The Husson Ledger

SPRING 1989 Editor: Karen Gordon

Twin Champs of NAIA District 5

The 1988/89 basketball season is over for the Husson Braves, but it will long be remembered as a season of excitement and triumph for the men's and women's teams.

First year coach Laurie Gott guided her team to a 26-2 season and the NAIA District 5 Championship, the first ever for the Husson women's team. Her efforts were recognized and appreciated by her peers and she was named District 5 Coach of the Year. The Lady Braves recorded their first ever 20-victory season under Laurie's direction. In addition to their 13th place national ranking, the Husson

Looking To The Future

"A hidden gem," is what Husson College Board of Trustee's Vice Chairman, W. Tom Sawyer, refers to when speaking of this small upward bound college. Sawyer, who was elected Vice Chair at the annual fall meeting, is anxious to begin working with Husson personnel. "It is an opportunity that came along and I couldn't refuse," says Sawyer.

While Sawyer enters his second year with Husson, Dr. Constance Carlson, recently elected as Chairperson for the Board, continues a long commitment to the College. Carlson, a member of the Board since 1980, has certainly seen many changes and much growth for Husson. She contends that Husson will continue to grow in years to come.

Carlson says Husson is "finding itself" under the direction of President William Beardsley. "I have had the opportunity to sit back and look at the overall picture and I like what I see, it's refreshing," says Carlson.

Carlson and Sawyer are a new match heading up the 30-member Board. With one having an extensive educational background and the other a prominent business leader, the combination promises a progressive future for Husson.

Progress is on the minds of both Carlson and Sawyer. For Carlson, she plans for Husson to take a geographical stand with its educational offerings and for Sawyer, he sees Husson becoming more financially independent. Their goals do not stop here.

"I'd like to see the faculty handbook clearer and up-to-date," says Carlson. "It's outdated in terms of Husson's increasing diversity and lacks focus on excellence." Carlson feels liberal arts will play an important role in the future of Husson. "We need to be flexible for that business student with some artistic abilities. Husson needs to offer a broad perspective in education just as life does. There is also the need to develop creatively and become well known throughout the eastern United States and overseas," says Carlson. She contends that Bangor, Maine is an ideal location, especially for our neighbors in the east. It is this confidence Carlson brings

Constance Carlson and W. Tom Sawyer plan for Husson's future.

to the Board. She says, "Now is the time to market Husson College."

"I'd like to see a relationship develop using our business and health curriculum on an international front," says Carlson. "We already have a healthy population of international students and those students bring a flavor to campus life that needs to grow."

When Husson graduates are mentioned to Carlson, she says, "If you look over the list of our graduates and the leadership roles they now play in our society, you will see why we should not hesitate to put ourselves in a leadership position. It is time for Husson to recognize its quality and develop a sense of pride for the graduates it produces."

While Husson prepares for a journey across the sea, Carlson says now is also the time to develop an "ethical component" to the college programs. "It's a simple method of teaching our students a sense of responsibility, especially in the business and health professions." Carlson is also looking for more cultural and recreational activities to be offered to students at Husson.

Carlson supports the sports programs as an integral part of student life, especially for young women. "In the past, women never learned how to compete. Our changing society dictates they now learn how to compete and how not to take failure as something definite, but rather use it as a learning experience."

When asked for specific changes that are now taking place at Husson, Carlson says; "Most recently I have seen an administrative energy which we need to keep alive and strong."

While Carlson speaks of marketing Husson, her colleague, Tom Sawyer is anxious to see Husson become financially independent. "The College has had some rough times, but there is light at the end of the tunnel," says Sawyer. With greater alumni involvement and steady growth in the endowment, Sawyer is confident Husson will continue to grow financially.

"I'm expecting a number of things to happen in the near future. It is the hope of many that within the next four years the Job Corps program will be relocated. Beautification of the campus, inside and out, is another priority. Plans are now underway to make both of these a reality."

Sawyer believes Husson has a great deal to offer, and once marketed, enrollment will increase as will alumni recognition and involvement. "The College will truly grow into its own," he says. Sawyer refers to many Husson students as being from rural Maine and not yet aware of their abilities and potential. "The College can change all this and attract more students by recognizing what it has to offer and informing the public."

Sawyer, a well known business leader in Maine, says he is pleased with the Husson graduates he has met. "Several have crossed my path and I must admit they are impressive individuals. Our goal, as Trustees, is to reinforce what Husson offers." Sawyer speaks of Husson's placement rate as one of the strongest assets of the College. Students working with the Career Development and Placement Office, faculty, and recruitors find themselves in "mighty fine jobs." "Where else can you go and learn from a group of people who are in the profession themselves and offer such a practical education?" asks Sawyer. With this type of program in place and available to Husson students, Sawyer says the Trustees should take a look at the needs of the faculty as well as those of the students. "The salary scale needs attention. Some decisions have to be made; either a salary increase or an increase in support staff."

Along this line, Sawyer wants to see the faculty take an active role in decisions made by the Board. "I like to get those affected by our decisions involved before the fact. It's a chance to keep an open line of communication," says Sawyer. He supports a healthy debate to "get the blood warm." "Our Trustees are intelligent people with impressive backgrounds. It's only fair that everyone benefits from their ideas." Sawyer goes on to say this board will not engage in any "rubber stamping," saying they all have too much to offer.

Alumni involvement is as important to students as faculty involvement, according to Sawyer. "Our alumni should hold their heads high and be proud of Husson and what their education has done for them." His involvement with Husson has shown him that what he wants to see in the workplace is "a confident graduate." Sawyer feels alumni involvement and marketing are two areas high on the priority list. "We need a top notch development office to increase our student population and we need to stand on our strong foundation."

Carlson and Sawyer are looking forward to the year ahead working as a team. Sawyer says, "With Connie's educational background and my business knowledge, we compliment each other." Carlson says, "Sawyer is a welcome addition to the Board, with a high energy level and good business sense." They are confident Husson will benefit from the newly elected Board which includes a number of Trustees with long standing ties with Husson as well as several new members.

Professor Grant Publishes New Book

Dr. Philip Grant, management consultant and Professor of Management at Husson, recently published "Multiple Use Job Descriptions." Designed as a specialized, practical reference for human resource professionals and students, this book fully explains both how to prepare and how to use job descriptions and has been published by Praeger Book Co.

Grant involved over 100 businesses in eastern Maine as part of the research for this book. His students collected data from managers in the business community during the 1987 Spring semester. This effort, coupled with the sharing of information from the Greater Bangor Personnel Administration, was put to the test at the Jasper Wyman & Son Co.

Grant is nationally recognized as an authority on job descriptions. He has written four technical books in the field of human resource management and is currently working on his next, "Supervision."

Husson College

This logo has been a familiar sight used on stationery, publications, and in advertisements for Husson for a number of years. Recently, a committee was formed made up of staff, administration, alumni, faculty, students and Trustees to examine and compare Husson's logo to others used by educational institutions and area businesses. Husson has recently started working with the Designwrights agency. Designwrights took an active role in the committee meetings by presenting a number of creative ideas, listening to comments and discussions by committee members, and providing resource materials.

The outcome of these meetings will be highly visable in a very short time. The print type will be altered to depict a more progressive, business-oriented and professional style. The bell tower will continue to be used, not as part of the logo, but in new innovative and creative designs.

Watch for newspaper advertisements and new Husson publications with the new logo. It's a new look for a college taking a new look at its promising future.

