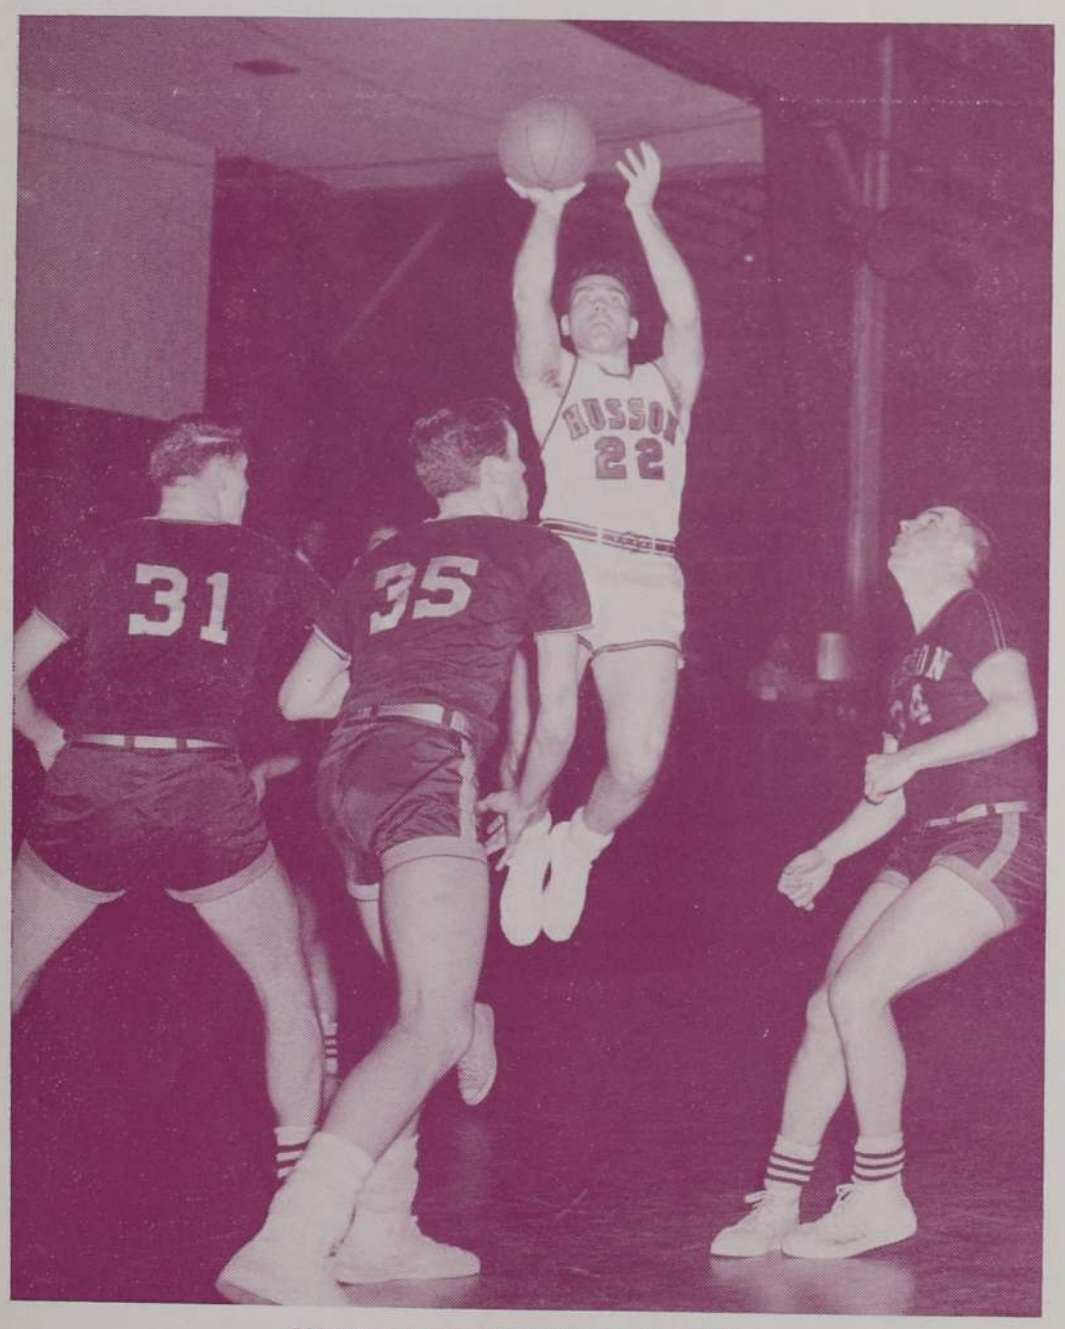

Danny French and Bob Cimbollek had to retire from the squad this year due to injury and illness. Both boys are exceptionally fine floor men and scorers. Bob has been high scorer for two years in the Conference. We are all hoping for these boys to return to the Indian Camp next year.

TOURNEY WINNERS

Charlie Bears and Wayne Joy—managers supreme. These boys have a rough schedule to keep and many chores to perform. The squad and Coach depends on them 100 per

(Continued on Page 6)

BURLEIGH SCORES IN TITLE GAME

COACH MERRILL SMILES!

LASSIES UNDEFEATED!

For the second time in the coaching career of Miss Clara L. Swan, the Husson College girls' team has had an undefeated season. The first undefeated season came in 1953 with an 18-0 record.

The 1957-58 season was a victorious one for the Husson lassies with a 12-0 record. Teams included in this year's schedule were Westbrook Junior College of Portland, Nasson College of Springvale, Deer Isle High School, Erskine Academy, East Corinth Academy, Mattanawcook Academy, Husson Alumni, and Milo High School. Erskine, Deer Isle and Milo schools are leaders in their particular leagues.

The Husson team included two veterans from last year, both Sophomores. Captain Ellen Severance of Corinna is enrolled in the Secretarial Science Department and will be graduated in June. She is a member of the back court and a star defense player. She has led the team all season and was elected Captain by her teammates. Beverly Govone of Forestdale, Massachusetts is the other veteran. She is a defensive player and guards on the right side of the court. She is tall and rangy and has held scoring to a minimum from her side of the floor. She is a Sophomore in Education and will have two more years of college. Two other defensive players make up the top players of the squad, namely, Mary Ames of Camden and Ruth Whittier of Winterport. Miss Whittier played center guard and is in her Freshman year. She is enrolled in the Accounting Department. She is a tower of defense and kept the opponents' scoring down to an average of twenty points per game. Mary Ames filled in at any of the three guard positions. She is a very fine guard and is plenty of trouble to the opposition. She stands high in the estimation of the players and spectators. She will be graduated from a one-year secretarial course this June.

