THE SPECTATOR

Focused On Husson And Its People

VOLUME XVI | OCTOBER 13, 1981 | ISSUE 1

Milligan Appointed Judicial Advisor

Filling in a new job bank position is Kevin P. Milligan, recently appointed as judicial advisor. "This position was created because we felt the people appearing before the Undergraduate Judicial Board could be better prepared," states Terri M. Hutchinson, Associate Dean for Student Affairs. The position is part of the College Judicial System, but not one which carries decision making responsibilities. Kevin's responsibilities are to make sure people understand why they are appearing before the board, what's going to happen to them, and to provide support.

"The position was established to provide service and support to the student involved and in infractions of the College's Conduct Code. "Confidentiality is a necessary component of being able to do that well", further states Ms. Hutchinson. Students approaching Kevin for assistance can be assured that he will maintain confidentiality.

Kevin is an advisor, not a lawyer, thus he will be supplying suggestions and information to the students, not actually representing them.

Kevin's qualifications for this position include: A. He was the Judicial Board Chairman for the 1980-81 academic year, which makes him aware of hearing procedures because he was responsible for enacting such procedures.

B. He is well versed in policies of the institution.

C. He has had personal encounters with the Judicial System, he knows how an accused student would feel and having been one, can empathize.

D. He played a role in suggesting revisions in the College's Community Code and Judicial System.

New Judicial Advisor, Kevin Milligan

Alumni Honored

Clara L. Swan, affiliated with Husson College for over 30 years, received a special recognition award from the Husson Alumni Association at Homecoming festivities on October 3.

Swan graduated from the Bangor Maine School of Commerce, the forerunner of Husson, in 1933. She joined the staff in 1939 as a teacher and coach and retired in 1973 as Academic Vice President.

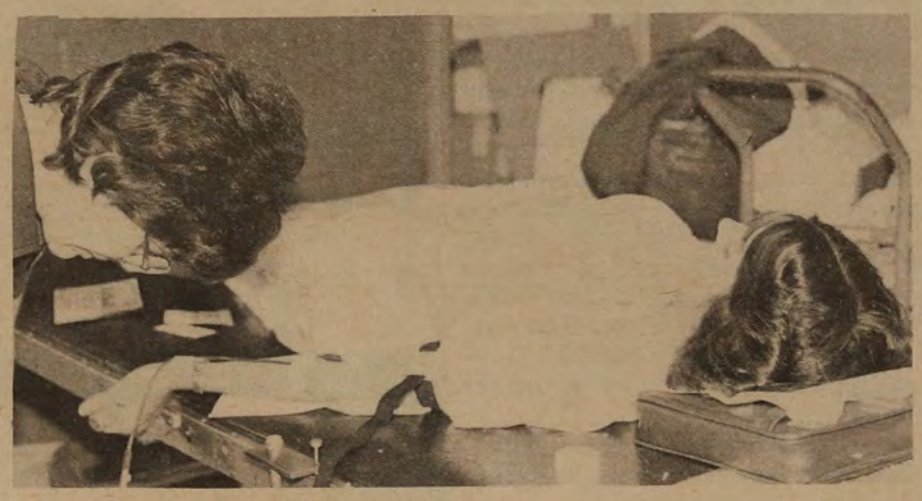

Other alumni honored were Ralph Bickford, graduate of 1956, as Outstanding Alumnus. Bickford is a business and distributive education consultant for the Maine Department of Education and Cultural Services.

Janet Kinney, class of 1954, received an award recognizing her service to the College. She is currently the head of the Office Administration Department.

The Alumni Association also presented four Honorary Alumnus Awards to individuals involved in the Husson areas of specialization. Recipients include state legislator Nathaniel Crowley, athletics; Dead River Company vice president John Cox, accounting; Morse High School business teacher Arthur McEntee, business teacher education; and freelance court reporter Preston Rand, office administration.

The approximately 100 graduates assembled heard from Husson President Delmont N. Merrill, who reviewed recent changes at the Bangor college. Merrill commented on several new ventures of the College, charging that Husson will never change from our "prime purpose of offering sound, business education."

Merrill also encouraged alumni to become more involved with the College, saying that "the support of an alumni association is an integral part of the future growth of Husson College."