President's Column

President Beardsley Sets Tone For The Future

Husson is currently in a reflective mood. It is the 90th year of our existence, 20th year on the present campus and 10th year in our relationship with Job Corps. This is also a transitional year. Our endowment will be passing the $1 million mark, our finances have improved, applications for next fall are up and the Board of Trustees has expanded significantly. And this is also a year in which to set a course of action for the next five years and to ask ourselves: "What do we want Husson to be in its centennial year, 1998?" Alumni and friends of Husson are all invited to participate in this dialog.

Recently, a draft mission statement was prepared by a future committee. It reads as follows: "The mission of Husson College is to provide motivated career oriented students with a post-secondary education which integrates professional studies and liberal arts through quality teaching. In a private non-profit, co-educational environment, Husson College offers undergraduate and other programs of study designed to enable graduates to successfully and ethically meet the professional challenges of an ever changing society."

Already there is a cacophony of voices. There are the voices of tradition which point to the words of Husson founder, Frank Shaw, who wrote in 1898, "Every individual should have his chance to develop sufficiently the skills needed to provide for a better way of life." In this context there is recognition that Husson has always taken a practical and career oriented approach to education and it works. Conversely, new themes are coming to the fore; ideas such as integrating a liberal studies core, ethics and international studies into the curriculum. And there are debates: Does Husson want to grow or need to grow? Should continuing education programs that are offered at seven outreach sites evenings and weekends for part time students be identical to, or very different from, the day school? Should the College be more selective in admissions? And there are broad questions of resource allocations: To what extent should we invest in preventive maintenance, added human resources, or debt reduction and endowment building? Our aspirations exceed our resources and we must prioritize. Needless to say, these are meaty, challenging issues with major implications for our future.

One 5 year scenario was presented to the Trustees in January. It involved increasing the day school student body from 750 to 800 students over the next five years. It discussed organizing academic programs around schools of nursing, business and professional studies, each with a liberal studies core and a special emphasis on ethics and international themes. It involves a delicately balanced approach to allocation of resources which would strategically add faculty and staff while catching up on preventive maintenance and beautification of the campus, and finally reducing debt and raising the endowment modestly. It did not involve academic diversification into new fields of study or major capital construction projects. It pretty much takes the direction that we should refine and improve the things we already do well.

The future planning process is not centered around a massive document which, once approved, will be cast in concrete. It is an on going process which will spin off mission statements, multi year budgets, action plans, assessments of progress and then more planning. The reason it is becoming more important right now is not because someone decreed it, but because there is an up-welling of belief from Trustees, alumni, faculty, students and the community that Husson is, at this moment, entering a window of opportunity.

Today is no time to fan the flames of unrealistic expectations but it surely is a time to seize the opportunity and sense of expectancy and make it ours.

Women In History

Janet Kinney

"I will always continue to do what I love best."

Since March was designated as "Women in History" month, it was decided that an article should be included in this issue that would focus on a woman that has played a role in the history of Husson. That woman is Dr. Janet Kinney who began teaching at Husson in the 1950's.

Summer Adventure

Would you enjoy a week long marine ecology class aboard the Nathaniel Bowditch, pride of the windjammer fleet? This is exactly what is being offered to Husson students during the week of June 18th, 1989. Students and instructors will board the Bowditch on Sunday, June 18th for a week of sailing and learning adventure. As well as studying marine ecology, students will lend a hand to hoist the sails, weigh anchor, coil halyards and deck lines, or take a turn at the helm.

The Nathaniel Bowditch carries up to 24 guests. The minimum age for this unique class is 18. Many Husson students take the class as a science elective which provides a week of intensive study and 3 credit hours towards their degree.

Once day school students have signed up, alumni and friends of Husson may have the opportunity to fill any remaining space. With limited accommodations, registrations will be accepted on a first come, first serve basis. Cost to an individual for this summer adventure is $750.00 which includes tuition, room and board. Registrations must reach the Continuing Education Office no later than May 17th, 1989.

If interested, please fill out the following coupon and send it along with a check to cover the $200 non-refundable deposit to the CED Office.

Shop 'N Save Chief Stepping Down

This story is reprinted courtesy of the Bangor Daily News.

About 400 people gathered at the Bangor Civic Center to salute Doug Brown on the occasion of his retirement. Yes, the man whose name is synonymous with grocery shopping in the Bangor area is retiring, almost.

Brown is selling his share in the eight-store Doug's Shop 'n Save supermarket chain to Hannaford Bros., his longtime partner in the grocery business. He is giving up control of his stores, but for the next two years will work as a consultant for Hannaford Bros.

As a consultant, Brown will travel the country to explore new store designs, store size and the changing product mix available in supermarkets. It will give him an opportunity to slow down gradually after what has been a long, intense career.

Brown's grocery career began as a teen-ager in South Portland. His family had recently moved from a farm in Lubec, where their Depression-era life had been poor and hard. But Brown had an ambition that quickly would overcome the slow start.

He went to a new Red and White store seeking part-time work. When he was told that there were no job openings, Brown said that he would work for nothing until he was needed. But when payday came, the young man received a paycheck with everyone else.

When Brown graduated from South Portland High School, his father wanted him to go to college. But Brown wanted a full-time job and a wife. He got both. Brown soon married Ana Brewer, who had moved to Portland from Houlton and worked in the store where Brown worked. And the full-time job was in Thomaston, where Brown ran a Red and White store for Hannaford Bros. Brown had the wife and job he wanted at the age of 18.

Later jobs included manager of a store in Camden, salesman for International Milling Co., store developer for T. R. Savage Co., and director of retail operations for Hannaford Bros.

In 1960, Brown was firmly entrenched in the grocery business and decided that he wanted to go into business for himself. With Hannaford Bros. as a partner, he opened his first store at the corner of Third and Union Streets in Bangor. The rest, as they say, is history.

As president of what would become an eight-store chain, Brown became the consummate grocer. It is a delight to talk with him about the business. He can detail the retail history of the products in his stores and can relate the social and economic changes that directed that history. He loves the business.

But Brown is a lot more than a grocer. He has been active and very influential in the community. A varied assortment of civic leaders attested to that fact at Brown's retirement dinner. Among the scheduled speakers were Gov. John R. McKernan; Robert H. Brandow, president of Eastern Maine Healthcare and Eastern Maine Medical Center; William H. Beardsley, president of Husson College; Charles Tetro of the Training and Development Corp.; and James L. Moody, Jr., chief executive officer of Hannaford Bros.

"Some people do one thing very well, and others do a couple of things well, but Doug has done many things well," said Richard Anicetti, a district manager for Hannaford and coordinator of Brown's retirment dinner. Anicette said that many people who wanted to speak at Brown's dinner were turned down, simply because so many people wanted to be a part of it.

The civic work that Brown is most proud of involves two of Bangor's major institutions, Eastern Maine Medical Center and Husson College.

Brown was chairman of the board of directors at EMMC when Eastern Maine Healthcare, the holding company for the hospital, was started and the for-profit Affiliated Healthcare network was formed. It was the first such hospital reorganization to take place in Maine, and proved to be the forerunner of things to come in that industry. Brown was proud to lead the effort.

When Husson College found itself in financial doldrums because it couldn't repay the government bonds that had financed its new campus, Brown led the group that came to the rescue. He dealt with the government agents and helped raise $700,000 in private capital that allowed the refinancing of the debt.