In the forward section of the team, there are only Frosh players. The Murphy twins, Cary and Jean, of Millinocket, played their first year of competitive basketball and did a creditable job. The twins scored second and third in the scoring department. Cary is a Freshman in a degree program of Accounting and Jean a Freshman in a Medical Secretarial program. At center forward position was a newcomer to Husson, Nancy Hamilton of South Brewer and a John Bapst graduate. Nancy is a "lefty" and has a nice one-hand corner shot. Due to injuries, she was out a few games but managed to score her share of points and to set up plays from the center. It is the hope of the coach that she will return another year. Playing a regular forward this season was Rachel Mitchell of Searsport. She played an over-head shot for all it was worth from either corner of the court and helped in the rebounding. Rachel is a 2-year Secretarial student and will return another year.

The over-all picture of the team's record is 12 games won with a total of 473 points scored against the opponents 254 for the season. Husson's game average was 47 points per game. Mitchell scored a total of 149 points for the season; Jean Murphy 115, Cary Murphy, 105, Hamilton, 97 and substitute Judy McQuarrie, 42 for the season.

The other members of the squad for the season were Judy McQuarrie of Madawaska, Marjorie Cummings of LaGrange, Janith Veinot of Searsport, Anne Langley of Orono, Emily Fitts of Thomaston and Jessie Russell of Bangor. Managers for the squad were Janice Moody, Union, scorer; Nancy Wells, New Vineyard, timer, and Elaine Roundy, Fairfield, general manager.

The squad will be honored at a banquet in the near future with some special awards. Included in the awards will be a scholarship for next year, given in Coach Swan's name, and a Women's Athletic Association Sportsmanship award.

Coach Swan has completed her twenty-fifth year of coaching and is retiring this year. Nineteen of these years she has coached Husson teams. Husson girls have an over-all record of 241 wins, 34 losses and 7 tie games under Coach Swan's leadership. Miss Swan will continue refereeing girls' games in Eastern Maine. She will continue in her administrative and teaching position at Husson.

The executive asked his secretary where his pencil was. "It's behind your ear," she told him. "Come, come, you know I'm a busy man—which ear?"

New Stenog: "Well, at last I've got a raise in salary."
Old Stenog: "Honestly?"
New Stenog: "Oh, don't be so inquisitive."

(Continued on Page 6)

Coach Retiring

HUSSON GIRLS UNDEFEATED
IN 12 GAMES

Bangor, Feb. 15—

For the second time in 19 years, the Husson College girls basketball team has rolled to an undefeated season.

Under the capable coaching of Clara Swan, the Husson sextette compiled a classy mark of 12-0. The other perfect season was in 1953 when the girls posted a 13-0 record in the books.

Never Lost More Than Three Per Year

Coach Swan has been in the habit of turning out winning teams. Now in her 19th year as Husson girls' coach, she has chalked up the enviable record of 240 victories against only 32 losses. Seven tie games also are on the books, as previously a tie game could not be completed.

In ten seasons, the Husson girls have won 20 out of 21 games and never has a Swan-coached team lost more than three games in one season.

Actually, Miss Swan's coaching career has extended through 25 campaigns, and she has announced that this season was her last as girls' coach at Husson. She now plans to devote all her time to teaching and other administrative duties at the college.

Before taking over at Husson, Miss Swan coached for two years at Mexico High School, three at Foxcroft Academy in Dover-Foxcroft, and one year at American International College in Springfield, Mass. She assisted in coaching girls' basketball at the Bay State school.

Included in their 12 victories this year were decisions over strong girls' teams at Milo and Deer Isle High Schools. The Husson team also competes against Westbrook Junior College and Nasson College, the only other colleges in the state that have girls' basketball in the curriculum.

Control Game Husson's Forte

Although the Husson team plays a control-type of game, the girls have nevertheless averaged better than 50 points per game this season.

VETERAN GUARDS AND COACH TALK IT OVER

MANAGERS ROUNDY, MOODY AND WELLS
Working In A Game

J. V. Coach

J. V. Star

J. V. Team Tops

Under the guidance of Coach Fred Nolde, the Husson College JV's have completed a most successful season. The team compiled a record of 9 wins and 3 losses and these, never by more than three points.

The JV schedule included some of the best small and medium schools in the area, as well as Higgins Classical Institute and Thomas Junior College of Waterville.

One of the highlights of the season was the defeat of Higgins Classical on their home court. The Higgins five have always been tough at home for all Husson teams as well as many others.

Don "Red" Wallace and Ron Geagon were the consistent team leaders throughout the season. Don "Mr. Outside" has a fabulous set shot and Ron, the inside man, is great on the boards. Both boys return next year.

Others returning next year are Tom Graves, Bill Vachon, John Rioux, and Jim Doughty. Jim was lost to the team early in the season as the result of a broken wrist suffered in a ball game at Milo. He was sorely missed by the club as he is a good scorer and board man.

From all indications, Mr. Nolde will field another winning combination next year.

The team record this year was as follows:

Husson		Opponent
81	Stockton Springs High School	45
51	Hartland Academy	47
49	Stockton Springs High School	33
81	Milo High School	61
59	Higgins Classical Institute	52
45	Milo High School	46
60	Thomas Junior College (overtime)	63
82	Deer Isle High School	69
72	Hartland Academy	62
61	Deer Isle High School	63
68	Thomas Junior College	52
66	Higgins Classical Institute	65

These boys and Coach Nolde are to be congratulated for their fine win and loss record.

VARSITY

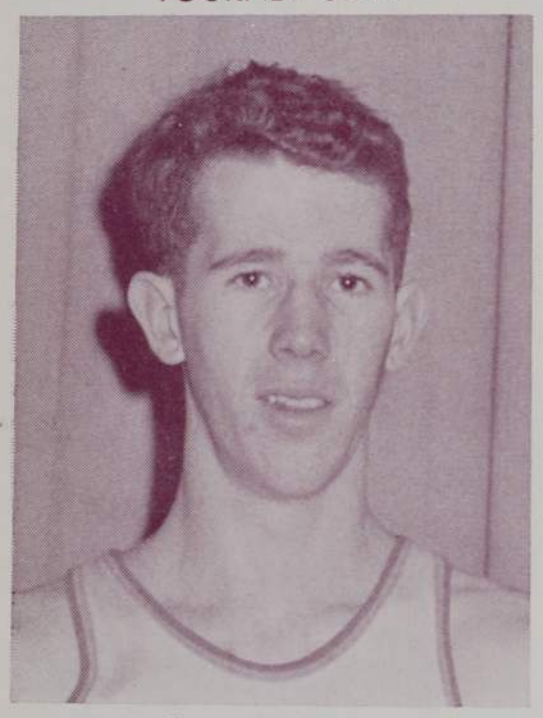

(Continued from Page 4)

cent and the boys have been most helpful, and faithful. Both men are clean cut and are a distinct addition to the squad.