Blood Drive Co-sponsored by KΛ and TEΦ

Co-op Enrollment Up

More Husson College students are electing to take cooperative education work experience courses than ever before.

According to figures released Thursday, 92 students enrolled in Co-op courses in 1980-1981 compared to 65 in 1979-1980, an increase of 41 percent. Cooperative Education allows students to work in jobs related to their academic majors.

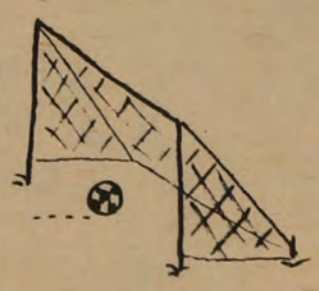

Robert Thomas, director of Co-op at Husson, says that job development efforts over the past year are responsible for a large part of the increase. Thomas also credits greater faculty involvement for the program's success.

Approximately 70 percent of the Husson Co-op students are in the Business Administration Department, although accounting students are coming into greater demand with cooperative employers, particularly during the spring tax season.

Thomas also says 25 percent of the positions were outside the Bangor area; a trend that he expects to use in the future as more students turn to Co-op for employment in their hometowns.

EDITORIAL

What are the responsibilities of a newspaper editor? To write or not to write? Not to write! Why should the editor write 60 - 80% of all the articles? The Husson College Spectator is a student newspaper, for the students and by the students. It will be just what you make it, and you should have a chance to express your feelings and interests to others. What better way than through a paper with a circulation of 1000 copies. Now is the time to get involved. Help this be a successful year, both for you and the Spectator.