But there also have been civic disappointments. He felt he had failed as president of the Bangor Center Development Corp. and he resigned. "The chemistry wasn't right between the City Council and the development corporation," Brown said. His disagreement came over the location of the Maliseet Gardens project. Brown would like to have seen a hotel and conference center at that location.

Numerous honors have come Brown's way. Among others, he was made a 33rd degree Mason for his civic work, received the Paul Harris Fellowship Award from the Rotary Club, received the Norbert X. Dowd Award from the Greater Chamber of Commerce for his contributions to the community and received the McFadden Award from the Eastern Maine Development Corp. for his service to eastern Maine.

Are there any regrets in the life of this millionaire grocer and devoted civic leader? Yes, he says. "After you build a business, you would have liked to have the family carry it on," he said. To understand that regret, it must be understood that Brown is very much the family man.

He still gets a gleam in his eye when he talks about his beloved Ana. And he takes great pride in his two children, Ron and Debra, and his two grandsons.

Brown said that Hannaford Bros. wanted to own all the Shop 'n Save stores, so family continuity in the business might not have been possible. And Ron Brown, a respected former basketball coach and current sports columnist for the Bangor Daily News, has suffered from kidney failure. Brown gets emotional discussing his son's disease. "You would give everything you've got if you could see him on his feet," Brown said. Eventually, a kidney transplant could do just that.

Debra, who lives in the Portland area, is studying decorating and hopes to start her own business.

Doug Brown is a healthy 60 year old. Can this workaholic entrepreneur really retire? He admits to not knowing for sure. "My family gave me nine books for Christmas so I wouldn't get bored in Florida,' Brown said. He will spend the next two months in the southern sun. He said that he hadn't developed a lot of recreational pursuits. "I've got to find an out, a relaxation," he said.

Contemporaries of Brown tell of vacationing with his family in places like Europe and finding themselves following Brown to grocery stores, where he proceeded to see if there were any retailing methods he could adopt back home.

Can he ever not be a grocer? Probably not, but only time will tell. "I wouldn't rule out the possibility of owning another store, one that has been mismanaged and has a good location," Brown said. Brown certainly won't cease to be an active member of the community.

Two years ago, Brown spent more than $16,000 to get his teeth capped and for periodontal work. The dentist told him that the work would last for 30 years.

Ever the businessman, he would like to get his money's worth from the dental work. Given his track record, don't bet against him.

Doug Brown, Husson Trustee, prepares for retirement.

Twin Champs

continued from page 1

women enjoyed a second place ranking in the MAIAW standings and a fourth place ranking in New England. They also earned a tournament win in Presque Isle at the Star City Invitational.

Sophomore Sharon Siebert and senior Peggy Riitano were named to the All-District 5 team. They were among the leading scorers and rebounders in the district. Siebert also received honorable mention to the All-American and was named to the first MAIAW team. Riitano passed the 1,000-point mark for her career and was named to the MAIAW second team. Freshman Vicki Mazerall finished the season leading the state in steals and was named MAIAW Rookie of the Year.

Individual and team honors highlighted the men's basketball season as well as ending the season with a 35-3 record. The Braves regained the NAIA District 5 men's championship for the first time since 1983, earning them an appearance at the national tournament in Kansas City. Individually, coach Bruce MacGregor topped the 400-win mark this winter making him one of the 55-winningest active college coaches in the country at any level. Buster Frederick and Mark Taylor were voted All-District 5 team members for 1988/89. Taylor also received honorable mention from the NAIA. Both Taylor and Frederick were named to the first All State team with Shawn Bolden chosen for the second team. In addition to scoring over 1500 points in his career, Taylor was named New England Player of the Year.

The men also piled up statistics as a team. They were first in the nation in rebounding and in the team scoring margin which they achieved by setting a new national record. They were ranked 7th in the nation at preseason and 4th in the final poll of coaches. Maine coaches and sport writers voted them Team of the Year and provided substantial favorable media coverage. Earlier in the season the team won first place in the St. Francis Xavier, Queen City, and Paul Bunyan international tournaments.

President William Beardsley saw the season as much more than just wins and losses for Husson. "Ball games brought the Husson community closer together," observes the president. "Trustees, students, faculty, staff and alumni were interacting and enjoying the games."

With televised coverage of the post-season games, many people outside the Husson community were able to watch and enjoy both the men's and women's teams. The sudden surge of media attention, including national ranking by Sports Illustrated in the NAIA Division III polls, local television attention and numerous articles in print, gave the teams and the Husson community well-deserved recognition and support.

Although the men's trip to Kansas City ended in disappointment for the team, that loss in first round action does not diminish the accomplishments of the season. Letters of praise are still coming in to the coaches and the Public Affairs Office on campus. Fans and friends want to be sure their message is clearly understood. Gary Fanning, honorary coach, wrote, "I have had the privilege of being associated with as fine a group of gentlemen and athletes, staff, faculty and fans as one could have hoped for. You all have made our (Mike and I) first stint as honorary coaches the most pleasant memory possible." As coaches and athletes begin to look ahead to next year's season, all agree that 1988/89 was a great year for both Husson teams, one that will be remembered and talked about for years to come.

From England to New England

She was born in England, traveled around Europe, China, South Africa and the United States, and graduated from Husson College. Now, Penny Evans is the Personnel Director of Mount Desert Island Hospital. Thanks, says Penny, to her Husson education.

"Just the other day I was preparing to give a talk at the hospital on how to do employee evaluations and I found myself referring to my notes from my organizational behavior class," says Penny, who also keeps some of her old textbooks on her bookshelf at work for quick reference.

Penny started her education at Husson in 1982. "My friend said she was going to take an accounting class at Husson. I thought it would be fun, so I joined her and got hooked." But it didn't stop there for Penny. She went on to become a full time student in 1987. "My family supported me all the way. The kids were surprised but happy and my husband told me he knew I could do it all along." And that she did. Penny graduated in May of 1988 with a degree in Business Administration. She says, "The people at Husson are so cooperative. They let me graduate in May and take my last course over the summer because it wasn't offered during the spring semester."

Penny Evans, Personnel Director, MDI Hospital.

"Your education at Husson saves you training time on the job."

Trying new things, like going to college at an older age, is not strange to Penny. She has several years of experience in computer programming, dating back to 1967. "When I came to the states, I lived in New York City working as a computer programmer. Then we moved to Seattle where I continued in the same field," says Penny.

Penny's children were born after her return to England. In 1979, Penny and her husband brought their children to Bar Harbor. "My husband transferred, so I took a job with the school system. Then I went on to become a co-owner of a craft store, business manager of a children's clothing shop, and finally I picked up a part-time job with a travel agency," says Penny.

This vast experience coupled with the fact that Penny traveled a lot as a child, gave her the confidence to embark on a college career. She says, "I have experienced a lot of different lifestyles and cultures and learned a great deal in the process. It has made me appreciate a lot more in life and made me more open minded. I had no time to be shy."

Penny always took an active role in her classes at Husson, learning the practical things each course had to offer. "Overall, my education at Husson was very practical and I have remembered and applied a great deal of what I learned to my job," says Penny. A good example of this would be the insurance classes taught by Professor Emeritus William Curran. "You name it, I took it — health, property, workers compensation, etc., and now I can read these forms and not feel totally confused. In fact, my husband leaves all the family insurance matters for me to handle."

Aside from the paper work, Penny deals with people throughout her day. "I love people. I always have," she says in her English brogue. "The sociology and psychology classes helped me to deal with people, especially now when I have to deal with personnel grievances." The personnel administration course provided sound practical experience for Penny, experience she can apply to her job on a daily basis. "I learned how to solve issues through hypothetical type problems."