Coach Merrill—Del, as he is familiarly known, is to be congratulated on his boys as in the past. Their performance is due to the perserverance, knowledge, work and drive of Del Merrill. Del is an excellent example of a Coach and he practices what he preaches. Congratulations to you, Del, and may the future years be filled with as much success as these past years. Husson College salutes you for a job well done.

The Varsity record stands at 16 victories and three losses, plus three titles. Their field goal shooting is fifty per cent and foul shooting is sixty-eight percent.

MISS KINNEY

W. A. A.

Did you say "We are all wet?" How true you are, and we are enjoying every single minute of it. You should see certain beginners, I am thinking about, develop those athletic swimming strokes. Never before has Husson College had a swimming club. Some of us never swam a stroke before; but you should see us now, "submarine sals," that's us. Every Tuesday and Thursday we gather together our swimming togs and hike through rain, snow, or sleet right down to the Y.M.C.A.'s new swimming pool. That, of course, is in addition to the classes some of us are taking. It won't be too long before we are giving the "experts" competition. Come on down and join us some one of these days.

NEW COACH

Miss Janet Kinney, a member of the Staff of the Secretarial Science Department, will coach girls' Varsity Basketball next year and for years to come.

Miss Kinney comes well qualified for the position. She is a graduate of Bangor High School where she was very active in basketball. Miss Kinney played four years as left guard at Husson College and was one of Husson's best. She received her B. S. Degree from Husson in 1955. She taught two years at John Bapst High School and coached the C.Y.O. girls' team to a creditable record. In September, 1957, Miss Kinney joined the Husson faculty. She has coached the cheerleaders this past season.

Miss Kinney will receive her Master's Degree from Boston University this summer. All of the Husson fans, students, and faculty wish Miss Kinney much success with her girls' teams in the years to come.

Our basketball season has come to a successful close, and girls you did a wonderful job this year. The organization is very proud of all of you. That congratulations go to the cheerleaders as well. VERY WELL DONE!

We are now completing our bowling for the year. With only a few more strings to go, there is great anxiety as to whom will get the award for the highest average score. We will soon be knowing! No one goes without a chance on our bowling team, for we are also giving an award to the person with the lowest average score. See, you may get an award after all next year if you join us.

The hiking club is anxiously awaiting the first signs of spring. It won't be long now! Get those hiking shoes patched up for you will soon be scuffing off.

GIRLS' BASKETBALL

(Continued from Page 5)

This year's squad of 14 included only two veterans from last year. They are sophomores Beverly Govone of Forestdale, Mass., and Ellen Severance of Corinna, the team captain. Both played guard for the Husson sextette.

The other two girls who saw action as guards were Ruth Whittier of Winterport and Mary Ames of Camden, both freshmen.

Alternated at forward positions during the season were Nancy Hamilton of South Brewer; the Murphy twins, Cary and Jean, of Millinocket; and Rachel Mitchell of Searsmont. All are freshmen.

Rounding out the squad were: Jessie Russell of Bangor, a sophomore but playing her first year on the team; and freshman Janan Veinot of Searsport; Anne Langley of Orono; Emily Fitts of Thomaston; Marjorie Cummings of LaGrange; and Judy McQuarrie of Madawaska.

Successor Faces Stiff Challenge

The Murphy twins and Rachel Mitchell were top scorers this season. Miss Mitchell averaged better than 12 points per game.

Miss Swan's coaching at Husson has produced some outstanding teams and has resulted in a brilliant won-and-lost record. Whoever takes over the reins as girls' coach will be facing quite a challenge.

It's a record that will be hard to beat.

(This article was taken directly from the Boston Sunday Herald, Feb. 16, 1958, for the benefit of those of you who did not have the opportunity to read it. It is a wonderful record of Miss Swan's coaching career and one in which we here at Husson are very proud.)

Etiquette—Learning to yawn with mouth shut.

First Carpenter: "What makes you think your wife is getting tired of you?"

Second Carpenter: "Every day this week she's wrapped my lunch in a road map."

CHEERLEADING

The Husson varsity cheerleading squad consisting of Captain Sandra Hammond, Betsy Kline, Judy Wilbur, Diane Dunning, Jane Feeney, Frances Akerley, and substitute Judy McQuarrie conducted many rallies before the basketball games this year. The girls were present at all the home games rooting for the Indians. They supported the team in the Eastern Maine Small College Basketball conference and in the State Tournament against Nasson on March 12.

The girls deserve a great deal of credit for the hard work and enthusiasm displayed by them this year.

H - U - S - S - O - N !

ALUMNI NOTES

December 1957.

Dear Faculty, Students and Friends:

It is now that time of year when we stop whatever we are doing and look back over our failures and accomplishments of the past few months to take stock of our lives and of our friends. Here, in Turkey, a person realizes the value of friends much more than in the States. It is with this in mind that I start this piece of correspondence.

When I left good old New England for Turkey, I promised I would write to everyone and not lose contact with schoolmates, relatives and friends. However, as you know, I haven't succeeded too well. There are no basic excuses I can offer, so I won't waste time trying to get you to think I'm not lazy. I'll just say my New Year's resolution will be to try to do better.

But, before the New Year arrives in all its splendor, let me give you a brief run-down on what has happened to me since you last heard—or have you heard! Just pull up a chair, light up the pipe or gather your knitting whilst I tell of my travels here in the Middle East—birthplace of the world.

New York was all ablaze when I left there in June, but it was a far cry from the blaze of the setting winter sun here in Izmir. Winter—what pleasant memories that word brings to me. How well I remember the many days and hours spent at Husson during the winter. The dances, the outings, and also the hours of "study" all come back to me. I can see the students plodding to school now after we had a little "snow." How I'd love to see snow now. I haven't since my last winter home in '56. I'll be back, so you "old timers" keep watching for me.

Winter—the stillness that is in the air after a fresh coat of Heaven's white blanket has fallen softly to the earth is a far cry from the noise of the cold war that hangs around the border here.

Winter—the time of year when children can have wet pants and say it was the snow and slush. Oh, those are the times when, after the dullness of post autumn's glory, the land again shines in the white starry sparkle of Nature. As the sun sets tonight I think back over the past few months and recall how glum and gloomy I felt just a short time ago. However, I've begun to like the place, but it will never take the place of home—nothing ever will for me.

Turkey looked quite beautiful from the air—especially after Texas—and with little rest and having grabbed meals at the nearest lunch counter or being served on the plane many feet up. Here I had great hopes of settling down for the next year and making a "home away from home." But it hasn't happened yet.