OPINIONS

IT'S GREAT TO BE GREEK

by Liz Russell

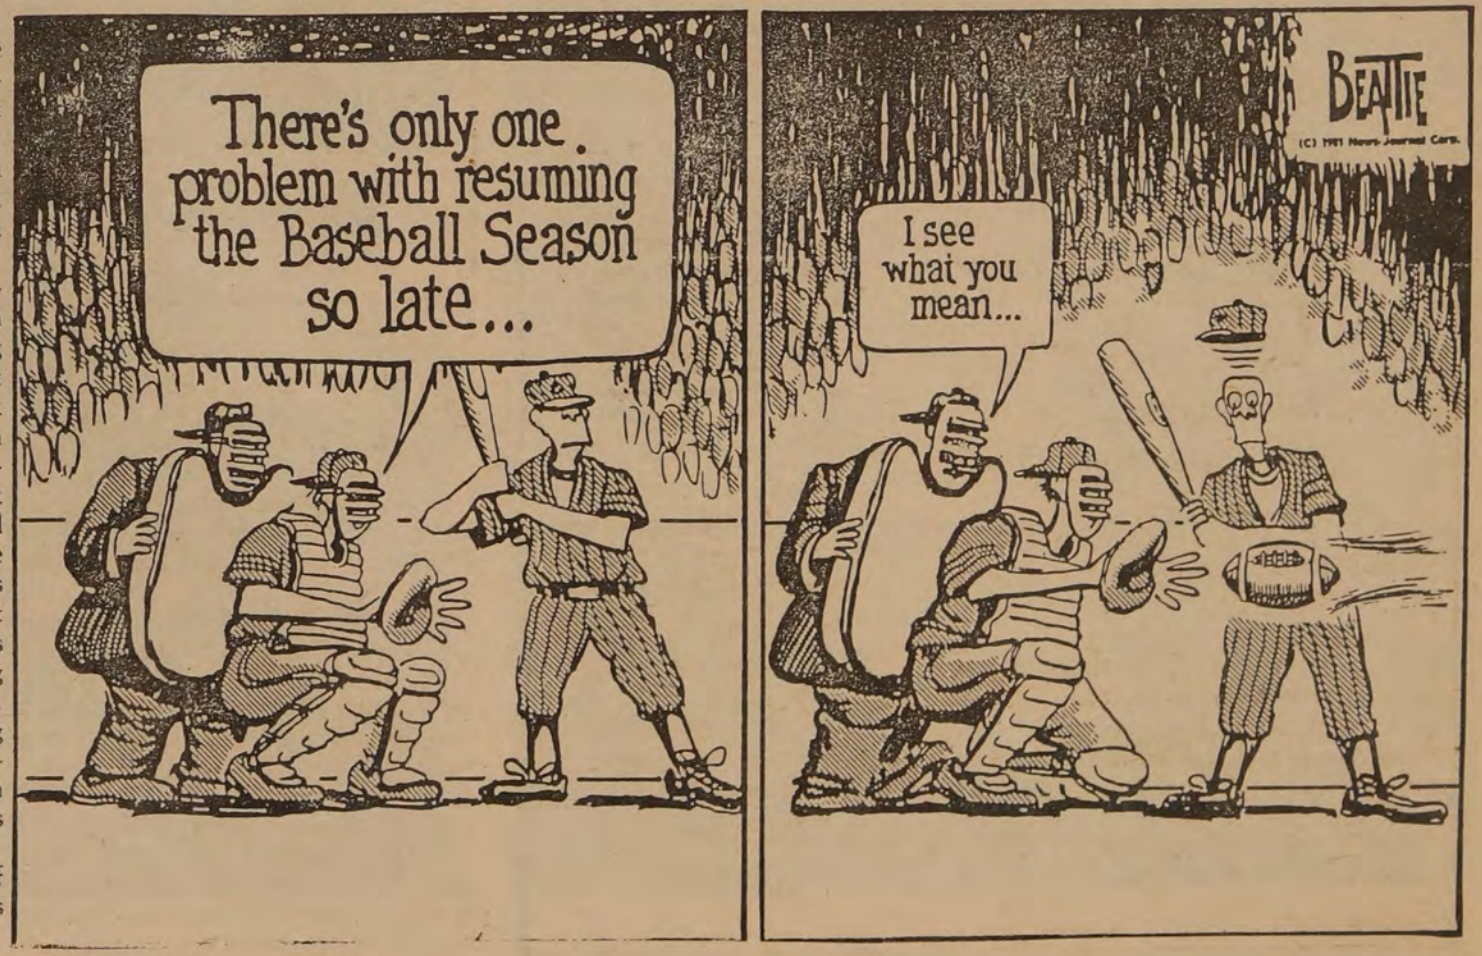

Greeks - has anyone ever considered what Husson College would be like if there were no sororities or fraternities on campus? Greeks are the driving force of this school. In every major extracurricular function of Husson there is a sister or brother of a sorority or fraternity in the middle of the action working beside independents and other Greeks accomplishing the job put before him. Has anyone ever thought about who is the leading force in such functions as the Student Senate, Spectator or Social Committee? How about Presidential Guides, Athletics and Chief Week? And what about tutors, Resident Assistants (and not just on Greek floors), and the Yearbook. Despite what some independents say, we (Greeks) do care about our fellow collegians, and we do work for the improvement of our College Community. And, of course, we care a great deal about our sorority or fraternity, whether it be Kappa Lambda, Kappa Delta Phi, Tau Kappa Epsilon, Mu Sigma Chi, Epsilon Tau Epsilon, Delta Sigma Delta or Tau Epsilon Phi.

I am not saying that Greeks are better than non-Greeks (I too, was an independent once), but I am saying that we are concerned enough about this college to take PRIDE in the work we do. Greek organizations are an incentive to some students on this college. The process of becoming a Greek requires committment, dedication, and sacrifice - three virtues that people rarely exercise. The love and emotions gained can not be expressed - only felt by those who work to become sisters or brothers. We're not promoting Greek supremecy over independence, but we have accomplished something that requires a great deal from ourselves. If you ask any Greek on campus, I'm sure they'd all say "It's Great to be Greek."

Editor's Note: This is the opinion of Liz Russell and by no means expresses the opinion of the **Spectator.**

Are you beginning to slip behind in your classes? Does it seem that you don't have enough time to get all your work done and still prepare for tomorrow's test? If so, the Peer Tutor Program can help. Peer tutors want what you want--to help you achieve good grades and get the most out of your classes.

Peer Tutors are upperclass students who are selected for their demonstrated knowledge in the tutored subject and their interest in helping students. All tutors receive ongoing training and supervision. They are an important campus resource and can refer to you whatever service you need.