One book in particular aids Penny in her job as Personnel Director. "My copy of *Business Communications* is like my Bible when it comes to writing correspondence. This book is excellent," she says with excitement in her voice. In fact, every time Penny mentions Husson or one of her professors, her voice gets brighter.

"My advice to anyone thinking about going on to college is to go to Husson because your education there saves you training time on the job. The college personnel are very accommodating, understanding of your personal obligations, and the education received is a practical one," says Penny. Penny feels the education she received at Husson helped her secure her present job at MDI hospital right after graduation.

When she hears anyone talking about attending Husson, she says, "Go for it. It's a very rewarding experience which opens your eyes to a whole new world."

College Costs Increase

Economic pressures within our society dictate an increase in college costs throughout the United States. MIT recently raised tuition, board cost to $19,335, an increase of 7.2% for the 1989-90 academic year. Tuition, alone, was increased by 8.2%, pacing tuition increases on the rise faster than the rate of inflation.

National figures are unavailable until August, but many colleges are announcing increases from 7-10% and a few are raising tuition by as much as 15% or more. If Husson is to continue to deliver a high quality education to its students, costs for that education must be increased.

On January 30, 1989, the Husson College Board of Trustees approved the following fees for the 1989-90 academic year:

Tuition (30-hour credit load) ($233.33 per credit hour)	$6,700
Room and Board (5-day meal plan)	$3,200
(7-day meal plan)	$3,400
Comprehensive Fee	$ 100

The overall increase is just under 5%.

Those who seek and qualify for financial aid to ease the burden of college attendance, will find Husson providing institutional grants and scholarships, work study positions, and other forms of assistance through the Financial Aid Office.

It is hoped that the maximum Pell Grant will increase to $2,300 and that the Maine Student Incentive Grant Program will increase to $1,000 to increase aid to students.

Summer Happenings at Husson

Continuing Education Division Responds to Area Businesses

The Greater Bangor Area Businesses recently participated in a survey which addressed their specific needs in regards to employee training and re-certification opportunities. Husson's Continuing Education Division (CED) has responded to those needs by providing a unique series of seminars and workshops offering professional and educational development. The program will benefit professionals in the following areas:

Accountants
Secretaries
Appraisers
Educators
Small Business Managers
Attorneys
Bankers
Real Estate Agents
Administrators

The first phase begins on May 16, 1989 and will continue throughout the summer months. The following is just a partial listing of available seminars:

BEGINNING LOTUS — Mr. Duane Lane (Computer Consultant)
May 16, 1989, 8:00-5:00 with one hour for lunch.

Highlights introduction to worksheets, database and graphics. Limited to 10 students. Cost: $100.00

ADVANCED LOTUS — Hamid Ansari (Computer Consultant)
May 17, 1989, 8:00-5:00 with one hour for lunch.

Hands-on seminar where you can learn scores of undocumented short-cuts. Allows you to put what you've learned to work in planning and designing specific applications for particular business needs. Limited to 10 students. Cost: $100.00

REAL ESTATE RE-CERTIFICATION SEMINAR — Al Smaha, President of Columbia Realty; Lwelleyn Michaud, Attorney at Law; Doug Schmidt, Appraiser
May 31, 1989, 9:00-4:00 with one hour for lunch.

Designed for real estate re-certification and approved by the Maine State Real Estate Commission for (6) clock hours. Textbook: Maine Real Estate Principles and Practices. Textbook Fee: $30.00. Seminar Cost: $85 (pre-registration or $95 day of the seminar).

EFFECTIVE FOOD SERVICE PURCHASING — Mike SanAntonio, Food Service Director, Husson College. June 7, 1989, 8:30-5:00 with one hour for lunch.

Designed for food services, schools, nursing homes, hospitals, day care and nursery facilities, restaurant operators, and food business consultants. Highlights how and what to purchase. Cost: $75.00

CREATIVE AND INNOVATIVE FINANCING — Al Smaha, President of Columbia Realty. June 13, 1989, 9:00-4:00 with one hour for lunch.

Real estate re-certification seminar highlighting buying and selling of residential and/or commercial properties (i.e., Bank Financing, Owner Financing and Buydowns). This seminar has been approved for (6) re-certification credits. Cost: $85.00 (pre-registration) or $95.00 day of seminar.

COMPUTER NETWORKING — Daniel Kelleher, Micro Systems Analyst at Bangor Hydro Company. June 12, 1989, 10:00-2:00.

Highlights local area network systems (LANS) as multi-user computering at reduced cost over mainframe and minicomputers. Cost: $90 (pre-registration) or $100.00 day of seminar.

PREPARATION OF CASH FLOW STATEMENTS — Marge Zoldi, Professor, Husson College. June 15, 1989, 9:00-4:00 with one hour for lunch.

Designed for CPA's and accountants. Seminar presents requirements of FASB 95 as to the preparation of cash flow statements, simplified worksheet approach and much more. Cost: $100.00.

MARINE ECOLOGY — Aboard the Nathaniel Bowditch of Cape Rozier, Inc. June 18-24, 1989.

One week voyage combining a practical science course with a sailing experience. Limited to 24 guests. Cost: $600 for the trip with additional option of 3 credits available for the regular CED course price of $240. A $200.00 non-refundable deposit will be required. For further details see the "Summer Adventure" article in this issue.

SECURING SMALL BUSINESSES — Joseph E. LaChance, Vice-President, Fleet Bank and Certified SBA lender. June 21, 1989, 9:00-3:00 with one hour for lunch.

This seminar will address securing small business financing with numerous aspects being presented. Cost: $75.00.

HOW TO MOTIVATE THE EMPLOYEE — Dr. Phil Grant, Professor, Husson College. June 23, 1989, 9:00-4:00 with one hour for lunch.

The Effort-Net-Return Model of Motivation will be examined which is of particular use to anyone in the human resource administration field and managers at all levels. Specific techniques will be addressed, allowing you to "walk away" with things to do that are guaranteed to work and cost you little. Cost: $100.00.

PROBLEMS OF SMALL BUSINESS — Bill Curran, Professor, Husson College and other speakers. Cost $90.

VALUATION OF CLOSELY HELD BUSINESSES — John W. Murphy, President, Atlantic Management Co., Inc., Portsmouth, NH. August 2, 1989, 8:30-5:00 with one hour for lunch.

Designed for CPA's, real estate brokers, and attorneys and includes factors to consider, the process, methods and reasons why. CPU credits - 8 hours per class. Cost $100.00.

Registration forms are available by calling the CED office on the Husson campus. 947-1121, ext. 216.
In Maine: 1-800-432-7335.
In U.S.: 1-800-448-7766.

Hoot for the Braves

Sports schedules for spring and summer sports are available through the athletic department (ext. 270). If the weather would just cooperate a little, the games could begin. Why not join the group of spectators and enjoy the great competition?

This snowy owl got a head start on all of us when he decided to purch atop the Husson scoreboard. He was a little early, but why not follow his lead and "hoot" for the Braves!