Morale is no different here than statewide when a guy is away from home—that is, if everything is running right. And things are never running right nine times out of ten. The biggest morale breaker here is mail and movie service. This past weekend, for example, we had no movies—and Pajama Game was supposed to play—because the films were not flown in from Athens. This happens quite frequently—more often with the mail than with the films. Mail call is about once a week so you can see how we look forward for letters from the states. (The above is not any hint, of course, for you folks to write me.) The job I have over here is very interesting and there is loads of work. I get dictation just about every day and other small odd jobs to do from the General. However, the majority of the work comes from his four aides—he has two American aides; a major whose wife is from Ellsworth, Maine, and a Captain as well.

So, there in the above few paragraphs, you have a brief glimpse into the loves and life of the daily routine of a soldier by the name of Phil. (By the way, he just got promoted—but his cigars are all gone.) But what about his "once in a lifetime events." There must be some. Surely! Well, you'd better believe me that there are.

Before I came into the service, I trained to be a teacher. So, after "dodging" the draft, I finally was called into the service. However, my training has helped me to get a good military job and also keep in the teaching. I've been teaching bookkeeping and accounting at the USAFI night school Monday and Thursday nights each week. Of course, the extra money helps, too.

Bcause I didn't have quite enough to do with working and night school I volunteered to take part in a play. What with practicing nights and then the play itself from Monday thru Friday, I was quite a busy person for awhile.

I send my heartiest best wishes for a happy holiday season and, as you pull off that drumstick or finish that last piece of pie, think of me and with that I'll be home next Christmas. Two away from home is enough.

God Bless You and Yours. HAPPY HOLIDAY AND THE MERRIEST CHRISTMAS EVER.

Always, Phil.

We are sorry that we are "cramped" for space in this edition, Phil, as we would like to print your entire letter as the vivid descriptions of Izmir and other places in Turkey are really beautiful and we are sure everyone would enjoy reading about your life there.

TYPING CLASS – RECOGNIZE ANYONE?

Gini Blood—Lasell Junior College

This year has been a busy one, with much accomplishment and fun to look back to and chuckle over. Many of the evenings last February and March were spent in the Boston Garden watching the hockey games. They are great fun and so exciting. I'm a rabid fan.

March 30 four of us took off by car for Washington, Williamsburg, and Jamestown, Virginia. We stayed in Alexandria, Virginia, for a week while we visited places of interest in and around the capital. There were mobs of people down there then, for it was Cherry Blossom Festival. We stayed in a motel outside Williamsburg while we visited there, as well as Jamestown, since it was so close. We were gone ten days altogether. The best thing we liked about the trip was the warm weather—some different from the Boston weather of March and early April.

The Met came to Boston in early April, and I saw "Cavalleria Rusticana" and "Pagliacci," both excellent. As usual, I was so thrilled—can't wait for the opening this coming spring. The Old Vic Company came over from London in late April, and I saw their performance of "Romeo and Juliet." Tremendous!

Then school began. I am back at Lasell for the third year, and have a teaching schedule that includes two classes of Shorthand I, two classes of Intermediate Typing, and one of Business Machines. I am through every day at 2 p. m., which isn't so tough. My students are very nice, as usual, and fun to work with. But the fun comes on Monday night when I dash to Winchester High School for my night school class in Adult Education. I have 25 men and women who are taking Typing I, working like beavers I might add. They love it (and so do I.)

Anita Baird Allen—Class of 1941

Hartland

Dear Swan:

Almost got down with the Hartland girls yesterday but they decided to go on the bus. Did you by any chance recognize my daughter with the team? Probably you didn't but she was there—guard with short fairly straight hair. Slim opposite from her mother and fair skin. I told her you would probably be there and asked her to speak to you for me, but she didn't get up courage and said she didn't have much chance anyway. She's only a freshman, so hasn't had too much chance to play yet, but she's crazy over it as I always was.

Have been in Bangor quite a bit since October but on the run mostly. Elwood broke his leg and spent two weeks at E. M. G. He's still laid up but gets around on his crutches better than I do on my two good legs.

How's the Husson team this year—as good as ever I expect. Well, maybe I'll run into you again this year when I come down shopping. Hope so.

Love,
Nita.

Avis Dinsmore Parsons

Eliot, Maine

Thanks so much for the Husson Ledger. Somehow I feel you are responsible for my name being on the mailing list. I save them for Evelyn Hunt Atkins. She comes down to see me quite often. Incidentally, she expects her second child around December 30th. Hopes for a girl—her boy is about five years old. Our boys are growing to beat the band. Joy is all excited about Santa Claus and all the toys he is going to bring him for Christmas. John already walks by things. They grow up so fast it seems.

* * *

Ray and Pearl (Carruthers) Banks of Liberty have one son and one daughter, Doug and Alana—also a dog, Katy. Had a long gab session in Freeses with "Curly." Looks the same. So does Roy. He'd like the job of driving the girls team again.

Anne Everett, Class of 1956, is coaching the girls team at East Corinth and doing well. She's in the building process and it takes time.

Norman Williams of Franklin left in January to join Uncle Sam.

Natalie Hall Mortenson is teaching in the grades in Rumford. She has two sons, Lee and Joy.

Florida greetings came from Barbara and Donald Higgins, Ris and Emmons Kingsbury, and Mr. and Mrs. L. O. Cummins.

Harriet and Larry Eaton and daughter, Mary Jayne, called at 580 Ohio on their way to Massachusetts for Christmas. Larry has a new job in Presque Isle with a fine raise in salary and a fine future. Harriet has been substituting at Presque Isle High School.

Herbert and Hazel (Day) Ellingwood put their daughters' pictures on their Christmas greetings. The girls are Judy and Ruth—and real pretty.

Phyllis Robertson is now Mrs. Leland Priest and her son's name is Clark. They live in Lincoln.

Diana (Wyman) and husband, David Lutes are back in Maine. Their address is South Lincoln. By this time they have a new addition to the family, a son Kenneth. Diana would enjoy hearing from her classmates.

Dottie Huston is with Central Intelligence Agency in Washington, D. C. Has been promoted and has a terrific job. Says there are "men galore" in Washington—She just loves her work and wants all this year's Senior Secretarials to talk with the CIA representative when he comes to Husson. Good job—good pay—good opportunities. Dottie was home for Christmas and looks fine and dandy.

"Gracie" Stewart is back home and running the Stewart House and doing all the same things again. Her address is 122 Court St. I know she'd like to hear from you.

June Hollis Smith and husband, Ben, have two beautiful children, Don and Lauren. She's as full of it as ever and laughs just as long and hard. She attends Alumnae Sorority and keeps them all in stitches.

Priscilla Ingraham and Jeff spent Christmas with her parents and Jeff was just a-waiting for Santa. Priscilla has had a busy year, but seems to enjoy teaching. This is her second year.