Twenty-two program and work-study tutors have been hired this year by SS/SE staff. Tutors are available in areas of accounting, math, reading, data and English. If you are are having difficulty with classes, taking notes, or just organizing study time, you may want to see a peer tutor. Tutors can be contacted by simply looking at the schedule below. Locate the subject area on the schedule and stop by the workroom (Peabody 222) at the time indicated. Additional help is available by appointment from Special Services staff, Sue Rodrigue (Writing Specialist), Mary Bunker (Reading Specialist), and Louise Regan and Eleanor Horner (Academic Advising). All meetings with peer tutors and staff are strictly confidential.

This is a free service available to all Husson students. Stop by the workroom anytime, or contact Barbara Peppey, room 101, with questions about the Peer Tutor Program.

Continental Coiffures

Hairstyling for Both Men and Women

Today's competitive world demands that you look your best. Whether it be preparation for that all important interview, or a date with that special guy or gal - you want to look sharp

Continental Coiffures has the expertise to help you look your best. They offer the most up-to-date techniques in today's hairstyling for men and women. You need an edge over the competition in today's world. Let Continental Coiffures give you that edge.

Tuesday through Saturday call Amber for that special edge at **945-9304**

Continental Coiffures is located at 108 State Street in Bangor.

LOAN DEFAULT TOTALS CLIMB

Washington, D.C. (CH)

Even as current student decry federal aid cuts, their predecessors continue to default on student loans issued in past years.

The latest Education Department figures show the default rate on National Direct Student Loans rose slightly in 1979-80 to 16.19%. The Guaranteed Student Loan rate was a much lower 5.9%, but the amount of outstanding GLS debts skyrocketed because of tremendous growth in that program.

Some 1 million students were in default on more than $828 million in 1980 NDSLs, say ED officials. This means there were 205,087 new defaulters that year.

GSL defaults totaled $226 million in fiscal 1980, and department officials estimate that figure will rise to $342 million in 1981, even though the default rate remains the same.

Loan defaults increase the cost of the federally guaranteed and direct loan programs and do little to discourage cuts in those areas, say loan officials.

MICHIGAN STATE SUED BY EX-STUDENT

(Campus Digest News Service)

Michigan State University and two of its police officers have been sued for $1 million by a former woman student for allegedly strip searching her in 1979.

Bonnie Kelbert said she was stripped and searched by a female police officer at the university police station but the doors to the room were left open. She had been arrested in connection with a traffic ticket.

A university police official says the incident never occurred.

Kelbert claimed the experienced upset her so much she spent the next day in the hospital. She later dropped out of the university.

GREEK NEWS

The Greek Community and the Order of Diana (a non-Greek) organization affiliated with Tau Kappa Epsilon), would like to take this opportunity to welcome the freshmen and new students to Husson College and wish them the best of luck during the coming year. We would also like to welcome the upperclassmen back: we're glad to see you all.

Our goal for the year is to build a better Husson Community through the Greeks working together.

One way we plan to do this is by sponsoring parties and coffeehouses in order to bring the members of the Husson Community closer together.

The Greek Community does many public service functions. By performing these functions we will build the community/college relations.

Greeks are very non-apathetic. We feel that college offers more than strictly an intellectual education; it also offers a social education. By being involved in all walks of Husson life we are able to work with the college to help improve it.

Each organization is proud of it's heritage and welcome visitors to their floors. The Greek Community invites you to get to know us both as an individual organization and as a whole.

Sheila Salsbury
President
Interfraternal and
Sororital Council

The Greek Community

ETE

by Lyn Fournier

The sisters of Epsilon Tau Epsilon welcome all the new students and the returning upperclassmen. We are looking forward to a very productive year within our sorority and the Husson Community. So far this year we have sponsored a floor party, which was enjoyed by all sisters and new sisters on the floor. Also, we have co-sponsored a sorority party with Delta Sigma Delta and Kappa Lambda sororities.

For Halloween we are planning to go to St. Joseph's Hospital to visit with all the patients.

We are currently having a raffle, the prize is a choice of dinner for two at Miller's or $25 cash. Raffle tickets are available from any ETE sister. The drawing will be held on October 17.