Capital Improvements

Husson has been getting a facelift on a number of fronts. Some major improvements and acquisitions made during the past months include:

- New roofs on all residential dorms
- Paving of Kegan Drive and connecting Kegan and Husson Ave.
- New parking lot established beside Hart Hall
- Dormitory carpeting
- Renovations and new furniture for dorm lounges and foyers
- Two new cars for Admissions Counselors
- Gang mower and baseball field rake
- New copier for the Copy Center
- Furnishings and computers for the new Caribou site
- Renovation of gym classroom for exercise classes
- New dishwasher for DDC
- Computer and word processing equipment for the Provost Office, Career Counseling, Library, Student Life Office and Dickerman Dining Commons
- Communications board for the Academic Computer Center
- Air locks on lower level entryways of Peabody Hall

Projects targeted for completion by the end of June include:

- Paving student/faculty parking lot and balance of the circle
- Renovations to Kominsky Auditorium
- Repairing or replacing underground wire between street lights
- Installation of computerized court reporting equipment

This impressive list tells a story in itself. Husson's administration and staff have been working together with renewed enthusiasm on many of these projects. With warm weather just around the corner and commencement planned for May 13, 1989, a number of projects are keeping things 'hopping' at Husson.

SPECIAL SUMMER PROGRAMS

Exciting plans are underway for numerous programs on the Husson campus during the summer months. Some are repeats of successful programs while others are new and innovative approaches developed to meet the changing needs of the area population.

Day school students will be participating in two summer sessions. CED and Graduate students will soon be registering for classes and the list of camps and special programs is on the increase this year.

Information regarding day school classes should be requested from the Registrar's Office, CED and special program information is available through the CED Office, and Graduate registration information should be requested from the Graduate Office.

DAY CLASSES

Session I — May 30 - June 29 (5 weeks)

All 3 credit courses. Classes meet for four days each week, Monday through Thursday. Exception: First week only, classes will meet Tuesday through Friday.

Classes meeting 8:00-10:00 a.m.

DIRIGO GIRLS STATE

ELDER HOSTEL

This is just a sample of the activities planned for the summer months. More information on these and others planned after publication of this issue will be made available through advertisements in the Bangor Daily News and mass mailings of flyers and/or announcements.

EMPLOYEE SERVICE AWARDS

A large number of Husson employees were honored at the recently held Employee Recognition Banquet.

Those receiving five-year awards were:
Paul R. Curtis
Nancy A. Sewak
Bonnie B. Lundquist
Elizabeth L. Foster
Sonja J. Spring
Ann P. Ellis
Louise M. Regan

Honored for 10 years were:
Robert L. Caswell
David A. O'Donald
Edna Kustner

15-year awards went to:
James H. Parker
Thelma Vining

20 year awards went to:
Carl E. Blaisdell
Philip C. Grant
Bruce D. MacGregor
Jane M. Goodwin
Helen E. Griffin
Pamela S. Hennessey
Robert G. Goodwin
Sally C. Webster

One 25-year award went to:
Albert E. Weymouth, Jr.

One 30-year award went to:
Gail Gross

A special presentation was also made to members of Bill Cobb's family and the announcement of a special scholarship fund in honor of Bill.

HELPING HAND FOR SUMMER PROJECT

Husson's summer seminars and special programs are shaping up with the help of William "Pop" Mangum, a well known planner and organizer in the area. Working with the CED department, Mangum is securing speakers, coordinating topics and working with the Governor's Office on a special international business conference for Husson.

Mangum's talents are being spread into the SEEC program for gifted and talented children, where he is coordinating the activities for the expanded program which will cover three separate sessions this summer.

SENIOR CLASS GIFT

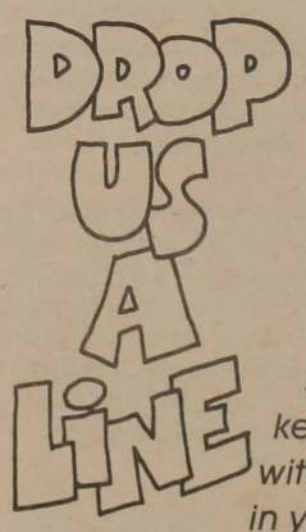

The senior class is pleased to announce their class gift to the Husson community. The gold lettering for all residence halls, Peabody Hall, and Newman Gym is already in place for everyone to admire when they come onto the campus. It is a dramatic addition to the brick walls of the residence halls. Peabody Hall and Newman Gym lettering, mounted above the front entrances, enhance their overall appearance and contribute to the campus beautification now in progress.

The senior class is both excited and proud about this new addition to the campus. Check it out!

SPECIAL PROJECT

Husson has recently established a fund designed to raise sufficient funds to purchase an oil painting honoring the memory of friend and colleague Bill Cobb, Manager of Student Accounts. The painting will be hung in Peabody Hall.

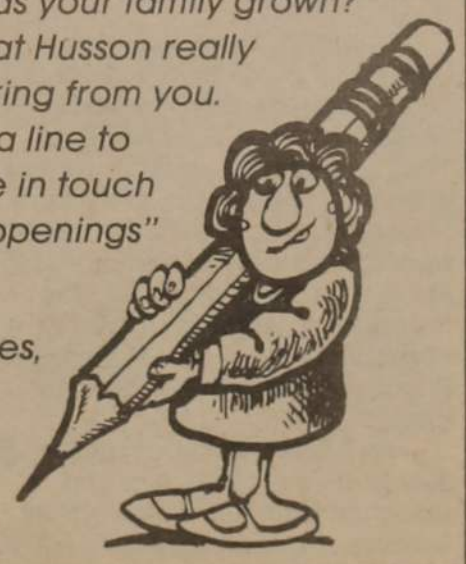

If you would like to be part of this special project by donating to the fund, please contact Gail Gross, Husson Development Office at 947-1121, ext. 212.

ATTENTION ALUMNI

What are you doing?
Where are you working?
How has your family grown?
All of us at Husson really enjoy hearing from you.
Just drop us a line to keep everyone in touch with all the "happenings" in your life.

Please send notes, letters, etc. to
Mr. Paul Husson,
One College Circle
Bangor, Maine 04401

Job Placement

Portland, Maine — Boston, Massachusetts — Dallas, Texas. These are just some of the cities in which Husson College's May graduates have found career opportunities in accounting. All public and management accounting majors have secured full-time employment and this was accomplished by the first week in February.

There are twenty-two May graduates preparing for accounting positions according to professor Thomas Largay, accounting department coordinator at Husson. "We take time to get to know the students, the recruiters spend a lot of time working with us, and we often end up with a perfect match for each student."

Recruiters are familiar faces around Husson. Largay says he receives calls and has visitors from various firms who are interested in employing Husson students. "If I have the right student in mind for that firm, I make the match. If there is a student interested, but is not suited for the job, I keep my eyes open for the firm." Eighteen to twenty Maine firms turn to Husson for prospective employees, according to Largay.

Student job matching actually begins in the junior year for accounting majors. "We are constantly contacted by area firms who want an accounting student," says Largay. Recruiters get to know more about Husson students at the annual wine and cheese reception. "The recruiters pay the bill and we make sure all our students meet the recruiters. It's a great experience for the students to learn how to handle themselves in an informal session," says Largay. "It offers the faculty a chance to see how the students handle themselves."

The accounting faculty includes Largay, professor Dewey Martin and professor Marge Zoldi. Ms. Zoldi also works closely with accounting students. She is called upon at times to speak to the women about such things as appropriate attire during interviews. Professors Largay and Martin perform this same type function for the men, reminding them how nice a suit looks when compared to a sport coat. These faculty members feel comfortable in this role, just as the students feel comfortable with the advice offered. There is a very relaxed atmosphere on the third floor of Peabody Hall in the Accounting Department. There is a big old red couch and chair placed there just for that purpose. Largay says the students are no strangers to this area. "If you drop by at nine, ten, or eleven on any weekday morning, you will find half a dozen students sitting around, getting to know each other and the faculty. Some of these students even want to paint the offices, something I can't imagine happening at a large university."