News from Evelyn Webber Norton tells us that Maxine Eustes Sargent has a new baby. This makes two boys. Evelyn has two of her own.

Roger and Gail Howard of Augusta, Class of 1956, have a new daughter, Heidi. Bet she's a beauty.

Speaking of beauties, Mary Fortier Lenentine and husband, Phil, sent out an Xmas greeting with baby Cindy's picture on it. She's a living doll; for that matter, so is Mary.

Marilyn Ryder and Ronald Porter, both Husson grads, have two daughters, Rhonda and Rochelle.

Allan Andrews, formerly of Princeton, wife Georgette, and daughter Brenda are still in Rockville, Connecticut.

Shirley Klimavicz Richard of Madison, a business education instructor, is teaching English at Madison High. She's helping to alleviate the shortage of teachers. Shirl is married to Alec Richard, the football coach.

Janice Gray McDunnah writes from 1007 Ocean Blvd., Long Beach 2, California:

Memphis to Maine to California—I've really been traveling around. Sure is nice out here—some different from Maine. We've been out here since September. Floyd got back from Japan in August. We drove cross country and had a real swell trip.

* * * *

I have a terrific job—Confidential Secretary to the Regional Director of 45 Arthur Murray Studios here in Southern California—only been there a month, but I love it; it's so different and interesting. I started at $75 a week, which is exceptional for Long Beach. Jobs are very scarce. Agencies are just loaded with people seeking jobs.

I had a month's vacation and then went back to school for a month—brushing up on a few things. Long Beach City College—it's for all residents—I thought about going for a B. S. in Secretarial Science—don't know whether it could be arranged. Floyd leaves for Japan again in two weeks. We'll consider it more then.

Remember Leo Smith—he's out here—20 miles from us. It seems that most of Bucksport is.

Janice.

(Continued on Page 8)

ALUMNI

(Continued from Page 7)

Mrs. Elsie Keene, a Husson Summer Session member, writes:

Sorry to be so late with my greetings, but we have had a hectic fall. Paul has been seriously ill since September 25. I finally got him home from the Boston Hospital November 23. He will be at home for several months convalescing. The future looks brighter, but we still have a long ways to go.

I enjoyed my class last summer. I'm not planning any courses for this year. I shall need a vacation. My best to you all.

Elsie

Do hope some of you teachers who know Elsie will drop her a line. It's times like these that friends come in handy. Her address is Box 83, Exeter, New Hampshire.

We here at Husson wish you and your husband good luck for this year, and all those to come!

Frances Sanborn and husband Lloyd Martin of 1118 Washington Street, Gloucester, Massachusetts, put their children's pictures on their Xmas Card. Gordon and Claudia are growing up. Husband, Lloyd is at B. U. and will be graduated in June and will be ordained into the Ministry shortly thereafter.

Arthur and Virginia Derby of South Brewer have a daughter, Charlotte who looks like Ginny and the boy is the image of his Dad. Charlotte is learning to cook at her Grandmother Mitchell's. Ginny is working for the Social Security Commission in its Bangor office. Arthur is still with Sears Roebuck.

Dottie Estabrook Strout's two sons are some lookers. One is dark and one a blond. There are some cute kids—keeps Dottie on the move. Dottie's husband, Jennings, is an Accountant Professor at Maine.

Kay Stevens Crocker has three girls and a boy. Her oldest girl, ten years, is five feet seven inches tall and determined to be a "forward." She has a handsome family.

Barbara Hoar Wheaton of Grand Lake has a daughter, Susan, and a baby son, Christopher. Marion Brown Calligan has two sons. Charles Jr. is in school. Husband, Charles, is the new supervisor of the Salmon rearing pools at the stream.

Shirley Wilson and Wayne Whitney of Kenduskeag have a family of five—three girls and two boys. The two boys are in school, Wayne and Scott. The girls are Cindy, Nancy, and Paula. This is what an invitation to the May Ball did for Shirl and Wayne. Wayne is doing real well. He's an agent for the State Poultry Association and raises chickens by the thousand.

Lynn Blood and Bob Berry of Brewer are living at Parkway North in Brewer. Their son, Brent, is a live wire and likes to phone his friends.

Liz Crouse is now Mrs. Harold Hanson. She had a beautiful wedding. Olive Blodgett was married on the same day by Reverend Charles Dartnell of Brewer to Walter Ballou. Olive will live in Florida and Liz in Michigan.

Dear Miss Swan:

While "the boy" is napping this lazy Sunday afternoon, I thought I would drop you a note.

First, I want to inform you that we transplanted Aroostookians are faring very well. Harriet, Larry, and little Mary Jane are frequently found in the Richards home (we still have our trailer). I often see "Hawsie" at the post office.

Now and then I run into Jerry Castonquay, Hugh Hamlin, and "Oopie" Thompson at interschool affairs. I had a letter from Diana W., she wants to come back to the "county." Everybody here seems well and is doing fine.

Respectfully,
Larry Richards

Hi—

Remember me—the gal who wanted to become a career gal and journeyed to the big city! Well, the career is over (although I'm still working for the Government) and I'm now starting out on a new phase in life—marriage! Yes, I finally did it! My new name—Mrs. Bacil H. Guiley, Jr.—since Monday, 3 March, 12:15 p. m. We were married in a civil ceremony at the Municipal Court Building, Washington, D. C. Isadora Quimby (former roommate-classmate) was my witness and a young man from Base's office was his witness. A couple of people from my office came to the ceremony and another ex-roommate-classmate, (who, by the way, is journeying to Paris to work come summer) Ann Tate, also was there.

After the ceremony, everyone came to *our* apartment (this was formerly my apartment—an efficiency—which I have had since shortly before Christmas) for cake and coffee. I had spent all morning frosting the cake—I made three tiers—one in a pie plate; one in a round cake tin; and the top tier was baked in a sauce pan, the latter didn't come out too well, so we had two tiers. Well, we hadn't been at the apartment too long when about a dozen people from Base's office (he works for American Aviation Publications—in the Art Department—here in Washington) came by, laden with gifts and champagne. So, we really had a surprise reception.

We feel pretty lucky—we have all the necessary appliances and a start on a Revere Ware set, plus all the linens a couple could use. We don't have TV, but we do have a console hi-fi set with over fifty recordings plus an 8-transistor radio.

Our efficiency is furnished but we plan to pick up a couple of odds and ends, such as a bookcase and perhaps a table or two. Base has a nice drawing table which he can work by at night—he draws cartoons in his spare time and hopes someday to become a free lance cartoonist. He hails from Warren, Pennsylvania and I met him at a party back in September for a girl friend, another of my Husson classmates who left for Athens, Greece in October. He spent two years in the Army stationed in this area and discharged last June. He is an avid reader and enjoys science, bookkeeping, and listening to hi-fi. We are very happy and someday plan to journey out West.