KAPPA LAMBDA

by Liz Russell

Kappa Lambda sorority, with a membership of 25 active sisters, welcomes our fellow collegians to Husson for what will hopefully be a great year. Kappa Lambda is a national affiliated sorority of Kappa Delta Phi and prides itself as a philanthropic and educational organization.

Goodwill projects are an integral part of KA sorority. On Tuesday, October 6, we co-sponsored a blood drive with TEΦ fraternity. We are planning a swim-a-thon for October 24 to benefit the Maine Special Olympics and we will be conducting a campaign for UNICEF during Halloween.

Our find-raising activities have included the selling of plastic containers, a money raffle and carwashes. We will be selling Tom Watt products starting this week. On the social scene, we've held happy hours with our KDP Brothers and a sorority party with ETE & DSD. We are now planning a BYOB party for the Husson Community to be held on October 16 and watch out for December when MISTLETOE MADNESS strikes! Everyone is welcome to come up on our wing and meet the sisters. We hope to see you all soon.

MEX

by Scott Collins

Welcome back, brothers of Mu Sigma Chi, sisters of Delta Sigma Delta and Epsilon Tau Epsilon. We would also like to welcome back all returning students and extend a warm greeting to all freshmen. The brothers extend an open invitation to anyone who would like to meet and chat with them.

Intramural football is just about over. Many participants are anxiously awaiting the closing of the sport so that all their wounds can heal.

The brothers are training for the upcoming Greek Games. All Greeks should participate so that the student body can see Greeks at their best.

We hope all students and their parents had a good and memorable time this past weekend.

Good luck on a new school year. Get involved in some of the activities on campus, for you will benefit as well as the organization.

Order of Diana

The Order of Diana would like to take this opportunity to welcome all the new students to Husson College. We're sure you'll have a very successful year, and we hope to see everyone at our upcoming events.

TEΦ

by Tom LaFlamme

We, the brothers of Tau Epsilon Phi would like to welcome everyone up to 5th level Hart. We are in a rebuilding year, but that doesn't stop us from being a strong service fraternity. Our first blood drive of the year was October 6th with Kappa Lambda. For those of you who were unable to donate this time around, you will have another chance this winter. Other service projects we perform are collecting money for retarded children and Muscular Dystrophy. Our efforts don't seem like work since we enjoy helping out the needy.

So come on by to check us out on 5th level where there is never a dull moment. We're sure you'll have a good time.

TAU KAPPA EPSILON

The Brothers of Tau Kappa Epsilon would like to welcome everyone back and hope your summer was enjoyable. We would especially like to welcome the many new freshmen who have chosen Husson College as the place to continue their education and wish each of you the very best of luck in anything you may do in 1981-82. We also encourage each of you to become involved in as many activities and functions as you can.

The brothers have been busy working on fund raiser and social service projects to raise money for a new stereo system for our lounge and also had a bottle drive raising $100 for our charity -- St. Jude's Children's Research Hospital. We also have a raffle going for a Budweiser Beer light. The drawing for that will be Thursday, October 8. Some of our money has gone to build new benches in the lounge. They will be finished in about a week and we invite everyone up for a look. Our hall has been repainted and soon the ceiling will be finished.

We will take this opportunity to invite the many old as well as the new faces to our lounge and floor for a visit. For those of you that don't know, we are located on the 9th floor of Hart Dorm.

Stop by for a chat -- we look forward on seeing each of you soon!!

DELTA SIGMA DELTA

by Joan Azzinaro

We hope each and everyone of you had an exciting but restful summer vacation, and have gotten off to a good start this semester.

The sisters have been busy making renovations in the lounge, hallway, and back foyer. To name a few things, new additions in our lounge, putting final touches on back foyer and decorating our telephone booth.

We've had two car washes. One was at Bangor Automotive on September 26, and the other was at Westgate Texaco on October 3.

We also sponsored a Rollerskating Night (Monday, Sept. 28) at the Skate Scene. The Sisters would like to thank everyone for supporting us and hope you had an enjoyable evening.

Look for upcoming events sponsored by Delta Sigma Delta. There's many more exciting and inviting events to come.

The floor is always open for visitors so feel free to stop by and meet us.

Best Wishes from The Sisters of Delta Sigma Delta.

P.S. Thank you, Epsilon Tau Epsilon, and Kappa Lambda for a smashing time Friday Night at the sorority party.