Each accounting firm has a niche and Husson students often fill that niche. According to Largay, "It's a very simple process. They have to work hard at their studies, be sure of their goals and work hand in hand with Bud Vassey in Career Development." As a result of efforts like these, students often get more than one job offer before graduation. One example is Sandra Pinkham, a junior majoring in management accounting. According to Vasey, Pinkham is already working for IBM Corporation in Connecticut this semester and receiving college credit for her work in addition to a weekly paycheck.

Then there are times when firms overlook a student that the accounting faculty may feel was just right for that position. "In a case like this, Dewey and I make a trip," says Largay. "We recently drove down to Portland after two students were overlooked. We told the firm they had made a mistake and suggested they reconsider the students. This can easily be done when we have faith in the students and know there must have been some outside circumstances that hindered the job interview. As a result of this trip, one student got a job."

Among the firms committed to Husson's May graduates are Peat Marwick Main & Co. in Portland, Champion in Texas, Berry Dunn McNeil and Parker in Bangor, Internal Revenue Service in Augusta, and Arthur Anderson and Co. in Boston. According to Largay, these jobs are stepping stones for Husson students. "Being a public accountant is not an easy job, but you can create a niche for yourself." Largay says as a Public Accountant you can learn all about a firm so that the company may in fact hire you in a couple of years as its full time accountant.

"Our students are prepared for their jobs because of the internships, exposure to recruiters and their classroom experience," says Largay. Husson students also become acquainted with areas outside Maine. For example, students explore Boston on an annual trip. One student, Tina Collins, recalls "it was the greatest trip I have ever taken, seeing all the things you hear about the 'big city'." Scheduled visits included the Museum of Science and Fine Arts, the Aquarium, a stop at the U.S.S. Constitution and more.

For students at Husson, their happiness is enjoying their education and having a job at graduation. For the faculty, it's watching the students succeed. According to Largay, "The most exciting part of my job is working with the students and the most satisfying part of my job is seeing the students get a job."

In Memorium

Howard A. Ouelette, '51, died January 8, 1989 in East Millinocket. Howard worked 33 years for Great Northern Paper Co. and retired as foreman in the central department in 1986. He was a U. S. Navy veteran and a member of the American Legion. He is survived by his daughter and son-in-law, Jane and John Dupuis of Carmel, and two grandchildren.

Gerald A. Hurd, '50, died December 29, 1988 in Burlington, Massachusetts. Gerry served in Korea with the U. S. Air Force. In 1960 he became credit manager of Sears, Roebuck Co. in Hyannis, Massachusetts. In 1962 he went to work as manager of Oyster Harbors. At the time of his death he was manager of Wellesley Green Condominiums. Gerry was very involved in community activities and his church.

He is survived by his mother of Brewer, a son Terrance and a daughter Kathy and a daughter Suzanne. He is also survived by his brother Robert and neices and nephews.

Dorothy Morgan Barnes, '37, died December 8 in Caribou. Dorothy retired in 1979 after 16 years as clerk of courts for the Caribou District Court. She is survived by her husband Raymond, two sons: Raymond and Gregg, and her daughter Lucinda Bosley.

Linwood Decker '63, died January 9, 1989 at his home in Dover-Foxcroft. Linwood was employed as an auditor for the State of Maine and for A. J. Cole. He also taught accounting at Husson College. He is survived by four brothers, three sisters, and several neices and nephews.

Gail Conway, '83, died February 16, 1989 at a Boston, Massachusetts hospital. Gail was employed by WLBZ in Bangor as a secretary. After leaving WLBZ she moved to Lee, New Hampshire. While at Husson College, Gail worked in the CED office.

Gail is survived by her parents, two sisters, a brother, and her fiancee.

George Niles, '38, MEX died December 17, 1988 at Hanover, NH. After his graduation from Maine School of Commerce he worked as secretary to the director of the U. S. Forestry Service in New Hampshire. He later attended Tufts University where he earned a B.S. in Theology. He served as pastor of the Essex Massachusetts Unitarian Church, the Universalist Unitarian Church in Manchester and the Unitarian Church of West Chesterfield and Walpole, NH during his distinguished career in the ministry. He was involved in Community Theater and was past president of the Manchester Community Concert Series.

He is survived by three cousins.

Karl Diedrichson, '56, (MEX), died February 5, 1989 at a Bangor hospital. Karl was a member of the faculty in the business department at Old Town High School. Karl served his community as a member and past president of the Bangor Jaycees. He was also very involved in the Anah Temple Shrine. He is survived by his wife Louise, one son Karl III, two daughters Vicki Parsons, and Lori Winship, and four grandchildren.

Harriet Morris Whitney, '43, died December 13, 1988 in Bangor. Harriet retired from the Federal Civil Service at Patuxent River, MD. She was a member of the Bangor Nature Club. Harriet is survived by her husband Charles, four sisters and several neices and nephews.

Gilbert F. Cole, '49, died January 4, 1989 in Dover-Foxcroft. Gil was a retired teacher from the Milo school system and a veteran of World War II. He is survived by a neice Pamela Cole, a sister-in-law, Rose Cole, and several cousins.

Mona Rogers Hawkins, '44, died September 14, 1988 at her home in Bangor. Mona attended Husson in 1944 and subsequently graduated from the Webber School of Nursing in Biddeford. She was a registered nurse and in recent years worked at Eastern Maine Medical Center and James Taylor Hospital. She is survived by her husband John and one daughter.

1930's

Helen Wong Huang, '37, writes to inform us that her husband passed away December 16, 1988. Helen resides in San Francisco and is retired.

1950's

Ora "Bill" Clarke, '50, oversees the entire operation of the inside sales team at N. H. Bragg and Sons in Bangor. Bill began working for Bragg's in 1972. He resides in Old Town.

Arthur Goodridge, Jr., '50, is currently a vice-president of Casco Northern Bank and has been named manager of the bank's new branch office in Brewer. Arthur was the subject of a full-page article in a recent Bangor Daily News supplement describing his 32 years in banking. Arthur and his wife, **Eleanor, '48,** reside in Bangor. They have two daughters, Christine Ann and Cheryl Louise and two grandchildren.

William Baxter, '51, has been named to the Board of Directors of the Bangor Chamber of Commerce.

Constance Bickford Lander, '54, and her husband Bill are the owners of Index Packaging, Inc. in Milton, NH. They manufacture Tip N' Tell which is a device designed to protect products in shipment from being overturned. Bill is the inventor of this very successful product which is sold worldwide.

Bob Cimbollek, '59, Kappa Delta Phi, coached the John Bapst boy's basketball team to the Eastern Maine Class C championship. To do so he had to defeat the Washington Academy Raiders coached by **Buddy Wood, '75.** Subsequently, John Bapst went on to win the State Class "C" championship.

Joann Quirk Munson, '51, was the top producer for 1988 for ERA Dawson Realtors in Bangor. Joann is very involved in community service as a board member of COPES, EMMC Hospice program, Chamber of Commerce, Tuesday Forum, Bangor-Brewer Management Club, St. Joseph Auxiliary and St. Mary's Church, among others.