Tommy

Kathleen M. Guiley (nee Thompson)

Mrs. Bacil H. Guiley, Jr.
1151 New Jersey Ave., N. W.
Washington 1, D. C., Apt. #5

Dear Miss Swan:

Sure hope you'll excuse the nice typing job I'm doing, am listening with one ear to Jeffery. Wish you could see him, he grows and laughs and is quite a healthy little rascal. He sits up at a play table now and bangs his fists for more attention or more toys, will be five months old the 24th of January. How time slips by.

The proposed salary scale is out up here, but the committees are still working on it. Might encourage your prospectives to know a $300 raise across the board is almost certain here, maybe more. That raises the starting salary to $3600. Also there's a $125 increment every year. Maybe there's hope for us teachers yet. I'm considering teaching next year, but probably there won't be any vacancies here just because I might want to fill one. Would rather stay home and play with Jeffery anyway, but money talks pretty loud.

We see Larry and Harriet Eaton quite often. Their little girl is growing up fast now. Haven't seen them since Christmas. We got a new slide projector and have some slides of Mary-Jane to show them, too. Wish I had a snapshot of Jeffery to send you, but all our pictures are slides.

JOAN

Department of Accounting

LOUIS PETERS completed his requirements for his B.S. Degree in January, 1958. He is currently employed in Bangor. In September, he will enter the University of Michigan to begin work on his Master's degree in Accounting. Lou drives a bus in his spare time. He is married and has one darling daughter. Peters is affiliated with Mu Sigma Chi Fraternity.

THOMAS RYAN, a veteran, and the father of two daughters, will complete his degree in Accounting in June. Tommy is an Education minor and will possibly be tempted to teach at night school. He has received notice of his job with Bakelite Division of Union Carbide Corporation. He has a real challenge ahead of him to work to the top. Tommy is a good man with the figures. Ryan is a member of Kappa Delta Phi Fraternity.

Department of Business Administration

RICHARD DYKE will receive his B.S. Degree in June. Dick is noted for his dramatic ability. Currently he is employed part-time and is saving to get married. Dick is president of the class of 1958 and will give the welcoming address at Commencement. Dyke is a member of Kappa Delta Phi Fraternity.

CHARLES "BUDDY" OLIVER completed his degree requirements in January, 1958. He has gone to New York City where he is employed by Bakelite Division of Union Carbide Corporation at a most substantial salary. Bud is training for a position in the Management Department of the Company. He likes New York and gets home often. His address is 228 West 75th Street, New York 23, New York, Apt. 3. His fellow classmates wish him well and are proud of his achievements.

Department of Education

BERNADETTE DAIGLE, a beautiful French girl from Aroostook County, will complete her work at Easter. She is practice-teaching at Bangor High School under the supervision of Mrs. Janice Burton. Bernadette is a widow and has three children, two girls and a boy. The girls are in school and Dale is four years old. Mrs. Daigle is a transfer to Husson from the St. Joseph College, which she attended previous to her marriage. She has the good fortune to be able to be certified in Business Education and in languages, as she has met the requirements in Latin and French. It is rumored that John Bapst is hoping for her services in a combination position next year. She is affiliated with Pi Rho Zeta Sorority.

CLARENCE "OOPIE" THOMPSON completes his degree work in April. He is currently substituting at Fort Fairfield High School. Clarence has held many offices at Husson in the various activities. He is sorely missed this semester. A letter from Clarence is in the Alumni Column. He is married to a teacher. Mrs. Thompson is teaching at Easton. Clarence is making good now and we just know he will continue to do so. (The bow tie helps!) He is affiliated with Kappa Delta Phi Fraternity and has held the office of President.

Department of Secretarial Science

Medical:

EDNA HARRIMAN is one of two medical secretaries who will be graduated in June. She has struggled with Biology, Pathology, Anatomy, Medical Technics and Medical Shorthand, and feels that the course is very worthwhile. In fact, she has encouraged the Frosh Medical Sec's to stick with it. The effort is great, and the rewards greater. She hopes to be employed in a nice, bright, shiny Doctor's office. Good luck, Edna.

Executive

JOAN LARSON of New Sweden will be graduated as an Executive Secretary in June. A tremendous opportunity lies ahead as Joan will have her choice of Central Intelligence, or the U. S. Navy Department in Washington, D. C., Travelers Insurance in Hartford, or many other opportunities in and out of state. Joan is active in Pi Rho Zeta Sorority and is currently serving as President of the Delta Sigma Delta Chapter.

Junior Secretarial

MARY AMES of Camden is typical of the one-year student. Mary is an A-1 student and stands high in the esteem of her classmates. She is to be married in June and will work in Bangor or the University in Orono. Her husband-to-be is a Maine student. Mary played a very active part in the successful season of the girls' varsity basketball team. Mary has brothers and sisters in college—so one year is all that the budget will stand. She works in a Bangor office part-time to help her folks pay her schooling costs.

V. A.

Costs of emergency treatment of veterans in private hospitals may be paid by Veterans Administration only if the medical care was for service-connected conditions, the agency said today.

Myles P. Cronkite, Officer-in-Charge, Veterans Administration Office, 96 Harlow Street, Bangor, Maine, said the medical emergency must have been such that an attempt to secure admission to a VA hospital would have been hazardous to the veteran.

VA may assume full medical responsibility in such cases only if the emergency treatment is reported to the nearest VA hospital or regional office within 72 hours after admission of the veteran to a private hospital, Cronkite said.

Cronkite said VA cannot pay private hospital bills for veterans who elect to receive treatment in non-VA facilities as a matter of choice rather than of necessity.

A veteran who has paid his private hospital bill for emergency treatment of a service-connected condition may file a claim for reimbursement by VA, Cronkite said.

He said reimbursement claims can be approved only if proof is submitted that the emergency required the veteran to be taken to the nearest private hospital for treatment and would not have permitted his admission to a VA hospital.

* * *

Vital family documents should be preserved because they may be needed to support claims for veterans benefits, Myles P. Cronkite, Officer-in-Charge, Veterans Administration Office, 96 Harlow Street, Bangor, Maine, advised veterans and their dependents today.

Cronkite said the documents include birth or death certificates, marriage or divorce decrees, guardianship or child custody evidence, and military discharge or separation papers.

Types of claims in which the documents may be needed include disability or death compensation or pension and burial benefits Cronkite said.

"Don't throw these valuable documents away or hide them where your family cannot find them in an emergency," Cronkite said. "Preserve them carefully and make sure your family knows where they are at all times."