GREEK WEEKEND

by Sheila Salsbury

The Greek community would like to invite the Husson students, faculty, administration, and staff to attend our Greek weekend activities.

Friday afternoon, October 16, at 4 p.m., there will be an all Greek softball game. Each team will consist of members from all Greek organizations.

Saturday, October 17, we will hold our Greek games at 1 p.m. The Greek games consist of track and field events.

We would truly like to see everyone there, so come on out and join in the fun.

SORORITY PARTY

by Sheila Salsbury

Epsilon Tau Epsilon and Kappa Lambda, co-sponsored a sorority party Friday, October 2nd. The purpose of the party was to strengthen the relations between the three sororities, Delta Sigma Delta, Epsilon Tau Epsilon, and Kappa Lambda.

The party was a huge success. We all thoroughly enjoyed the opportunity to get to know each other better. Some friendships were strengthened, while others were started. These sororities are looking forward to having more social events together.

"The Sin of Ommission"

Distortions of TV News

Ford Rowan

Most times, its important to see both sides of an issue. You can be misled by a headline that tells only half a story. And when only one part gets to tell its side, the public gets a very slanted view of reality. That's how FORD ROWAN feels about journalism. And he quit a rewarding and prestigious job with NBC News to prove that point.

The story began in November of 1979 with the taking of the 50 American hostages in Iran. It was the biggest story since Three Mile Island. And since ROWAN was the Pentagon Correspondent for NBC, he had a part in how the story would be told.

ROWAN, a lawyer and author, is also a reporter who believes in total accuracy and objectivity. He felt that NBC's prime time program on the Iranian crisis on December of 1979 violated the codes of responsible journalism. The program featured a statement from one of the Iranian "students" and an interview with one of the American hostages. ROWAN felt it told only the terrorists' side, and that by agreeing to air the Iranian statement in its entirety, NBC not only forfeited its editorial control, it provided a "prime time propaganda platform for terrorists."

ROWAN quit NBC and accused the network of "irresponsible journalism." Because the network failed to present a balanced program, omitting any interview with US government officials.

But FORD ROWAN isn't the kind of man to give up and go away. You don't become Pentagon correspondent by being a quitter. Following his resignation from NBC, he became a visiting professor at Northwestern's Medill School of Journalism, "trying to share (his) eleven years experience covering politics and policy in Washington with aspiring young reporters."

In the past, ROWAN was White House Correspondent for WTOP-TV (Washington), Urban Affairs reporter for WRC-TV (Washington), Capitol Hill correspondent for TVN (syndicated broadcast service), and reporter/anchorman at WDSU-TV (New Orleans). He also covered Watergate and the investigations of the CIA & FBI for NBC News.

A graduate of Tulane University with a Masters from American University, ROWAN also holds a law degree from Georgetown University Law Center. He is a member of the Maryland Bar Association and author of a book about electronic surveillance entitled, **Technospies.**

Sometimes American TV news feels it's necessary to shock the audience into recognizing the impact of political events. In doing this, however, they may stack the facts on one side only and neglect the potential truths on the other. FORD ROWAN has the intelligence to recognize that this is not journalism — that there's good reporting and bad — and he has the integrity to know the difference.

NATIONALS — HERE WE COME!

The Husson College Soccer Team, with its five veterans and fifteen new members, is off to a great start. Coach Dave Pelton stated in a recent interview, "we have some very talented and enthusiastic players. We have the potential to become a very good soccer team; only time will tell how good."

The Braves are smaller, quicker and stronger than they were a year ago, and the Freshmen players are contributing much to this year's team. Captain Rogerio Correia informs us that "the substitutes are as good as the starters." "Plenty of depth," says Captain Steve Plourde, "we can put in anyone and it doesn't hurt us."

In Pelton's estimation, "there's not a better goal keeper in the district than Freshman Tony DeMello. He is equal in talent to Senior Kyle Dietrich, an all American goalie from Keene State."

The team will not face any competition tougher than what they met at Keene. Their goal is to reach the Nationals and they feel that with the abundance of talent and a "little luck" they will make it. They are presently undefeated in their district. Best of luck Braves, with the remainder of your schedule!

The 1981-82 Husson College Braves