She is also professionally active in the Association of Realtors, and the ERA Million Dollar Sales Team.

1960's

Robert A. Small, '66, is employed by Lopez and Church Office Products in Portland. Bob resides in South Portland.

Ronald A. Libby, '65, (MEX), has been elected to the position of President and Chief Executive Officer of Maine Mutual Fire Insurance Company. Ron and his wife, **Barbara Merritt Libby, '65,** reside in Presque Isle.

Anita Partridge McFarlane, '69, (Delta Sigma Delta), has been promoted to Assistant Registrar of the University of Maine at Farmington. Prior to her promotion Anita worked as data processing coordinator. She is currently completing her Bachelor's degree at Farmington.

William Carey, '63, was featured in a recent article in the Ellsworth American. Bill is the owner of Carey's Store in Bar Harbor and formerly owned the Mary Jane Restaurant for eleven years. Bill has been involved in community activities; he is former King Lion of the MDI Lion's Club and a former president of the YMCA board. He and his wife Joyce and family reside in Bar Harbor.

Barrett Young, '62, has been promoted to manager of the Hancock division of Bangor Hydro-Electric Company. Barrett is active in the Shrine. He and his family reside in Mt. Desert.

Ed Youngblood, '61, has been named to the Board of Directors of the Bangor Chamber of Commerce.

Stephen Mitchell, '69, Kappa Delta Phi, appeared in the March 13, 1989 Voices column in USA Today. Steve, who is currently vice-principal of Ponaganset High School in North Scituate, Rhode Island, was asked his opinion about the proposed Channel One TV news with commercials. Should it be offered to high school students?

Steve answered, "No, Channel One has a captive and impressionable audience which it wants to use as a market to purchase goods. It's fine if they want to provide a public service to the schools and students. But, I have a problem with advertisers getting students to purchase something under the guise of public service."

Harrison Hahn, '61, was recently elected to the Board of Trustees of Norway Savings Bank. Harrison is the Administrator of Stephens Memorial Hospital. He and his wife, Bonita, have two children.

1970's

Marjorie Black, '77, is in Employee Services at Bath Iron Works. Marjorie resides in Lisbon Falls.

Jeff Corey, '76, Kappa Delta Phi, and his wife Kathy have purchased Day's Jewelry store in Westbrook. Jeff and Kathy also own and operate Jeffrey's Fine Jewelers in Waterville. The Coreys reside in Waterville with their two daughters Emily 7, Erin 6, and a son, Joseph, 2.

Frank Ouelette, '70, CPA, has joined the public accounting firm of Martel and Provencher, P.A. in Auburn. Previously Frank was controller at V.I.P. Discount Auto Center, and was an auditor at Coopers and Lybrand in Boston.

Frank also has an M.B.A. from the University of Maine. He and his wife, Suzanne, reside in Lewiston.

Dan St. Louis, '77, is First Assistant Golf Professional at the Palm Beach Polo and Country Club in Florida. Dan and his wife, K.C., have two children, Margo 7 and Tovi 1. They reside in Wellington, Florida.

Barry N. Way, '72, has been promoted to General Manager of M. L. Coffin Co. Inc.'s Bangor store. The Bangor based firm is a distributor for lawn, garden and farm power equipment and snow removal equipment in Maine, Vermont, and New Hampshire.

Brent Cronkite, '70, has been appointed transportation and distribution manager for McCains Foods Western, Inc. He holds the same post at McCain's Foods, Inc. Brent and his wife, Nancy, and their children Christa 9 and Megan 5 make their home in Presque Isle.

Michael Bell, '79, has been named Director of the Customer Service Center for Central Maine Power Co.'s southern division in ortland. Mike and his wife Ann and their two daughters live in South Portland.

Sergeant Major **John Leonard, Jr., '78,** is currently a command sergeant major, the highest enlisted rank possible in the Maine Army National Guard. He is the chief spokesman on the adjutant general's staff for the Maine Army Guard's enlisted men and women.

John resides in Glenburn with his wife and two daughters.

Jim D'Agostino, '72, was honored at the fifth annual Shaker's Baseball Team dinner-dance held in February at the Waterbury Connecticut Sheraton. Jim, a retired police officer is currently a counselor and coach at the Connecticut Junior Republic, working with emotionally troubled teens. He lives in Waterbury with his wife, Kate, and their 5 year old daughter, Jamie.

David J. Parent, '74, received a Master's of Divinity in 1986 in Pastoral Ministry from Pope John XXIII National Seminary, Weston, Massachusetts. He is currently teaching religion at an all-boys Catholic high school in Harper Woods, Michigan.

Richard Crabtree, '71, Senior Vice-President in Finance and Chief Financial Officer of Central Maine Power, has been selected to attend the Harvard Advanced Management Program. It is a three month, six days per week program beginning in March.

Dick is married to the former Paulette Thibodeau and has five children: Michelle, Julie, Angel, Tyler, and Ryan.

John L. O'Brien, '75, is currently Transportation Head for the New York Division of C. H. Robinson Company Food Brokers. John called in to update us on his address and to cheer on the Husson Braves.

Joe Mesi, '79, coached his Deer Isle-Stonington Mariners to the Eastern Maine Class D Championship in basketball. Joe and his wife, **Sally (Bourget), '79,** reside in Stonington.

Donald Audibert, '76, MEX was married to Laura Schmidt on October 22 at St. Louis Church in Fort Kent. Don and Laura are both employed by Great Northern Paper Company. They reside in Fort Kent.

Donald "Buddy" Wood, '75, coached the Washington Academy Raiders boy's basketball team to the Eastern Maine Class C finals where they lost to John Bapst coached by **Bob Cimbollek, '59.**

Mahlon W. Hamlin

Mahlon W. Hamlin, '71, has been promoted to director, sales administration for the Georgia-Pacific Corp. market pulp, containerboard, bleached board and kraft paper sales group. Hamlin is responsible for all accounting and customer service functions which support these sales groups. He reports to Clint M. Kennedy, vice president, pulp kraft paper and containerboard sales.

Hamlin joined G-P in 1973 in mill accounting at the company's Woodland, Maine, operation. Most recently, he served as assistant to the group controller for pulp and paper.

Phil Harriman, '77, was featured in the February cover story of the Southern Maine Business Digest. Phil serves as vice-president of the Buckley Group in Portland. The article offers an in-depth analysis of Phil's business philosophy and insight into the offerings of the Buckley group.

Phil is very active in community affairs and continues to enjoy sports. He and his wife, Christie, have three children, Jocelyn, 7; Jared, 4; Madelyn, 1. They reside in Yarmouth.

Rene Landry, '71, recently attended the National Practice Management Conference in Las Vegas sponsored by the American Institute of Certified Public Accountants (AICPA). Rene is with Austin Associates, PA of Auburn and is a shareholder in the firm.

Edward Schneller, '76, MEX, is employed by Safelite Auto Glass in Bangor. He reports that he is currently in the process of building a new home.

1980's

Dennis Dalton, '80, (Kappa Delta Phi) is a district manager for Revco, D.S., Inc. in Elizabeth City, North Carolina. He and Vicki love the weather but miss Maine. Dennis and Vicki were at the Kappa Reunion this year.

David Gallant, '85, (MEX) and **Michelle (Pepin) Gallant, '87,** (Kappa Lamda) are the proud parents of Seth Michael, born on December 23, 1988. David is in a training program as a customer service representative for Hannaford Brothers. David and Michelle reside in Saco.

David is looking forward to his brother Steven's graduation from Husson in May.