S. E. A.

Last month the Student Education Association held a raffle of a Husson ring. Each member was responsible for selling the tickets. The raffle was held February 26, and Howard Gray of Southwest Harbor won the ring. This money-making project was a success to the organization.

This semester four of our members are not with us. These members, who are out practice teaching are: Bernedatte Daigle, Sally Walker, Clarence Thompson, and James Sylvester.

We have an old member back with us. He is Johnny Rioux and we are very happy to have him with us again.

As of now, plans are being made to hold a Record Hop after the State Title game. This will be held in the Husson College gym and we hope to see everyone there.

MARY

STUDENT COUNCIL ESTABLISHES LOAN FUND

As one of its major activities of the year, the Husson College Student Council established the Student Loan Fund for the use of Husson students. Its primary objective is to aid the student who wishes to further his education and is in need of financial aid. The association was established under the direction of Robert Theriault as Chairman and several members of the Student Council.

Through this issue of the *Ledger,* we would like to inform the students of the availability of the fund and the policy of it.

Eligibility of the loan:

Shall they be upperclassmen? Yes, the upperclassmen will have preference in acquiring the loan.

Shall they furnish character references? Yes.

Must they show definite need? Yes.

Must they have exhausted all other possible sources of loans? Yes.

Must they make formal application on required form? Yes. These forms may be obtained from the President of the Student Council, Gary Rioux.

What will the maximum amount be that the student may borrow? $150.00.

All students at Husson may apply for this loan. Their application will be brought before the loan board for consideration. No one outside of the board will know of the applicant's desire for a loan.

Additional information about the loan may be obtained from President Gary Rioux or Chairman of the Board, Robert Theriault.

The Student Council is set up to benefit the whole school in some way. They feel that in setting up this loan fund they are benefiting the students at Husson by giving them an opportunity to continue furthering their education.

CHIT CHAT

Spring is here! The top is down on a maroon and white Pontiac convertible. Right, Joanie?

Jane, is your mother still complaining about the blue and white "jet"? Bev, do you know anything about it?

A Picture of Perfect Health, huh, John? U. S. Army and no physical?

Know any good parking places in Brewer, Brucie? How's the blue Ford running?

Have you had your four pounds of steak yet this year, Frank?

Still looking for your Pepsi, Ruth? Is it on the SS Maine or at the Union?

Have you still got your tattoo, Jane?

J. N., what seems to be the sudden interest at the U. of M.—Phi Eta Kappa?

What happened to your last date with W. J., Jake?

Well, E. R., who is the lucky one now?

While the cat is away the mouse will play, huh, Ann?

Dick, how does Bar Harbor look in March?

Which fraternity is the better, Jane and Bev, Phi Eta Kappa or Sigma Nu?

Jeff J., are you having any luck with N. B.?

Used any hair spray lately, Joan or Ruth?

Practice Teaching

Dear Bob:

Well how are you making it Bob? I am having the best time of my life. You just wait until you get out in the teaching game. You are going to like it too. I don't know of anything I have enjoyed more. Boy, am I tired though when I come home at night.

My typing classes are real good. I have 59 students in typing I, out of which I have 29 who have passed a 25-0 since I started two weeks ago. I just finished introducing the modified block letter to them. I will teach the full block this coming week.

The bell just rang so will have to finish this later. Just time enough to say we'll see you soon. School is closing for the rest of the day because of a bad snow storm we are having. Jane says to say "hi" to you. Yippee! Vacation next week.

Your friend always,
Oopie Thompson (Clarence)

Fort Fairfield

Dear Miss Swan:

I thought I'd drop you a line this evening. Everything is going along fine. I'm still doing all the teaching as Mrs. Johnson is on crutches and it is difficult for her to get around, she also gets tired easily. She's really wonderful to me and helps me so much. The students are very cooperative here on the whole, and the school administration is well handled. My shorthand II class is doing well. I have five students getting 100 mailables.

It is rather expensive to live in Kittery, but I'm managing to save some.

Tell Miss Bradford I really enjoy teaching shorthand.

Was pleased to see Caribou win the Eastern "L" title. I believe they can beat South Portland.

I hope Husson can regain the State Small College Championship this year. Tell Mr. Husson I'm getting along well.

As ever,
Jim Sylvester

Traip Academy, Kittery

If a cluttered desk is a sign of a cluttered mind, we can't help wonder what an empty desk indicates.

The children were in the midst of a free-for-all when father unexpectedly entered the room. "Tommy, who started this?" he asked. "Well," replied Tommy, "it all started when Albert hit me back."

Dramatics

"Personal Column", the first presentation of the current year by the Dramatic Club was presented at an assembly in Commerce Hall February, 1958.

The one act play under the direction of Richard Norton, included the following in the cast:

Robert Sherman, Unity; Dana Dow, Mapleton; Jane Feeney, Bangor; Joanne Nickerson, Hampden; Janice Frazier, Presque Isle; and Conrad Martin, Bangor. The stage managers were Norbert Poulin and Richard Hersey.

"Personal Column", packed with humor, depicts the experiences of a bachelor who gets a friend to interview women applicants following his advertisement for a wife.

The antics of the advertiser acting as butler, add to the fast-moving interviews.

There was a burglar who decided to get his eyes tested for glasses. It seems that when he started twisting the knobs of a safe one night a jazz band started playing.

Roving Reporter

Have you met Margaret Castonguay? If not, now is the time.

Miss Castonguay went to Piqua Catholic High School in Piqua, Ohio. There she was enrolled in the general course.

Like all of us, in high school she was very active. Her activities included: cheerleading, glee club, intramural basketball and volleyball, and the yearbook staff.

We must be very impressive here at Husson, because while visiting relatives here Margaret learned of our existence and with only a few visits decided to join us.

At the present time she is enrolled in the typing clerical course here, and speaks very favorably of it.

Among the hobbies of our Ohio friend are sports and cooking.

When speaking of Maine she says, "It is just about the same as home except for the cold weather." The people appear much taller here, too.

Our only sorrow comes with the knowledge that she plans to return to Ohio after graduation and work with a big concern there. Since she will be leaving in June, how about making it a point to meet her. You'll be glad you did.

HUSSON HUMMERS

"Hey! Hey! Good Looking," "Have You Heard?" Two days from "Blue Monday" (March 26th) is "The Answer to a Teenage Prayer."

"Are You Sincere?" said "Swanie" to that "Old Gang of Mine" (Sorority, Glee Club, and Basketball Girls) "Don't Be Cruel," "Houndogs," "It's a Sin to Tell a Lie."

We answered, "I'll Walk the Line" "Forever and Ever" to "Get a Job."

We got together "Behind the Greendoor" and came up with the "Birth of the Blues." "Maybe Baby," "We'll Have the Whole World in Our Hands."

Don't miss this show called Dreamland. "Get Happy," "Everyone's Gon-a Have a Wonderful Time Up There." "Get Happy." The "Chattanooga Shoe Shine Boy" will polish your "Blue Suede Shoes." You're not "Too Young" for a "White Sports Coat and a Pink Carnation." Use a little "Friendly Persuasion" on your "Party Doll" or "Teenage Queen." Hop into your "Banana Boat," "Pink Cadillac," or "Caravan."

Well, then, "By the Light of the Silvery Moon," "Walking Your Baby Back Home" to "Blueberry Hill." "Memories Are Made of This."

"Ye All Come!"

Delta Sigma Delta — Formal Initiation

The Delta Sigma Delta Sorority held its first regular meeting February 6, 1958. Its sponsors are Miss Janet L. Kinney and Miss Patricia A. Robbins. The Sorority has 16 members this year.

Some of the planned events for the coming year are the Boston Trip, the Talent Show, and the Mother-Daughter-Father Banquet. These events are sponsored by both the Delta Sigma Delta and Epsilon Tau Epsilon Sororities.

The Boston Trip over Washington's Birthday weekend was a fun-filled trip. Sleep was an unheard of thing for two or three days! Some of the highlights of the trip were Cinerama and the Ice Follies. Many of the girls took advantage of the Washington's Birthday sales. Oh, to have had the time and money to buy more! Many of the girls found Chinatown a fascinating place. It was fun trying to read the Chinese newspaper that was floating around Room 132.

Parties seemed to be the "thing" on the Trip. The girls in 427 held a pajama party on the final night there. Window ledges can be used for strange things, can't they, girls?

On the following Monday, the girls who had gone on the trip could be identified by their husky voices. Of course, some didn't make it back to school that day!

The Talent Show will be held March 26 with members of the two sororities and the girls' basketball team participating. Practice for this Show has been in progress for a couple of weeks.

Plans are being made now for the Mother-Daughter-Father Banquet that is to be held April 4. This is a special event of the year's activities.

TO BOSTON

The girls of ETE Chapter of Pi Rho Zeta International, along with the DSD Chapter and the basketball girls hopped a chartered bus for Boston on February 20, 1958. What wonderful memories for years to come! Much toe-tapping music was to be heard all the way to Boston, except for a brief stop at McNamara's Restaurant in Winthrop.

After getting settled at the Touraine Hotel Thursday night, much activity was to be had for the next two days! And it was! Everything from great movies, to plays, to eating at the various restaurants that night was the center of excitement. Sleep was the unheard of thing in Boston.

Friday, Chinatown, with all its varied "interests," and its stores, people, and the Good Earth Restaurant, famous plays, Durgin Park for steak, and the Smorgasbord, and finally Cinerama with "Search for Paradise" (quite an experience around the world) and then, of course, more eating after all this excitement. What "took the cake" was the party in which the Sec girls invited everybody. Teachers and students alike enjoyed much the Pajama Party which lasted most of the "early morning."

Saturday, more shopping, eating at the Touraine Grill, Chinatown, Prince Spaghetti House, and taking off for the North Station at 3:00 p. m. to wind up the trip except for the Ice Follies (which was beautiful in color and terrific acts) and a final stop at Vallee's Steak House on the turnpike.

It really was a wonderful time had by all, even though some of us were sick for a couple of days afterwards. (Maybe some of it was caused from "lack of eating"? or maybe those pipes that were floating around the rooms didn't help much.) Anyway, it all added to a wonderful trip for everyone and it will long be remembered by those attending.

MU SIGMA CHI

Now read this! Now read this! Following Christmas vacation, Mu Sigma Chi elected the following officers.

President, Arthur Everett; Vice-President, Robert Perkins; Secretary, George Lausier; Assistant Secretary, Steven Bennett; Treasurer, George Dyer; Parlimentarian, John Geagan; Sergeant-at-Arms, Thomas Welch; Chaplain, Malcolm Kitchen; Student Council Representative, George Halpin; Public Relations, Robert Tilden.

These new officers are enjoying the same success as their predecessors. Congratulations.

Outward appearances seem to indicate that these men either like to eat or cook. February 13, at the Orrington Grange Hall they presented a menu of beans, franks, salad, and rolls. Again on March 8, the Orrington Grange Hall was the scene of a spaghetti feed. This time outside guests also enjoyed the food and festivities.

Do you like good entertainment? Of course you do, and here is an opportunity that you can not allow to slip by. April 23, Mu Sigma Chi will present a Minstrel Show in Commerce Hall which will undoubtedly be termed the most sensational in years.

The show will be comprised of a choral group, a professional pianist, John Gass, 10-15 specialty acts, the traditional endmen and Arthur Everett as Interlocutor. After the show there will be a dance and chance to meet these "show people". Can you imagine all of this for only 75 cents per person or $1.25 a couple.

Most of the members are looking forward with anxiety to the annual "Frat Trip" in the spring. It looks like Quebec again. Remember last year???

EPSILON TAU EPSILON

Now that the excitement of the annual Boston trip has died down somewhat, the Epsilon Tau Epsilon and Delta Sigma Delta Chapters of Pi Rho Zeta are concentrating on their March 26 affair. This is a show to be called "Dreamland" and comes complete with chorus and many, many specialty acts. Under the able direction of Miss Bradford and Mr. Cupp, the chorus gives forth with an exciting rendition of "Ma, He's Making Eyes at Me!" and dreamy versions of "Girl of My Dreams" and "Diane" to mention only a very few.

Formulating details of the show are a committee made up of Rosalie Green, Marjorie Cummings, Charlotte Turner, Cary Murphy, Bev Govone and members of Delta Sigma Delta. Darthea Hubbard and Elaine Roundy are in charge of making tickets, and Bernadette Daigle and Judy Murphy compose the selling committee.

At a recent meeting of ETE, plans for the Mother-Father-Daughter Banquet were discussed. The banquet will be held on April 4, at a place decided by the committee, Ida Boylan and Janice Moody. Place cards for the annual banquet will be made by Adrienne Strout and Farolyn Wilson and the reservations and invitations will be handled by Janice Day, Nancy Robbins, and Elaine Roundy. Joanne Philbrick and Nancy Wells are responsible for procuring a guest speaker.

Members may invite mothers and/or fathers. Married members may also bring their husbands if they wish.

A sale of *Reader's Digest* subscriptions and address stickers will begin intensely after the Sorority Show has been presented on March 26.

MRS. ADA WOODMAN SERVES THE PUNCH

Hostess: "Our dog is just like one of the family."

Bored visitor: "Which one?"

The old fashion girl blushed when she was embarrassed, but the modern girl is embarrassed when she blushes.

The thing that goes the farthest,
In making life worth while
That costs the least, and does the most.
Is just a pleasant smile.