Juelle Dunbar Clark, '88, MSB, has been hired by the city of Bucksport as a business assistance consultant. Juelle will be working with the 50 downtown merchants to "develop downtown Bucksport into a prosperous community with a variety of services and businesses."

Gail Boucher, '88, and Michael Mahan were married September 9 at St. Joseph's Church in Old Town. Gail is employed by Dexter Shoe in Bangor. Michael is employed by United Parcel Service in Brewer.

Barbara Pierce, '82, and Kenneth Gray were married in Bucksport on October 1. Barbara and Kenneth are both employed by Champion International. They reside in Orland.

John Dubois, '88, is currently employed with the Maine Credit Union League in Portland.

Linda Bennett Ripley, '80, is currently employed by Healthsource ME in Portland. She and her husband, Bryan, and daughter, Kelley age 3, live in Gray.

David Commeau, '87, is a commercial lines account executive with the Dunlap Agency in Bangor. He and his wife, Elaine, have two children, Erica, 4 and Angela, 6 months. They reside in Bangor.

Jo-Ann Eunson, '83, has been appointed commercial automobile insurance specialist for Automobile Insurance Plans in Johnston, Rhode Island. She recently served as manager of the Maine, New Hampshire, and Vermont Insurance Plans.

Sally Jo Sylvester Shaw, '80, is entering her ninth year as the Payroll Clerk/Secretary to the Superintendent of Schools in MSAD #42. She and Brian will be celebrating their eighth anniversary in April. They have two children, April 3 and Michael James 6.

She writes that she misses everyone and would especially love to get together with the "Delta" sisters. She also sends her regards to Dr. Kinney and to Bob and Jane Goodwin.

Takayuki Bun '88, has taken a position with an advertising firm in Japan. He will start in April. He writes, "I had a very good time at Husson College, and I will never forget that."

Robin Watson, '82, was married to David Fisher on November 19, 1988 in Milo. Robin is employed by the town of Milo and David works for the Bangor and Aroostook Railroad. Robin and David reside in Brownville.

Judith Adley, '84, is engaged to Victor Collette. Judy is employed by Accutemp in Scarborough in the Accounting Department. Victor is owner of Calvic Commercial Repair Co. of Portland. A May 20, 1989 wedding is planned.

Michael Linkenback, '86, has been named retail advertising manager by the *Central Maine Morning Sentinel.* Michael lives in Fairfield.

Adel Al Alawi, '83, writes from Bahrain that he has been home doing research for his doctoral thesis. He is a Ph.D. candidate at the University of Leeds in England. He will return to England in January.

Kellie Parker, '88, is currently employed by the Sales Office for Eastern Express at Bangor International Airport. Kellie resides in Clinton.

Marcia McInnis, '80, is working in the Finance Office at Maine Maritime Academy in Castine. She was in to visit recently and we had an excellent time discussing "the good old days."

Simeon Omogbenigun, '85, is currently on the Faculty of the Federal Government College in Odogbulu, Ogun State, Nigeria. He sends his Christmas greetings to all his friends at Husson.

Lou Ann Chipman, '82, (ETE) was recently engaged to Stephen Benton, Jr. of Hancock. Lou Ann is employed at Maine Coast Memorial Hospital. Stephen is employed by Nautilus Marine. Lou Ann and Stephen plan a May 20th wedding.

Gail Corey, '85, is a physical therapy aid with Sports and Orthopedic Rehabilitative Therapy, Inc. of Bangor. Gail continues to be a great fan of the Lady Braves, and attends the games often.

Janis Piper, '86, has been named assistant manager of Hancock County division of Bangor Hydro-Electric Company. Janis joined the utility in 1977. She resides in Ellsworth.

Marc Carrier, '81, (TEP) has been promoted to treasurer at Summit Communications in Portland. Marc and his wife, **Jean (Joy), '82,** reside in Lewiston.

Linwood Stover, '87, has opened a new accounting and tax business at 68 High Street in Belfast.

John P. Kelly

John P. Kelly, '80, has been named a sales representative for F. S. Plummer Co., Inc. Kelly was formerly a salesman for Carlson Real Estate, North Andover, MA, specializing in new construction sales.

A native of Bath, Kelly was educated there and received his B.S. in business from Husson College in 1980. A highly ranked tennis player in New England, he taught the sport for 5 years before becoming a licensed broker and entering the real estate business. He was Carlson Real Estate's leading salesman for two years prior to his return to Maine in 1988.

Kelly will be responsible for sales of homes to be built in F. S. Plummer Co. developments and for homes built by the company on private lots.

Although he still plays tennis, Kelly's favorite recreations now are sea kayaking and cycling. He and his wife, Jami, live in Biddeford with their 5-month-old son, Stefan.

Gary Michaud, '88, TKE was married on October 21 to Lynn Martin in Frenchville. Gary is employed by Bradish-Young, Inc. of Portland and Lynn is employed by Ocean Breeze Hair and Skin Salon in South Portland. The couple reside in Freeport.

Vicki Weed, '87, and Harvard Jordan were married on October 29 in Ellsworth. Vicki is employed as a nurse at Eastern Maine Medical Center and Harvard is employed by Ellsworth Feed and Seed Company. The couple reside in Ellsworth.

Elizabeth "Beth" Gerry, '84, was recently engaged to Michael Kimsey. Beth is employed by Laeger Associates of Bangor. Michael is employed by the United States Postal Service in Bangor.

Cynthia Reddy, '86, was recently engaged to Steven L. Small. Cynthia is employed by Bruce R. Reddy C.P.A. Steven is employed by United Parcel Service and by Douglas Small. Cynthia and Steven plan to be married on April 22nd.

Steven Lavasseur, '84, coached the Schenck High School girls' basketball team to their third Class C Eastern Maine Basketball Championship. Subsequently Schenck went on to win the State title.

Fayez Al Ali, '87, stopped in for a surprise visit in February. Fayez is employed by the Ministry of Defense in Kuwait. He misses Bangor and speaks very fondly of his years at Husson.

Randy Harris, '85, coached the Lee Academy boy's basketball team to the Eastern Maine Class "C" Finals where he lost to a John Bapst team coached by **Bob Cimbollek, '59.**

Other Notes

Thomas A. Greenquist, former Husson Trustee, was chosen to receive the Norbert X. Dowd Achievement Award for 1989 at the Greater Bangor Chamber of Commerce Annual Dinner.

Tom was chosen by the Board of Directors because of his dedicated service and significant contributions to the area over the past 25 years. Tom currently serves as chairman of the board and president of the Bangor Hydro-Electric Company. He resides in Brewer with his wife, Ruth. They have two sons, Mark and Todd.

Attention Classes 1966 - 1969

As the 20th anniversary of the graduating class of 1969 approaches, members are busy planning a Husson reunion for this summer in Bangkok, Thailand. Burt (Puchong) Phornphiboon (class of 1968) and Earl Goodyear (class of 1969) have held periodic reunions — limited to themselves — in Thailand since 1972. This year they are pleased to expand the invitation to include members of the 1966-1969 graduating classes. If interested in attending this reunion in the beautiful city of Bangkok in July, please contact Burt or Earl at one of the following addresses:

Puchong Phornphiboon
96 Mu 5 Patnakarn Road
Klong-ton, Parkanong
Bangkok, Thailand

Earl J. Goodyear, Director
CARE Sudan, c/o CARE USA
660 First Avenue
New York, NY 10016
